About Us

BOLTORQ Brassmet Industries

BOLTORQ BRASSMET INDUSTRIES has a proven track record of excellence and commitment in both domestic and international markets spanning over a decade.

We provide products in various metals, including brass, zinc, and stainless steel, and offer customized solutions precisely matching customer specifications. Our commitment is to deliver superior quality that meets customer expectations at competitive prices.

Our 10,000-square-foot manufacturing facility integrates in-house metal extrusion, fully automated CNC machining, and a comprehensive tool room equipped with VMC, wire EDM, surface grinders, turning, stamping, and pressing capabilities.

Our product line encompasses cable glands, lugs, cleats, terminal bars, metal boxes, battery terminals, and earthing and lightning protection accessories.

Our facility holds ISO 9001 and 14001 certifications, and we possess the resources to manufacture and supply components to any specified metal composition, meeting stringent quality standards. All products rigorously adhere to relevant BS, EN, and EC standards. Our dedicated and highly skilled team prioritizes customer needs, ensuring prompt and timely product delivery.

Our Vision:

Our vision is to achieve global leadership in the design and manufacture of precision custom metal components, serving diverse industry sectors. We are committed to building a reputable and socially responsible organization that consistently delivers exceptional value to all stakeholders.

Our Mission:

Our mission is to deliver superior products at competitive prices through technological innovation and collaborative teamwork. We are committed to cultivating long-term, mutually beneficial relationships with suppliers and customers, founded on respect and shared success.

Our Core Values:

We maintain the highest ethical standards, prioritize customer satisfaction, and operate with complete transparency. We are committed to human capital development, continuous improvement initiatives, cost efficiency, resource optimization, productivity enhancement, employee empowerment, and accountability.
