Crofter Agro Farming

We are devoted to offering seamless solutions for biogas production, renewable energy generation, and organic manure. Our expertise covers every stage of the biogas journey, from waste collection to energy creation, fostering a circular economy and helping drive India's energy independence. Through sustainable practices, we aim to create a cleaner, greener future for all.

Buland Bio Gas: Empowering a Sustainable Future

At Buland Bio Gas, we are committed to harnessing the power of nature to deliver clean, renewable energy solutions that make a lasting impact. Our mission is to create a future where energy needs are met sustainably, reducing environmental footprints and fostering a healthier planet for generations to come.

What We Do

Buland Bio Gas specializes in the production of high-quality biogas from organic waste, offering an eco-friendly alternative to traditional fossil fuels. By utilizing organic materials such as agricultural residues, food waste, and even wastewater, we convert them into biogas—a clean source of energy that powers homes, industries, and transportation. This process not only helps reduce waste but also mitigates greenhouse gas emissions, creating a positive environmental impact.

Crofter Agro Farming – Where Soil Meets Soul

- At Crofter Agro Farming, we don't just grow crops — we grow trust, tradition, and transformation.
- Born from the idea that farming should heal the earth, not harm it, we've reimagined agriculture as a harmonious dance between nature and nurture. Each leaf we grow, each seed we sow, carries the heartbeat of our philosophy: farm with conscience, harvest with purpose.
- Our fields are open-air laboratories of life — where time-tested wisdom meets regenerative practices. From restoring soil vitality to supporting rural livelihoods, we go beyond farming to build a living ecosystem that benefits people and the planet.
- Whether you're a chef looking for clean produce, a business seeking sustainable sourcing, or a curious soul inspired by conscious living — you're already a part of our journey.

Name of CEO	:	Mr. Pushpendra Kumar Jain
--------------------	---	---------------------------

Year of Establishment	:	2017
------------------------------	---	------

Number of Employees	:	Approx 10 Employees
----------------------------	---	---------------------

Nature of Business	:	Exporter, Supplier, Trader
---------------------------	---	----------------------------

Market Covered	:	Worldwide
-----------------------	---	-----------
