R. B. Chains is counted among the leading Manufacturers, Exporters and Suppliers of 925 Sterling Silver Products and 999 Silver Statue. Mr. Amit Kumar laid the foundation of the company in Agra (Uttar Pradesh) in the year 2000. Due to a vast experience in this domain and under the valued assistance of a visionary Owner, we are heading towards great levels of success.

History : In the year 2002, we had started our trading division to cater to the needs of the international clients for quality hand-made classic Indian gold Jewellery. Then, in the year 2003, we started our Art Jewellery Division to cater to the world-wide emerging demand of fashion jewellery.

Our Resources : The real resources that assist us in making available the finest quality Silver Statues and Designer Jewellery is our well-managed infrastructure and superior craftsmanship of a dedicated and skilled team of professionals, which are an indispensable part of our work culture.

Testing Facilities : We have maintained two distinct R&D laboratories. In one laboratory, the up gradation of existing processes and products are conducted which, leads to the development and adoption of cadmium-free brazing alloy. In another laboratory, development and adoption of new processes and products takes place that results in the development of electro-less gold plating. Specifically, dielectric coating after electro-less gold plating, electro polishing before electro-less gold plating, newer buff-polishing compound for mirror finishing, precision CNC cut bangles and wedding bands are some of the areas of our current R&D efforts for newer processes and products.

Quality Policy : We put special emphasis on the quality of the goods that we bring forth to the clients. We make use of highly pure metals for the purpose of alloying. Furthermore, we have designed process parameters that are strictly controlled during the entire manufacturing and designing process. All the products are tested on different parameters to ensure consistency in the flawless quality of the finished products.
