# About Us

Established in the year 2014 in Surat, Gujarat, India, We, Shinelabb Diamond are manufacturer, exporter and supplier of Lab grown diamonds and Lab grown pointer diamonds. We aim for good shopping experience to our customers. Therefore we strongly believe in the following

- Complete Transparency
- Provide Best Price
- Provide Exquisite Collection
- Customization
- On Time Delivery

## Our Team

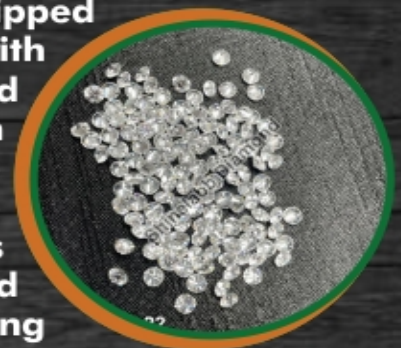

Our energetic distribution team makes sure each and every order is delivered on or before its stipulated delivery date. If there is delay that is likely to occur due to any unavoidable circumstances or external factor we inform client at the earliest.

## Our Manufacturing Unit

We have designed state of art diamond growing lab and are equipped with advanced 4th generation laser processing systems with integrated in-house built software for laser beam stability and robotic CNC control features to perform systematic production cycle with error free operations. At each stage we have made sure apt and skilled staff is there to pull out finest and pure range of diamond from rough diamond. Our team also consists of physicists and experts to provide you the most exquisite and pure range of diamonds and designers to understand the growing demand and need, market has.

## Our Mission

For extracting natural diamonds that grow in the mantle of the earth, deep excavation and mining is performed. Mining diamonds causes air, water and land pollution, thus destroying the natural habitat for animals. For our own selfish purpose of obtaining diamonds from the earth, loss of biodiversity is not justified when the same diamond can be grown in the laboratory. So our mission is to bring awareness about how lab grown diamonds are beneficial to nature and mother earth and to go sustainable with our choices. All our diamonds are mining and conflict free

# Our Products

## 0.18 - 0.22 mm Lab Grown Diamond
