ABOUT US

Ess Kay Lathe & Machine Tools is a name that is deeply associated with shapers, milling and planner machine production. Established by SK Shori and Vishal Shori in the year 1982, we have an experience of 31 years in this sector. Our product range includes shaper machines, milling machines, power press machines, shearing machines, CNC lathe machines etc. We are progressing each day with the support and love of our clients.

From the very beginning, our immense dedication towards our work make us the prime choice in the entire global market. Our commitment to excellence has taken us many miles ahead of our competitors. We work hard to add value to our client's business by delivering quality products. To fulfil this goal, we assign highly trained staff. We involve them in the continual quality development procedure. All our work is done with sincerity and responsiveness.

Since our inception, we are only determined to offer excellent quality products. Our products hold extreme importance in commercial industrial manufacturing units. Our products are easy to install and use, enhanced with extensive lubrication technologies, supreme quality and high performance. Being a distinguished brand Ess Kay Lathe & Machine Tools always aims towards delivering products that are of supreme quality in their respective field.

Our USP

We use different innovative techniques to manufacture our products. This is to meet the increasing market demands. To make excellent quality products, we always use superior quality raw materials along with the latest technologies. Our products are capable to offer effective results as they arrive in the market after rigorous quality checks.

We include a team of expert members. They have years of experience in the industrial equipment sector. Another feature of our company is our rapid and hassle-free delivery procedure. Our highly skilled teammates work with their best efforts to make our product supply chain the most efficient. We offer excellent quality packaging for our products.
