

# WHALE **LITEJET** SPECIFICATION

## WHALE **SUPPORT**

One of Whale's primary objectives is to maximise operating performance by keeping downtime to an absolute minimum, leading to significantly reduce whole life costs. This is achieved by ensuring we can provide service support across all Indian states. Whale stock an extensive range of appropriate parts.

## WHALE **QUALITY**

Whale Enterprise cares about quality across all aspects of its business. Indeed it is a word that characterises the company. Whale complies to ISO 9001 and all Whale products fully comply with all relevant legislation and regulations. It also has the benefit from being supported by its UK parent company Whale Tankers the largest manufacturer of vacuum tankers and jetting equipment in Europe.

## WHALE **TRAINING**

Central to Whale's success is not only the training of its staff but also the provision of structured training for its product. This meets the changing needs of today's Indian water and sewage infrastructures. The company is also respected for its onsite commissioning of all new products.

Whale Enterprise manufacture a wide range of products and vehicle types and provide many other services. # WHALE **LITEJET**

## THE VERSATILE PERFORMER

Powerful and  
economical  
cleaning  
and jetting unit

Reliability, Service, Value ... for Life

## High Pressure Jetting Unit

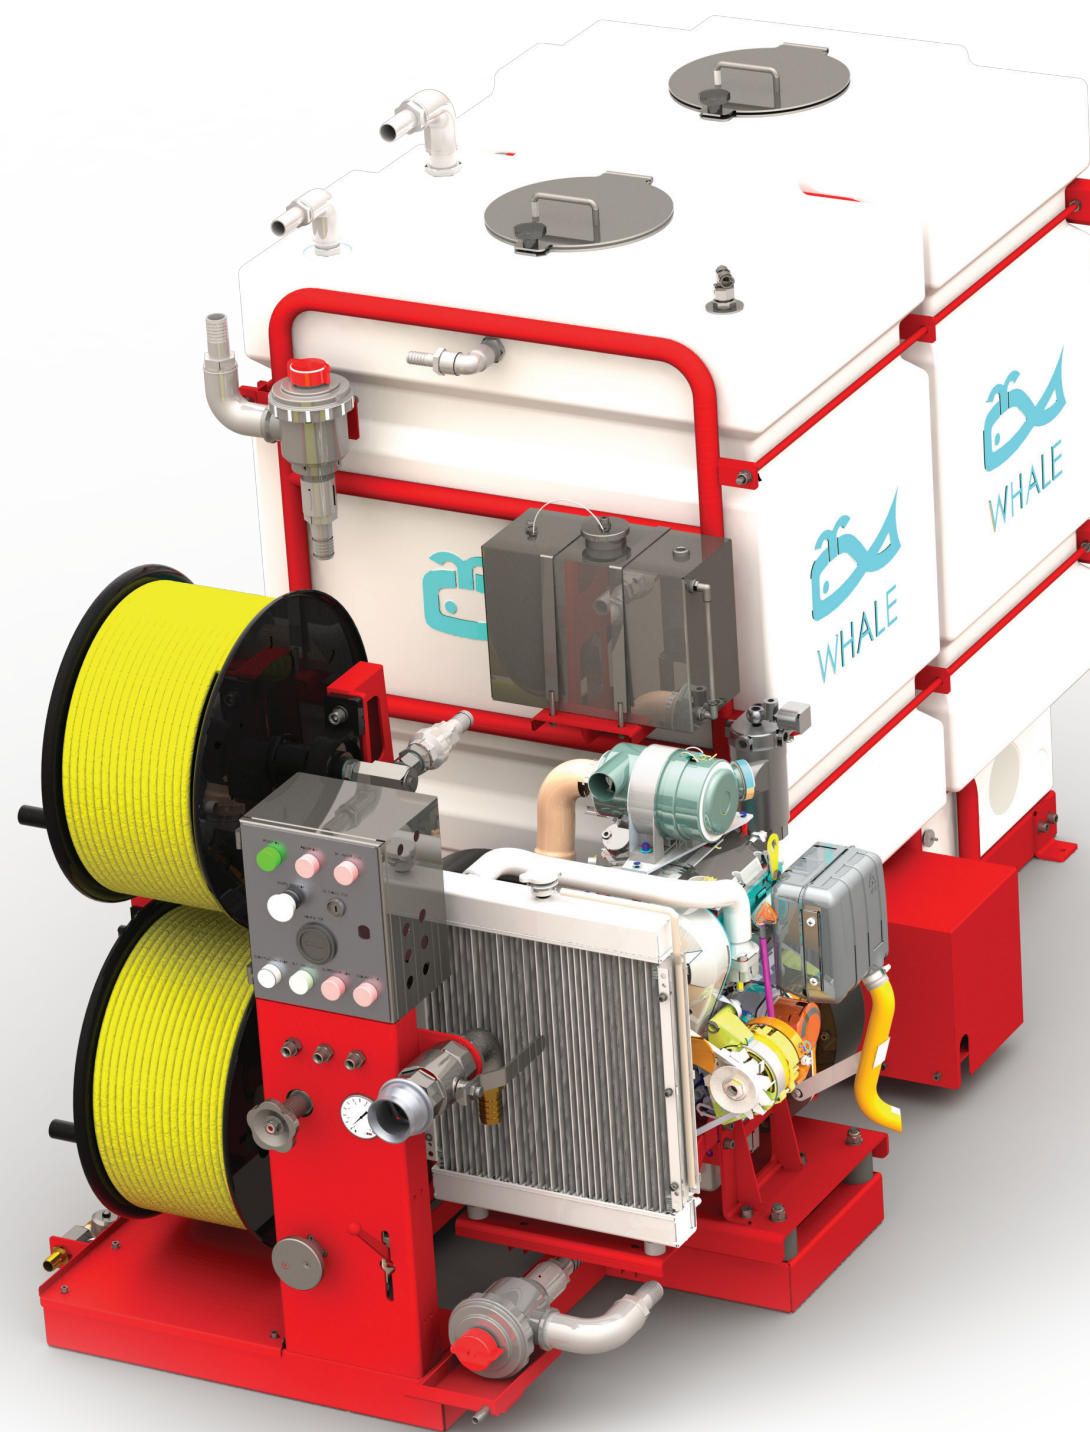

The WHALE LiteJet is a jetting unit designed to either fit into a small LCV such as the Tata, Piaggio or Mahindra, all of which are ideally suited for narrow roads and confined spaces where a tight turning radius is required. Additionally they may also be used as a stand-alone static or trolley unit dependant on customer requirements.

The powerful triplex jetting pump has been incorporated into the overall design so its performance is suitable for a range of cleaning processes: dislodging and removal of obstructions, unblocking underground sewer lines up to a diameter of 300mm, general pipe and cleaning operations, or as a dedicated floor cleaner. Thanks to the innovative design of both the units' tubular structure frame and HDPE water tank, it is very lightweight, thus optimising the capacity of water that can be

transported and enabling the unit to operate the jetter for a

longer period of time. The controls have

been ergonomically designed to ensure operator comfort whilst also having a number of safety features included. The unit comes equipped with an extensive range of standard equipment, but a wide choice of unique options and accessories are also available. All these benefits ensure this is an ideal jetting unit suitable for a cross section of cleaning activities and it is competitively priced.

### Standard Features

- Low level water cut-off protection
- 10 Ltr Diesel Fuel tank
- One Egg Nozzle
- Safety Un-loader valve for overload protection of Jetting Pump
- Pressure regulator for infinite adjustments till the full range

# Reliability, Service, Value ... for Life

### LITEJET

Engine	12.6 Kw / 17 HP
Start System	Electric
Pump	Pratisolli or Speck 30 LPM/ 190 bar
Tank Capacity	500 Ltr
Empty Weight	330 Kg (Approx)
Overall Dimension	L=1590mm, W=1200mm, H=1440mm
Drive HP Reel	Manual
HP Sewer Jetting Hose	3/8", 30 m
Water filling Hose Reel	Optional

### LITEJET PRO

Engine	16.4 KW / 22 HP Diesel
Start System	Electric
Pump	Pratisolli or Speck 50 LPM/ 150 bar
Tank Capacity	1000 Ltr
Empty Weight	432 Kg (Approx)
Overall Dimension	L=2290mm, W=1300mm, H=1440mm
Drive HP Reel	Manual
HP Sewer Jetting Hose	1/2", 30 m
Water filling Hose Reel	Optional

### Optional Features

- Manually operated water filling hose reel with 50m. 3/4" filling hose
- Hydraulic drive for HP reel and extendable layered hose guiding system
- Hour Meter
- 60 m instead of 30 m Sewer Jetting Hose
- 50 m Water Filling Hose Reel
- Spray Gun with Lance
- Nozzle set consisting of 3 nos
- 2nd HP Reel instead of Water filling reel
- Additional water tank capacity in steps of 500 Ltr
- Can be mounted in suitable chassis as per customer requirement
