ABOUT US

GQ FORGE is a fully-integrated, globally certified forging, casting and machining solutions provider. We have an overall team of 50 years plus of consolidated experience in the forging, casting, and machining space. Certified to ISO 9001:2015, IATF 16949:2016, and AS 9100:2016, we deliver end-to-end solutions—from design and die development to finished components—with a focus on accuracy, reliability, and competitive value.

Equipped with in-house capabilities for forging, trimming, shot blasting, casting, and precision machining, along with a CAD/CAM-enabled toolroom for complete tool design and development.

As customer needs evolve, we adapt the agile method and, through continuous improvement, we are able to cater to all customer needs.

Established in 1999 and rebranded as GQ Forge Systems and Engineers India Pvt Ltd. in 2024, we specialise in precision hot forging and machining for critical applications across industries.

Our Vision

We aspire to be a highly competitive manufacturer of non-ferrous components used in fire protection systems, electrical switch gears, earthing components, fixed and moving electric contacts, valves, connectors and various other components. Our intent is to have a positive impact on reducing India's imports and contributing to an increase in India's exports.

Our Mission

We aspire to be a highly competitive manufacturer of non-ferrous components used in fire protection systems, electrical switch gears, earthing components, fixed and moving electric contacts, valves, connectors and various other components. Our intent is to have a positive impact on reducing India's imports and contributing to an increase in India's exports.
