

AddON

Film Tech Pvt. Ltd.

At Addon FilmTech, we leverage over five decades of industry expertise to deliver superior packaging solutions. Our state-of-the-art manufacturing facility boasts modernized production lines and advanced extrusion and orientation technology, allowing us to produce PET shrink films with high shrinkage ratios, excellent physical and mechanical properties, and exceptional clarity and transparency. With a total manufacturing capacity of 12,000 metric tons per annum, we are well-equipped to meet the diverse needs of our customers for PET and COPET Shrink Films both locally and in Exports Market

About US

"Addon FilmTech Pvt. Ltd. is a leading specialty polyester film manufacturer based in Surat, Gujarat, India. Established in 2021, Addon FilmTech emerged from the PET division of Manish Packaging Pvt. Ltd. following its demerger in 2024. Founded by Mr. Manish Patel, who has over 30 years of experience driving growth at Manish Packaging, Addon FilmTech is driven by a passion for innovation, sustainability, and quality. Our goal is to set new benchmarks in the industry by focusing on the manufacturing, supply & export of PET and COPET Shrink Films. Addon FilmTech Pvt. At Addon FilmTech, we leverage over five decades of industry expertise to deliver superior packaging solutions. Our state-of-the-art manufacturing facility boasts modernized production lines and advanced extrusion and orientation technology, allowing us to produce PET shrink films with high shrinkage ratios, excellent physical and mechanical properties, and exceptional clarity and transparency. With a total manufacturing capacity of 12,000 metric tons per annum, we are well-equipped to meet the diverse needs of our customers for PET and COPET Shrink Films both locally and in Exports Market.

We are committed to sustainability and environmental stewardship. Our PET Shrink Films, including CSP and RSF grades, are designed with recyclability and the circular economy in mind. These films incorporate recycled PET (rPET) materials, reducing reliance on virgin plastic and promoting eco-friendly practices. Our CSP grade films are crystallizer-friendly and recyclable, enabling seamless integration into existing PET bottle recycling processes without compromising quality.

Addon FilmTech's dedication to innovation is reflected in our robust Research and Development (R&D) initiatives. Our R&D team continuously drives product improvement and innovation, ensuring that our packaging solutions meet evolving market demands and customer needs. Our focus on sustainability extends to our manufacturing processes, where we utilize renewable energy sources such as solar and wind power to further minimize our ecological footprint.

Our PET shrink films offer superior clarity, exceptional strength, and customizable options to suit various labelling requirements. They provide 360-degree design coverage, tamper-evident seals, and are ideal for use on contoured bottles and containers. Accredited with ISO 9001-2015 certification, we adhere to stringent quality standards, ensuring consistent product quality and reliability.

Choose Addon FilmTech for innovative, sustainable packaging solutions that elevate your brand while reducing environmental impact. Our customer-centric approach ensures responsive support and personalized solutions, making us the ideal partner for your packaging needs.

Our PRODUCTS

WF Grade PET Shrink Film

Business Type	:	Manufacturer, Exporter, Supplier
Material	:	PET,PETG,COPET
Color	:	Transparent, Opaque White, Matte
Application	:	Shrink Sleeve Labels

HSP Grade PET Shrink Film

Business Type	:	Manufacturer, Exporter, Supplier
Material	:	PET,PETG,COPET
Color	:	Transparent, Opaque White, Matte
Application	:	Shrink Sleeve Labels

PETG Shrink Film

Business Type	:	Manufacturer, Exporter, Supplier
Material	:	PET,CPET,PETG,COP ET,RPET,RPETG
Color	:	Transparent, Opaque White, Matte
