MC Industry began in the centre of Meghalaya's Shillong. We have strong roots in this colourful country. We are proud to introduce regional handicrafts to a global audience. Each piece we make narrates a tradition's tale. Our modest initial goal was to use our products to highlight the beauty of our history.

● What We Offer

Our expertise includes designer lungis, bamboo products, and cotton shawls. Every piece is painstakingly made by hand. We provide lovely cotton shawls. They are appropriate for every situation. Our trendy lungis are created using contemporary styles. They are tasteful and cosy. Our bamboo goods are sustainable. We support sustainable living. We have a wide assortment of products, all well-created.

● Our Craftsmanship

Our craftsmen are the MC Industry's core. Years of experience are what they contribute. Every product is a work of art. We work using premium materials. We employ conventional techniques. Our goods are a reflection of Meghalaya's vibrant culture. Our creations are distinct. Our goods are robust. Every item is made to our exacting standards. We favour excellence above quantity.

● Our Vision

At MC Industry, we have lofty goals. Our goal is to introduce the world to the allure of Shillong crafts. We want our goods to work their magic on everyone. We provide our local artists support. We advocate for environmentally friendly behaviour. Our goal is to establish a worldwide society that values our cultural history. Our goal is to provide perfection.
