Aatul Nursery & Bio-Tech was established in 2009 in Gujarat, India, and is a leading manufacturer, exporter, and supplier of high-quality tissue culture plants and agricultural inputs. The company specializes in tissue culture date palm plants, fruit plants, ornamental plants, and forestry plants, developed using advanced biotechnology for uniform growth, high yield, and disease-free performance. It also offers premium agricultural fertilisers to support healthy crop development. With a strong focus on research, quality control, and sustainable farming solutions, Aatul Nursery & Bio-Tech serves farmers, nurseries, and agri-businesses across domestic and international markets, delivering reliable planting material and innovative agro solutions.
