

RIYEKO MECHATRONICS
AND AUTOMATION

*Year of
Establishment
2024*

The beginning of our adventure at Riyeko Mechatronics And Automation is in Gurugram, Haryana. A gap in the market was observed. Supplier for quality gearboxes, VFDs and HMI's was absent. We chose to close that gap. Our trip started with a very clear vision to offer the best possible products. Our goal was to raise the bar with quality products.

Initially we had difficulties. With tenacity, we defeated them. Our group put in a lot of effort and we have been working endlessly. Our diligence paid off and now we are a reputable brand these days. We provide VFDs, gearboxes and HMI's to various sectors. We are working continuously to achieve our aim of delivering quality products in minimum time.

Our Products

We are experts in VFDs, HMI's and gearboxes. However, we believe in providing more than simply goods. We believe in delivering solutions. Our products are robust and designed for tough conditions. They can withstand challenging circumstances. We provide a wide range of products to satisfy particular requirements.

Every product is put through extensive testing. We make sure they satisfy the highest quality standards. Our products improve performance. They cut down on idle time. They have been propelling our clients' success.

Our Approach

We are experts in VFDs, HMI's and gearboxes. However, we believe in providing more than simply goods. We believe in delivering solutions. Our products are robust and designed for tough conditions. They can withstand challenging circumstances. We provide a wide range of products to satisfy particular requirements.
