# ABOUT US

Mamsons (India) Steel Processors

Mamsons (India) Steel Processors is a steel products manufacturing company in Dhanbad in Jharkhand. Owned by Mr Anwar Ahmed, the agency has been running successfully since its inception in 2012. The company is only looking forward now to expanding its business on a larger scale. They manufacture and supply to home state Jharkhand and all over India. They are into manufacturing and providing services.

## WHAT WE PROVIDE

We have a different way of handling our business. We have divided our enterprise into two divisions. One wing takes care of the manufacturing of our products while the other provides service.

In our manufacturing unit, we fabricate different kinds of sheds like the arch-type of a shed. We also manufacture factory shed, warehouse shed and auditorium. We are one of the leading names in manufacturing prefabricated sheds.

To protect your sheds, we have steel doors and rolling shutters. Our steel doors are namely pressed steel

doors, wooden finished, plain and swing types. We also manufacture various rolling shutters like motorized, automatic, perforated and aluminium types.

The sliding doors from our factory are various. They are sensor sliding doors, glass, automatic and wooden sliding doors. To fit your doors properly, we have steel door frames. Other products like barriers, plates, moulds, towers, railings, and printed wallpaper come rolling out from our factory.

We provide services like fabrication with steel and aluminium. Developing showrooms is another service that we provide. If your requirements match our products and services, kindly contact Mr Anwar Ahmed.
