We at Chemtreat Technologies think that innovation is driven by chemistry. Since our founding in Kolkata, West Bengal, we have become a reputable chemical sector brand. Our quest began with a desire to provide excellent chemical solutions.

### ● What We Do

We produce a large variety of Metal Finishing chemicals for use in different sectors. We offer effective solutions, whether you want cleaning supplies, speciality formulations, or chemicals for water treatment. Our tools help companies streamline and improve the sustainability of their processes.

### ● Why We're Different

We produce more than simply chemicals. We produce originality. Our R&D department at Chemtreat Technologies is proud of what we've accomplished. Our team is always experimenting with new recipes to make safer, better goods.

Sustainability is the main focus of our strategy. Our objective is to lessen the harm that our production methods do to the environment. Our goal is to fully investigate the possibilities of substances.

### ● Quality You Can Trust

Our trademark is quality. Every batch we make is put through a thorough testing process. Our professionals make sure that our chemicals are up to par, safe, and effective. We are aware of how important consistency is to your company. We adhere to tight standards as a result, so you can always rely on our products. Quality is a guarantee while working with us.

## LIST OF OUR PRODUCTS

### CLEANER

MAXCLEAN 110:- Alkaline powder cleaner for ferrous  
MAXCLEAN ECF 158: Alkaline powder electro cleaner for ferrous  
MAXCLEAN ECNF 169: Mild alkaline powder electro cleaner for non ferrous  
MAXCLEAN NF 116: Mild alkaline powder cleaner for non ferrous  
MAXCLEAN DRF 160: Acidic derusting for ferrous  
MAXCLEAN AL 143L: Liquid aluminium cleaner cum etchant  
MAXCLEAN AL 145P:- Powder mild alkaline cleaner for aluminium  
MAXCLEAN 140:- Alkaline etching chemical for anodizing process  
MAXCLEAN:- Liquid neutral cleaner, additive for alkaline/acidic cleaner  
ULTRAWAH 666L:- Ultrasonic cleaner for non ferrous parts  
ULTRAWAH 110L: Ultrasonic cleaner for ferrous parts  
ULTRAWAH 150L-Cleaner for zinc die castings

### ACID ZINC PLATING PROCESS

MAXBRITE CLZ 85R/1856R/3086R:- High performance acid zinc brightener  
MAXBRITE CLZ 85M/1856M/3086M:- High performance acid zinc additive  
MAXBRITE CLZ 38R: Regular economic acid zinc brightener  
MAXBRITE CLZ 38M: - Regular economic water acid zinc additive  
MAXBRITE CLZ 85A:- High chloride zinc metal solution  
MAXBRITE CLZ 85B: Boric content chloride salt

### ALKALINE ZINC PLATING CHEMICALS:

MAXBRITE ALKAZINC 2020MU : Non cyanide alkaline concentrated zinc salt.  
MAXBRITE ALKAZINC 2020A : Non cyanide alkaline zinc plating brightner.  
MAXBRITE ALKAZINC 2020B : Non cyanide alkaline zinc plating booster.  
MAXBRITE ALKAZINC 2020C : Non cyanide alkaline zinc plating conditioner.

### ALUMINIUM & ANODISING CHEMICALS:

ANODAL 50E SALT : Salt for electro colouring Anodising process.  
ANODAL 50E ADDITIVE : Stabilizer for electro colouring Anodising process.  
ANOSEAL : Cold sealing chemical after Anodising.  
MAXPAS 142AL : Chromate conversion coating on Aluminium (powder base)  
MAXPAS 143AL : Chromate conversion coating on Aluminium (Liquid base)

## CHROMATE CONVERSION COATING CHEMICALS FOR ZINC PLATING

MAXPAS BL 114/112:- Blue passivation/ Chromate conversion chemical  
MAXPAS YL 182/180:- Yellow passivation / chromate conversion chemical  
MAXPAS GR 168/1680:- Olive passivation / chromate conversion chemical  
MAXPAS TB 14/140/1900:- Triblue passivation/ chromate conversion chemical  
MAXPAS TY 1170/1170D: Triyellow passivation/ chromate conversion chemical  
MAXPAS EXTRA BLUE: Extra blue chemicals for zinc plating  
MAXPAS WTC:- Water based top coat for zinc coating  
MAXPAS TBK 150/125: Trivalent black passivation / chromate conversion chemicals  
MAXPAS NCZ 3000:- Chrome free conversion coating chemical

## NICKEL PLATING

MAXBRITE NI 1733:- Super bright nickel brightener  
MAXBRITE NI 1993:- Super High levelled bright nickel brightener  
MAXBRITE NI ADDITIVE 1323:- Nickel plating additive  
MAXBRITE NI LEVER 1423:- Extra leveller for bright nickel plating  
NICKEL PURIFIER:- Nickel Bath Solution Purifier  
NICKEL ANTIPIT:- Nickel antipit chemical  
MAXBRITE NI SALT:- Bright nickel salt

## CHROME PLATING

MAXCHROME SRHS:- Decorative chrome plating on bright nickel  
MAXCHROME: HARD CHROME Hard chrome plating salt with activator for hardness  
ARRESTER-L:- Liquid chrome mist suppressing for chrome plating  
ARRESTER-P:- Powder chrome mist suppressing for chrome plating  
CHROME FREE:- Chrome Effluent Reducer

## PHOSPHATING

MAXPHOS RTZ/1180:- Room temperature prepaint(Class B) zinc phosphate coating  
MAXPHOS 120 Z: High temperature prepaint(Class B) zinc phosphate coating  
MAXPHOS 172Z:- Heavy duty (Class 1/A)rust protecting zinc phosphate coating  
MAXPHOS 1310:- Room temperature prepaint iron phosphate coating  
MAXPHOS TONNER 50:- Zinc phosphate bath tonner  
MAXPHOS SEAL 50: Zinc phosphate sealer

### Chemical Products

The company owes its success to a well-trained and dedicated team of professionals having extensive experience in a wide range of chemicals.

### Coating Provider

The Company provides properly formulated Powder Coating, Micron Anodising and Electro Colouring. As testimony towards attaining the highest quality,

### Skill Development

The company are given extensive training and update their knowledge base, to keep abreast of the changing business environment in India.
