# ABOUT US

Sistrum Engineering Solutions Technology Private Limited, founded in 2017 in Chikkaballapur, Karnataka, has emerged as a prominent manufacturer, exporter and supplier of eco-friendly biomass products. Under the visionary leadership of Mr. Arvind Kumar M, the company is dedicated to promoting sustainable energy solutions through the production of high-quality biomass briquettes, wooden pellets, and wood powder.

Our product range includes 90mm Biomass Briquettes, Mixed Wood Biomass Briquettes, Wooden Pellets, and Wood Powder, all of which are crafted with precision and a commitment to environmental stewardship. The 90mm Biomass Briquettes are known for their high energy output and efficiency, making them a preferred choice for industrial applications. Mixed Wood Biomass Briquettes, combining various types of wood, offer a versatile and sustainable alternative to conventional fuels.

Wooden Pellets, another key product, are widely used for heating and energy generation, providing a renewable energy source that reduces carbon emissions. Additionally, our Wood Powder is highly valued in industries for its fine texture and consistency, used in various manufacturing processes.

At Sistrum Engineering Solutions, we prioritize quality and sustainability in every step of our production process. Our state-of-the-art facilities and skilled workforce ensure that we deliver products that meet the highest standards of quality and performance.

We are committed to contributing to a greener future by offering products that not only meet the energy needs of our clients but also support environmental conservation. Through our innovative approach and dedication to sustainability, Sistrum Engineering Solutions Technology Private Limited continues to be a trusted partner in the energy sector.
