CABLE TRAYS MFG.

At TVASHTA, we are recognized as one of the leading fabricators of cable management systems. We manufacture and supply Perforated Cable Trays and Ladder Trays in Mild Steel, Stainless Steel, Aluminium, and FR grades. Each tray is crafted using high-quality raw materials sourced from trusted vendors, ensuring durability, reliability, and long-term performance.

Our cable trays are available in a wide range of sizes to meet standard customer requirements, with lengths of up to 6 metres. We also manufacture and supply wire mesh trays made from wire rods with diameters of up to 6 millimetres, ensuring strength and durability.

TYPES OF TRAYS

PERFORATED TRAYS

LADDER TRAYS

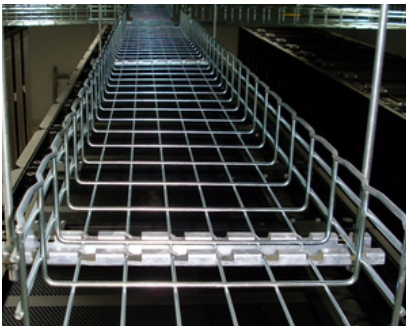

WIRE MESH TRAYS

FRP TRAYS

RACEWAY TRAYS

CABLE TRAY BEND

TVASHTA offers a complete range of accessories for both perforated and ladder-type cable trays, including horizontal bends, vertical bends, inside bends, outside bends, reducers, and tees. We also provide comprehensive cable tray support systems such as strut channels, threaded rods, structural sections, cantilever arms, and hardware. Our cable trays are available in multiple finishes, including self-color, pre-galvanized (GI), hot-dip galvanized (HDG), powder-coated, and painted options.
