A BEAUTY THAT STAY FOREVE.

# ABOUT US

The strategic perspective of STATUS is enriched with a new technology, with a horizon of beauty, creativity and functionality, which puts the values of ceramics at the center.

STATUS'S collections embody the combination of beauty, design and nature, in a perfect equilibrium achieved through what has always been a deliberate and thought-out approach. Our constant commitment, supported by continuous technological research, has enabled us to improve and to develop a "sustainable" porcelain stoneware, made with natural materials and with the partial use of recycled materials.
