

FEATURES

- Powerful, self-contained machine ideal for lateral lines. Easy to transport with minimal set-up. Attach a tool and go!
- AUTOFEED control advances and retrieves cable with a push of to 20' (6m) per minute.
- Handle provided to reverse and forward the spring rod.
- Cable spins at 145 RPM.
- Hard rubber and easy transport.
- Tough corrosion resistant cable drum withstands harsh treatment and abuse. It will not dent or corrode and it is easy to clean.
- Drum holds 100' (30.5m) of 3/4" (20mm) cable and is designed for quick and easy removal.
- Balanced design gives the machine a 'lightweight feel'. Transport wheels ease loading into service truck/van.
- Equipped with 550 watt induction motor.

Standard 3/4" (20mm) tool set includes:

- Spear cutter
- Retrieving tool
- 2" (50mm) cutter
- 3" (75mm) cutter
- 4 1/2" (110mm) cutter

Electric motor	1 HP, single phase, 240V/550W, reversible motor
Drum capacity	100'
Jet rod size	3/4"
Size of working drainage pipe	4" to 8"
No load speed	145 RPM
Weight	43kg without spring rod

Reliability, Service, Value ... for Life

WHALE | MOBIJET MOTOR DRIVEN

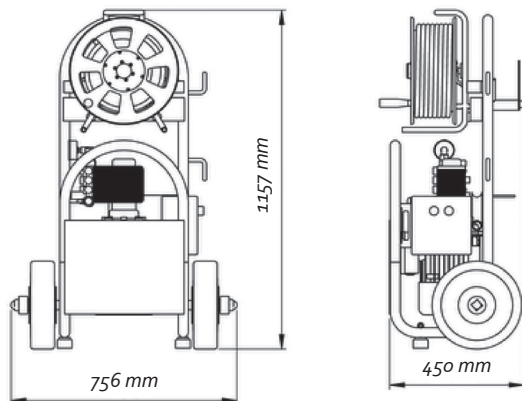

FEATURES

- Un-loader valve pressure regulation adjustment.
- Inbuilt pressure relief valve to unload water overload protection.
- Detachable hose reel which reels 30 Meter Hose length. Sewer jetting hose is highly qualified high pressure jetting hose.

Water Pressure	150 Bar
Water Output Flow	14 LPM
Motor Power	5 HP, Volt 415 ± 10 %, Three Phase
Duty	Continuous Duty
Weight	75 KG
Total Dimension	750 X 450 X 1150
Water supply	Direct tap connection
Nozzles	2 nozzles 1/4"
Sewer Cleaning Pipe Size	2 Inch - 4 Inch
Accessories	High pressure gun with 450mm lance two qty to extend for roof cleaning, 30 M Jetting Hose Size: ID 5/16"

The Mobile Jetting Machine is a high pressure jetting machine for residential and light commercial use. Equipped with a silent and powerful electric motor and professional pump it is ideal for cleaning drains from 1 1/4" - 4" pipe diameter.

The Mobile Jetting Machine is easy to transport on stairs or in the elevator. The hose reel unit can be easily removed and used independently from the motor-pump unit meaning you can leave the motor pump unit behind if the workspace is limited.

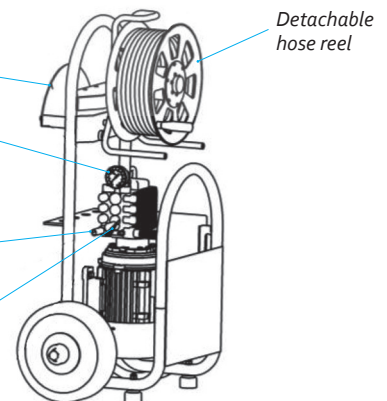

On the rear side, accessory holder for guns, nozzles and extension lances

Easily accessible oil filler neck, oil level gauge and manometer

Water inlet with aluminium water filter

Triplex plunger high pressure pump cast brass pump head

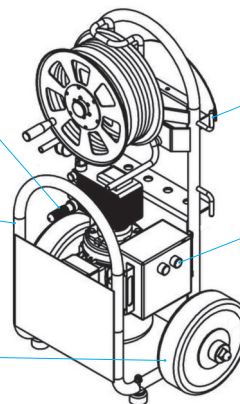

Pressure regulation

Tubular frame

Extra large solid rubber wheel

Cable holder for 5.0 m electric cable, 230V / 400V connection

Electrical control box On/Off switch

Reliability, Service, Value ... for Life
