**MANUFACTURER
& EXPORTER**

ABOUT US

Namibind was established in the year 1991

We started by manufacturing of office automation business sector 1991, Namibind Being a quality oriented brand, we have appointed a highly diligent team of professional. Our professionals are well versed with the conceptual knowledge and equipped with cutting edge technologies. They ensure the quality of our products must comply with the international quality standards; we work on strong Ethics and principles of clean and long running business standing.

We offer field tested products rather than other brands which solely base their products on closed room analysis. We constantly improve our products both in functionality, durability and operation standards. Our ideology is that there is never an end to the scope to improve any area of business Be it - Product quality, Management or Support. Our Strong Beliefs-Technology and Innovation never stops, so let's keep our pace of making technology handy and affordable always. WE Make products that last longer reduce maintenance and increases productivity Namibind products pass many European and American Safety and Quality standards yet they are priced competitive and affordable in order to provide our customers best value to their investment. Namibind product yields more than any other competitive brands.

All products are designed & developed to enhance the quality, efficiency and productivity of the work place. We are leading manufacturing Paper shredder machine, Card board shredder machine, Pet bottle shredder machine, Organic waste shredder, Kitchen waste shredder ,Garden waste shredder, Card board perforation shredder, Office use paper shredder, Medical waste shredder, High speed shredder, Departmental Shredders, , Multipurpose municipal waste shredder , Laminate shredder, Cellulose shredder, E waste shredder, Industrial waste shredder machine, Document paper cutting machine, Perfect glue binding machine, Industrial roll to roll lamination machine, Document book binding machine, Bundle note counting machine, Industrial cold lamination machine.
