ABOUT US

Horizon Grinding Solutions

Headquartered in Morbi, Gujarat, Horizon Grinding Solutions is a leading manufacturer supplier and exporter of Back Fill Earthing Compound. Established in 2009, we specialize in providing top-quality earthing solutions designed to enhance electrical safety and ensure system stability. Our products are engineered to deliver superior conductivity, creating a low-resistance path for electrical current and reducing risks to both equipment and personnel.

Understanding the critical role of earthing in electrical systems, we at Horizon Grinding Solutions are dedicated to delivering reliable solutions that meet rigorous quality standards. Our Back Fill Earthing Compound is formulated with precision to ensure that it maintains excellent conductivity, providing effective and lasting earthing performance.

Our commitment to quality is reflected in the expertise of our team. We employ experienced professionals with extensive knowledge of earthing principles and applications. This expertise allows us to offer comprehensive support to our clients, from helping them select the right products to providing technical guidance and ongoing assistance.

At Horizon Grinding Solutions, customer satisfaction is our top priority. We foster strong relationships with our clients through exceptional customer service, timely deliveries, and competitive pricing. Our dedication to exceeding expectations has made us a trusted partner for industries across India.

We stand out in the market because of our superior-quality products, a team of experts, unmatched customer service, and competitive pricing. Whether you're a large industry player or a small-scale operation, Horizon Grinding Solutions is your go-to partner for reliable earthing solutions.
