info@haelylasersystem.in

We are pleased to introduce Haely Laser System as a leading manufacturer, supplier & service provider of precision sheet metal components, specializing in laser cutting and metal fabrication services. With advanced capabilities and a commitment to quality, we deliver high-precision, quick-turn solutions for a wide range of industries.

Our expertise lies in the laser cutting and fabrication of flat, round, and structural metal shapes using mild steel, stainless steel, and aluminum. We are equipped to handle both prototyping and volume production while maintaining tight tolerances, superior finishes, and on-time delivery.

At Haely Laser System, we provide:

- Custom laser cutting tailored to exact specifications
- Sheet metal fabrication with reliable turnaround times
- Cost-effective solutions that balance quality and production efficiency

We take pride in being a dependable vendor, offering clients not just components, but a partnership built on engineering precision, operational excellence, and realistic, achievable production plans. Our team is dedicated to meeting project requirements with agility, transparency, and continuous innovation.

Whether you're seeking one-off custom parts or high-volume fabrication, Haely Laser System is your trusted partner for all your metal processing needs.

Nature of Business  
Manufacturer, Supplier & Service Provider

Number of Employees  
25 to 30

Year of Establishment  
2015

Market Covered  
Pan India

Name of Founder  
Mr. Jaydeep Patel

GST No  
24AALFH0633F1ZR

Annual Turnover  
Rs. 5 to 6 Cr. Approx.

Legal Status of Firm  
Partnership

### Mild Steel Hot Rolled Sheet

|                   |                        |
|-------------------|------------------------|
| BUSINESS TYPE     | MANUFACTURER, SUPPLIER |
| COUNTRY OF ORIGIN | INDIA                  |
| SHAPE             | RECTANGULAR            |
| APPLICATION       | INDUSTRIAL USE         |
| MATERIAL          | MILD STEEL             |
| THICKNESS RANGE   | 1 MM TO 50 MM          |
| TECHNIQUE         | HOT ROLLED             |
| FEATURES          | RUST PROOF             |

*Mild Steel Plate Laser  
Cutting Service*

### Mild Steel Plate Laser Cutting Service

|                      |  |
|----------------------|--|
| MATERIAL             | MILD STEEL   |
| THICKNESS RANGE      | 1MM TO 50MM  |
| IDEAL FOR            | MILD STEEL COMPONENTS ACROSS VARIOUS INDUSTRIES  |
| SUPPORTS THICKNESSES | WIDE RANGE   |
| APPLICATION          | SINGLE PROTOTYPE OR HIGH-VOLUME BATCH  |
| PERFORMANCE          | CONSISTENT RESULTS, RELIABLE PERFORMANCE   |
| USAGE                | INDUSTRIAL FABRICATION, MACHINERY PARTS,<br>CONSTRUCTION ELEMENTS, CUSTOMIZED PROJECTS   |
| FEATURES             | PRECISE CUTTING, EFFICIENT, HIGH-SPEED, CLEAN<br>CUTS, TIGHT TOLERANCES, COMPLEX SHAPES,<br>MINIMAL DISTORTION, ACCURACY, QUALITY,<br>QUICK TURNAROUND |

*Stainless Steel Laser  
Cutting Service*

### *Stainless Steel Laser Cutting Service*

|                          |  |
|--------------------------|--|
| MATERIAL                 | STAINLESS STEEL (GRADE 304, 316)                                     |
| TYPE                     | LASER CUTTING SERVICE  |
| MATERIAL THICKNESS RANGE | 0.5 MM TO 25 MM  |
| TECHNOLOGY USED          | CNC LASER CUTTING  |
| TURNAROUND TIME          | FAST TURNAROUND TIMES  |
| USAGE                    | STAINLESS STEEL FABRICATION NEEDS                                    |
| BENEFITS                 | EFFICIENCY, DURABILITY, VISUAL EXCELLENCE                            |
| FEATURES                 | PRECISE CUTTING, CLEAN EDGES, INTRICATE DESIGNS, ACCURATE DIMENSIONS |
