## WHO WE ARE

**Natural Agro Foods** has earned the trust and confidence of our global customers / buyers by providing best-in-class products, delivering it at the right time, round the clock and across the globe! Natural Agro Foods is a food division of Natural group of companies. The company was started by Mr. Riyaz Meghani & Mr. Meghani has more than 15 years of experience in the same field. His management skill and vast domain experience are driving force behind growth of company.

We at **Natural Agro Foods** truly believe that customers are the most important aspect for the success of any organization hence "Customer Delight" is the top most objective at Natural Agro. We truly wish to have long term relationship with customers who believe in receiving quality products and we assure service in timely deliver and commitments. Our workforce and experienced team are solely responsible for growth and success of organization.

The unit is developed near the city of Mahuva in Gujarat. The area is one of the biggest onion growing regions in India with best variety of White onion growing. The unit is having 2 dryers with a capacity of total 15mt of dehydrated onions per day. The dryers are made of food grade stainless steel to avoid any rustlings in the unit for years and keeping in mind the food safety and food norms to supply in EU countries. The pre-processing and post-processing equipments are also made of stainless steel and with total automation to minimize manual handling and reduce risk of foreign material in the product and reduce microbiological load in the product.

The unit is developed with BRC standards to cater highest standard of products and to companies who prefer quality above everything. We regularly keep a monitor of product check in our in-house centralized laboratory. We regularly have physical, chemical and microbiological tests in the laboratory.

**15 YEARS OF EXPERIENCE**

# Our Production Unit

## QUALITY

As a nationally reputed organization, we are totally committed to offer quality products manufactured as per international standards in an ultra modern manufacturing facility equipped with latest machinery. Fully equipped quality control department and its dedicated team ensure that adherence to total food safety management system is implemented at all levels from raw material procurement, food processing and storage, to shipment of finished product.

We are in the process of setting up farmers training center to closely work with the farmers in the regions to educate and encourage adoption of Agricultural technology for increasing crop yield and land productivity.

R&D team equipped with latest equipments will be responsible for development of newer product lines and innovative packaging to keep pace with market trends.
