

Ernest Pharmaceutical Private Limited is a leading exporter, manufacturer, and distributor of high-quality pharmaceutical products. Established in 2015, we have been committed to providing safe, effective, and affordable healthcare solutions to patients and healthcare providers worldwide.

## T3 TAB

Liothyronine Sodium Tablet

Liothree is a thyroid hormone. It works by supplementing the natural thyroid hormones in the body. Liothree is used in cases of thyroid disease, obesity, metabolic disorders and fatigue.

## CLOMIBOL TAB

Clomiphene Citrate Tablets USP 50 Mg

Clomibol 50 Mg is an oral medication containing Clomiphene Citrate, a selective estrogen receptor modulator (SERM) primarily used to treat infertility in women. It stimulates ovulation in women who have irregular menstrual cycles or anovulation. By binding to estrogen receptors in the brain, Clomibol enhances the release of gonadotropins, which are essential for ovulation.

## WINVOL TAB

Stanozolol 100 Mg Injection

WINVOL Injection contains the active ingredient stanozolol, which is a synthetic anabolic steroid. Stanozolol is derived from dihydrotestosterone (DHT) and is known for its ability to promote muscle growth, enhance athletic performance, and increase strength.

## NANDROLIN 100 mg Injection

Nandrolin (Nandrolone Phenylpropionate) (or NPP for short) manufactured by the pharmaceutical company Evolve biolabs. The first appearance of this drug dates back to the 1960s. The official release of this steroid was then made by Organon.

The efficacy of the drug is also used in the medical setting, but over time other pharmaceutical companies are beginning to update and manufacture this drug due to their ability to achieve their athletic goals. Athletes who want to gain high quality muscle mass and improve strength performance in a short amount of time should choose to purchase NPP from evolve biolabs.

## CLENABOL 10 MG TAB

Clenbuterol is a potent, long-lasting bronchodilator that is prescribed for human use outside of the United States. It is abused generally by bodybuilders and athletes for its ability to increase lean muscle mass and reduce body fat (i.e., repartitioning effects).

## DECAMAXX 400 MG INJECTION

Decamaxx 400MG Injection is a medicine used in the treatment of osteoporosis in post-menopausal women. It helps strengthen the bones which become thin and brittle due to osteoporosis.

## BOLDAMAXX 400 MG INJECTION

**Boldenone Undecylenate 400Mg Injection**

Boldmaxx is a potent hormone that comprises 400 mg a dose of Boldenone Undecylenate. This is developed to enhance growth in musculature and improve metabolism. Boldmaxx, with its long-release formulas, allows it to have steady benefits for those looking to grow muscle mass and strength.

## ANAVAR 10 MG TABLETS

### Oxandrolone 10 Mg Tab

Tablets containing 10 mg of oxandrolone are a powerful and effective way to improve muscle growth and athletic performance

Oxandrolone is the main ingredient for increasing muscle growth and strength and contains 10 mg per tablet.

Athletes and bodybuilders who want to improve their performance and reach their fitness goals often use these drugs.

Being a synthetic form of testosterone, oxandrolone is a great option for those who want to gain lean muscle mass without experiencing the side effects of other anabolic steroids.

## ANDROL 50 MG TABLET

### Oxymetholone 50 mg Tablet

Unlock the power of our top-of-the-line Oxymetholone 50 mg tablets, formulated with premium ingredients for optimal performance.

Elevate your training program with this supplement designed to boost stamina, endurance, and increased muscle weight.

Oxymetholone rejuvenates your body - 50 mg to increase and you could be able to achieve your desired result.

## BOLDABOL 250 MG INJECTION

### Boldenone Undecylenate 250MG

Boldabol is a reliable hormone supplement designed to support muscle development and improve metabolism. Boldenone Undecylenate 250mg per dose, designed for lasting benefits over time.

Incorporate Boldabol into your fitness routine responsibly to support muscle growth and enhance physical performance. Prioritize consultation with a healthcare provider to ensure safe and effective usage.

## Anarix TAB

### Oxandrolone U.S.P. 10 mg

Oxandrolone, often known as Anarix, is an anabolic steroid medicine that is commonly used to help people regain weight lost due to certain medical problems, to ease bone pain caused by bone loss (osteoporosis), to aid in the healing from severe burns, and for other purposes.

## BOLDAMAXX

**Boldenone Undecylenate 400MG**

Boldmaxx is a potent hormone that comprises 400 mg a dose of Boldenone Undecylenate. This is developed to enhance growth in musculature and improve metabolism. Boldmax, with its long-release formulas, allows it to have steady benefits for those looking to grow muscle mass and strength.

## Andrix TAB

**Oxymetholone U.S.P 50mg**

Oxymetholone is a type of anabolic steroid. Synthetic anabolic steroids are chemicals that replicate the effects of the male hormone testosterone. In addition to its medical use, it has been used for performance enhancement by some athletes and bodybuilders due to its ability to increase muscular mass and strength.

## BOLDARIX INJECTION

**BOLDENONE UNDECYLENATE 250 mg/ml**

The primary usage of boldenone undecylenate is to promote muscle growth and increase lean body mass. It has a relatively high anabolic-to-androgenic ratio, which implies it can stimulate muscular building while causing less androgenic adverse effects than other steroids.

## CLENAR TAB

**Clenbuterol E.P 40mcg**

Clenbuterol is most commonly used to treat bronchospasm in asthma, chronic obstructive pulmonary disease (COPD), and other respiratory illnesses. It works by relaxing the smooth muscles of the airways, making breathing easier.

## DANARIX TAB

**Methandienone U.S.P 10mg**  
 Methandienone U.S.P 10 is a medicine or supplement that includes the active component Methandienone. Methandienone is a synthetic anabolic steroid that sportsmen and bodybuilders frequently use to boost muscle growth and performance. It is also known by brand names such as Dianabol.

## DECARIX INJECTION

**Nandrolone Decanoate 250 mg/ml**

Nandrolone Decanoate is a modified version of testosterone, a naturally occurring male sex hormone. It has a decanoate ester linked to the nandrolone molecule in its chemical structure. This ester prolongs the drug's release into the bloodstream following injection.

## KLENBOL TAB

**Clenbuterol Tablet, 60 mcg**

Clenbuterol Tablets is available in 60 mcg.

Clenbuterol Hydrochloride tablets has a rapid and powerful bronchial-dilating action. Its effect is expressed in a reduction of protein degradation in muscle cells, leading to an increase in muscle bulk and muscle strength. In the prescribed therapeutic doses, Clenbuterol has no influence on heart rate or arterial blood pressure, and does not affect oxygen saturation of arterial blood.

## MASTARIX INJECTION

**Drostanolone Propionate 100 mg/ml**

Drostanolone Propionate 100 is a drug that contains the synthetic anabolic steroid Drostanolone Propionate as the active ingredient. It's also known by brand names like Masteron. Chemical structure: Drostanolone Propionate is a modified version of DHT that has a 2-methyl group added to the DHT molecule to make it more anabolic. The "propionate" component refers to the ester linked to the steroid molecule, which regulates the rate of release in the body.

## NANDRXI INJECTION

**Nandrolone Phenylpropionate 100 mg/ml**

The synthetic anabolic steroid Nandrolone Phenylpropionate 100, sometimes known as NPP 100, is manufactured from the hormone nandrolone. It is a fast-acting and relatively short-estered form of nandrolone, which means that its half-life is shorter than that of Nandrolone Decanoate (Deca-Durabolin), with which it is interchangeable. Nandrolone Phenylpropionate is used to increase muscular mass and strength. It is also renowned for its capacity to enhance bone density, which is useful in some medical problems. Anemia Treatment: It has been used in the treatment of anemia and other disorders where red blood cell formation is impeded. Some users claim increased joint health and reduced discomfort as a result of hard training.

## LIOT3

### Liothyronine Sodium Tablets

It is man made form of Triiodothyronine(T3).

It is most commonly used to treat Hypothyroidism. Cytomel Tablet is available in 25 mcg. Thyroid hormone drugs are natural or synthetic preparations containing Triiodothyronine(T3,Liothyronine). Cytomel is used as a replacement or supplemental therapy in patients with Hypothyroidism of any etiology..

## PRIMORIX INJECTION

### Methenolone Enanthate 100 mg/ml

A synthetic anabolic steroid called methenolone enanthate 100 is primarily used to boost muscle growth and improve athletic performance. Methenolone Enanthate has been used in some instances to treat anemia, a disorder marked by a low red blood cell count, especially when anabolic steroids are thought to be a viable alternative. It can aid in boosting red blood cell synthesis and easing anemic symptoms. It has been used to treat some wasting syndromes, in which patients lose a lot of weight and develop weak muscles. Alternative treatments are frequently favoured today, whereas this use was more prevalent in the past.

## STANORIX INJECTION

### Stanozolol 100 mg/ml

Stanozolol is a synthetic anabolic steroid that belongs to the androgen class of medicines. It is also known as Stanorix, which is the brand name for it. Stanozolol is mostly used in hospitals to treat illnesses like angioedema and anemia.

## SUSTARIX INJECTION

### Testosterone Mix Compound 250 mg/ml

A combination of several testosterone esters is found in the pharmaceutical medicine Testosterone Mix Compound 250. The principal male sex hormone, testosterone, is in charge of establishing and preserving male sexual traits. In medical contexts, testosterone esters—synthetic testosterone derivatives are used to treat diseases like hypogonadism that are linked to low testosterone levels in males.

## T-3 TABLET

### Liothyronine Sodium B.P 25 mcg

Liothyronine Sodium, often known as Liothyronine or T3, is a medicine used to treat thyroid problems. It is a synthetic version of triiodothyronine (T3), one of the thyroid gland's two primary thyroid hormones, the other being thyroxin (T4).

## TESTORIX-C INJECTION

**Testosterone Cypionate 250 mg/ml**

In the form of testosterone cypionate, the drug Testosterone Cypionate 250 includes the hormone testosterone. It is frequently given for medical conditions, such as males with low testosterone levels who need hormone replacement therapy. Some athletes and bodybuilders also use to improve their performance.

## BOLDI 250 INJECTION

**Boldenone Undecylenate**

Add a Boldenone Undecylenate Inj. 200 mg/ml is a man-made steroid, similar to the naturally occurring steroid testosterone.

Boldenone Undecylenate is used to promote weight gain.

Boldenone Undecylenate is also used to decrease muscle loss caused by treatment with corticosteroids and to reduce bone pain associated with osteoporosis. It produces a slow and steady anabolic effect while improving appetite leading to its long-term popularity. For Men: 200-500 mg IM per week.

## TESTORIX-E INJECTION

**Testosterone Enanthate 250 mg/ml**

A drug called Enanthate 250 includes testosterone in the form of testosterone enanthate. In order to treat males with low testosterone levels, it is utilized as hormone replacement treatment.

## TRENARIX-A INJECTION

**Trenbolone Acetate 100 mg/ml**

Trenbolone Acetate 100 is a synthetic anabolic steroid that athletes and bodybuilders use to increase muscle growth and performance. It is one of the many different types of trenbolone, a powerful anabolic steroid.

## TRENARIX-E INJECTION

**Trenbolone Enanthate 200 mg/ml**

Trenbolone Enanthate 200 is a synthetic anabolic steroid manufactured from nandrolone that belongs to the trenbolone class. It is mostly utilized in bodybuilding and sports performance improvement to promote muscle growth, strength, and general physical performance.

## BOLDABOL INJECTION

**Boldenone Undecylenate 250MG**

Boldabol is a reliable hormone supplement designed to support muscle development and improve metabolism. Boldenone Undecylenate 250mg per dose, designed for lasting benefits over time.

## DECABOL 250 INJECTION

**NANDROLONE DECANOATE 250MG**

Decabol 250 having Nandrolone Decanoate 250mg is a specialized hormonal supplement that supports muscle growth and overall physical performance. It offers sustained release of the product in the body and ensures enhanced effects among athletes and bodybuilders

## NANDROLIN INJECTION

**Nandrolone Phenyl Propionate 100MG**

Nandrolin is a potent hormone supplement, with a formula of Nandrolone Phenyl Propionate in each dose, having 100MG energy. It is made to fill in your fitness.

## TEST- C INJECTION

**TESTOSTERONE CYPIONATE 250MG**

TEST C is a reliable hormone supplement containing 250mg of Testosterone Cypionate. It is designed to release testosterone for longer periods, stabilizing testosterone levels in the body for longer periods. With standard dosing regimens, TEST C is popular with individuals seeking consistent results.

## TEST-E INJECTION

**TESTOSTERONE ENANTHATE 250MG**

TEST E is a reliable hormone supplement containing 250mg of Testosterone Enanthate. It is formulated for long-term release, providing steady levels of testosterone in the body over a long period. Test E is popular with individuals who want long-lasting and smooth effects with their testosterone supplementation.

## SUSTAMIX INJECTION

**Testosterone Mix Compound 250MG**

Sustamix 250 is a powerful hormonal medicine that consists of a blend of 4 testosterone: Testosterone Phenylpropionate 60mg, Testosterone Isocaproate B.P. 60mg, and testosterone decanoate bp. 100mg, & testosterone b.p. 30mg in total 250mg per dose. It is a testosterone blend given by injection that is composed of mixtures especially designed to provide a high-paced release of testosterone within the body post-injection, hence keeping the benefits of muscle growth and physical performance for longer periods.

## TEST PROP INJECTION

### TESTOSTERONE PROPIONATE 100MG

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

## TRENABOL INJECTION

### TRENBOLONE ACETATE 100MG

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

## TRENBOLON INJECTION

### Trenbolone Enanthate 200MG

Trenbolone is a potent hormone containing Trenbolone Enanthate 200mg. It is designed to support muscle growth, increase energy, and improve physical performance. By providing a long-acting ester, Trenbolone keeps it released, ensuring lasting effects for individuals seeking maximum benefits.

## PRIMOBOL INJECTION

### Methenolone Enanthate 100MG 10 ML

Primobol is a reliable hormone supplement that contains 100mg of Methenolone Enanthate and is manufactured to be instrumental in muscle growth and the improvement of metabolism. Primobol 100 acts through nitrogen fixation in tissues that enhance protein synthesis, which, in turn, causes hypertrophy in growing tissues.

## STANO 50 INJECTION

### Stanozolol 50MG

Stanozolol 50mg contains Stano 50, which is a reliable hormone supplement. It is formulated with the strategy to support muscle growth, enhance metabolism, and increase muscle definition. Stanozolol 50mg injection is also popular among athletes and bodybuilders for providing a perfect definition of soft tissues.

## PARABOL INJECTION

**Trenbolone Hexahydrobenzylcarbonate 76.5 mg/mL**

Parabol is a powerful hormone; it contains 76.5 mg/mL of trenbolone hexahydrobenzylcarbonate. It is prepared for muscle gain with increased metabolism. Long-lasting formulas of Parabol yield constant benefits for those who are after both muscle mass and strength.

## TEST - PROP INJECTION

**TESTOSTERONE PROPIONATE 100MG**

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

## TEST - C INJECTION

**TESTOSTERONE CYPIONATE 250MG**

TEST P is a reliable hormonal supplement formulated with Testosterone Propionate 100mg which is designed to boost testosterone levels. It's formulated for rapid absorption and fast-acting effect which makes it ideal for individuals aiming for immediate results. Most testosterone Propionate is for bodybuilding and athletes.

## TEST - E INJECTION

**TESTOSTERONE PROPIONATE 100MG**

TEST E is a reliable hormone supplement containing 250mg of Testosterone Enanthate. It is formulated for long-term release, providing steady levels of testosterone in the body over a long period. Test E is popular with individuals who want long-lasting and smooth effects with their testosterone supplementation.

## TRENABOL INJECTION

**TRENOLONE ACETATE 100MG**

TRENABOL is a hormone potent containing Trenbolone Acetate 100mg, known for its metabolic properties, it makes it popular with bodybuilders and athletes looking for rapid muscle gains and improved performance.

## TRENBOLON INJECTION

**Trenbolone Enanthate 200MG**

Trenbolone is a potent hormone containing Trenbolone Enanthate 200mg. It is designed to support muscle growth, increase energy, and improve physical performance. By providing a long-acting ester, Trenbolone keeps it released, ensuring lasting effects for individuals seeking maximum benefits.

## SUSTAMIX INJECTION

**Testosterone Mix Compound 250MG**

Sustamix 250 is a powerful hormonal medicine that consists of a blend of 4 testosterone: Testosterone Phenylpropionate 60mg, Testosterone Isocaproate B.P. 60mg, and testosterone decanoate bp. 100mg, & testosterone b.p. 30mg in total 250mg per dose. It is a testosterone blend given by injection that is composed of mixtures especially designed to provide a high-paced release of testosterone within the body post-injection, hence keeping the benefits of muscle growth and physical performance for longer periods.

## TESTOBOL INJECTION

**Testosterone Suspension 50MG**

Testobol is a highly potent hormone, with 50 mg of Testosterone Suspension contained in every single dose. In comparison with all other testosterone supplements available, Testobol is in a pure water-based form, which further helps it to absorb rapidly with a fast onset of action. Testosterone Suspension injection offers rapid effects, with the fast-acting chemical properties promising benefits for improved muscle growth and physical fitness.

## TRENBOLON INJECTION

**Trenbolone Enanthate 200MG**

Trenbolone is a potent hormone containing Trenbolone Enanthate 200mg. It is designed to support muscle growth, increase energy, and improve physical performance. By providing a long-acting ester, Trenbolone keeps it released, ensuring lasting effects for individuals seeking maximum benefits.

## BOLDABOL PRO-SERIES INJECTION

**Boldenone Undecylenate 250MG**

Boldabol is a reliable hormone supplement designed to support muscle development and improve metabolism. Boldenone Undecylenate 250mg per dose, designed for lasting benefits over time.

## MASTERON PRO-SERIES INJECTION

**Drostanolone Propionate 100mg/ml**

Masteron is a powerful hormone consisting of 100mg/ml Drostanolone Propionate. It is intended to support muscle gain and enhance metabolism. The quick-acting formulas of Masteron 100 mg Drostanolone Propionate provide rapid results for people looking to improve definition in musculature and overall physical appearance.

## NANDROLIN PRO-SERIES INJECTION

**Nandrolone Phenyl Propionate 100MG**

Nandrolin is a potent hormone supplement, with a formula of Nandrolone Phenyl Propionate in each dose, having 100MG energy. It is made to fill in your fitness.

## TEST-C PRO-SERIES INJECTION

**TESTOSTERONE CYPIONATE 250MG**

TEST C is a reliable hormone supplement containing 250mg of Testosterone Cypionate. It is designed to release testosterone for longer periods, stabilizing testosterone levels in the body for longer periods. With standard dosing regimens, TEST C is popular with individuals seeking consistent results.

## TEST-E PRO-SERIES INJECTION

**Nandrolone Phenyl Propionate 100MG**

TEST E is a reliable hormone supplement containing 250mg of Testosterone Enanthate. It is formulated for long-term release, providing steady levels of testosterone in the body over a long period. Test E is popular with individuals who want long-lasting and smooth effects with their testosterone supplementation.

## PACLINAMO INJECTION

Paclitaxel 300MG

**PACLINAMO 300mg Injection** is an anti-cancer medication used for the treatment of breast cancer, pancreatic cancer and non-small cell lung cancer. Some common side effects of this medicine include nausea, vomiting, and weakness. It may also cause serious side effects such as swelling of hands, lips, hair loss, and weight gain.

## OXALINAMO INJECTION

Oxaliplatin 100MG

**OXALINAMO 100 Injection** is used in the treatment of cancer of colon and rectum. It shows its working by stopping or slowing down the growth of cancer cells. Nausea, fatigue, vomiting, and diarrhea are some common side effects of this medicine.

## TROMBONAMO TABLET

Eltrombopag Olamine 50 Mg

**TROMBONAMO Tablet** is used to treat low platelet count due to chronic immune (idiopathic) thrombocytopenic purpura (ITP) or chronic hepatitis C virus (HCV) infection. It is also used to treat severe aplastic anemia.

## LENVANAMO CAPSULES

LENVATINIB 10 MG

**OXALINAMO 100 Injection** is used in the treatment of cancer of colon and rectum. It shows its working by stopping or slowing down the growth of cancer cells. Nausea, fatigue, vomiting, and diarrhea are some common side effects of this medicine.

## LENVANAMO CAPSULES

LENVATINIB 4 MG

**PACLINAMO 300mg Injection** is an anti-cancer medication used for the treatment of breast cancer, pancreatic cancer and non-small cell lung cancer. Some common side effects of this medicine include nausea, vomiting, and weakness. It may also cause serious side effects such as swelling of hands, lips, hair loss, and weight gain.

## LENANAMO CAPSULES

**LENALIDOMIDE 25 MG**

**LENANAMO Capsule** belongs to a group of medicines that affect how your immune system works. It is used in the treatment of multiple myeloma and myelodysplastic syndrome.

## LENANAMO CAPSULES

**LENALIDOMIDE 10 MG**

**LENANAMO Capsule** belongs to a group of medicines that affect how your immune system works. It is used in the treatment of multiple myeloma and myelodysplastic syndrome.

## PALBONAMO CAPSULES

**PALBOCICLIB 125 MG**

**LENANAMO Capsule** belongs to a group of medicines that affect how your immune system works. It is used in the treatment of multiple myeloma and myelodysplastic syndrome.

## SUTENAMO CAPSULES

**SUNITINIB 50 MG**

**SUTENAMO 50mg Tablet** belongs to the class of medicines known as tyrosine kinase inhibitors used in the treatment of liver cancer, kidney cancer, and thyroid cancer.

## SUTENAMO CAPSULES

**SUNITINIB 25 MG**

**SUTENAMO 25mg Tablet** belongs to the class of medicines known as tyrosine kinase inhibitors used in the treatment of liver cancer, kidney cancer, and thyroid cancer.

## SORANAMO TABLET

SORAFENIB 200 MG

SORANAMO Tablet belongs to the class of medicines known as tyrosine kinase inhibitors used in the treatment of liver cancer, kidney cancer, and thyroid cancer.

## Healing Pharma Sunroof Lotion

Information about Healing Pharma Sunroof Lotion SPF 50

Healing Pharma Sunroof Lotion SPF 50 is a formulation that helps protect the skin from the sun's UV rays. It contains zinc oxide and helps prevent premature skin ageing and photograph dermatitis

## TROMBONAMO TABLET

ELTROMBOPAG 25 MG

TROMBONAMO Tablet is used to treat low platelet count due to chronic immune (idiopathic) thrombocytopenic purpura (ITP) or chronic hepatitis C virus (HCV) infection. It is also used to treat severe aplastic anemia.

## Tacroheal 0.1% Ointment

In Treatment of Atopic dermatitis

Atopic dermatitis, also known as eczema, is a chronic skin condition causing red, itchy, and inflamed patches on the skin, often associated with allergies. Tacrotor 0.1% Ointment when applied topically suppresses the immune response in the skin, reducing the inflammatory reactions that lead to eczema flare-ups. This way it provides relief and helps improve the quality of life for individuals with atopic dermatitis.

## Mupiheal Ointment 15gm

Mupiheal Ointment 15gm is primarily used to manage mild bacterial skin infections. This medicine is part of a group known as topical antibiotics, applied directly to the skin. This ointment can also be used to manage conditions like folliculitis (infected hair follicles), furunculosis (boils), and minor skin cuts or wounds that have become infected. It's particularly effective for tackling impetigo, a condition characterized by red sores on the skin. Inform your doctor about any pre-existing conditions or ongoing medications before you begin. If you notice any side effects while using this ointment, notify your doctor immediately. Continue applying the ointment for the duration prescribed by your doctor to achieve optimal results.

## Tretiheal 0.05% Cream 20gm

Tretiheal 0.05 % Cream is a vitamin A derivative used to treat acne that occurs as patches or pimples on the face, chest, or back. It also aids in the smoothing of rough facial skin and the reduction of fine wrinkles. Tretiheal 0.05 % Cream lowers the skin's excessive oil production. Ideally, a precise application at night for the timeframe indicated by your doctor is recommended. The amount you'll need and how long you'll have to take it will be determined by the condition you're being treated for. Before administering a thin layer of this treatment, you should generally cleanse and dry the affected region. Pay attention to your doctor's directions. It should not be used on injured or broken skin, and it should be kept away from your lips, eyes, and nose. It may take several weeks for your symptoms to ease, but continue to use it on a regular basis for the best results. If you don't see any improvement after a few weeks, see your doctor again. Taking more medicine or applying it more frequently than recommended will not make it work faster and may worsen the side effects.

## Tretiheal 0.1% Cream 20gm

Tretiheal 0.1% is a topical cream that contains 0.1% tretinoin, a form of vitamin A, and is used to treat acne and sun-damaged skin

**Acne:** Tretinoin reduces oil secretion, unclogs pores, and promotes the shedding of dead skin cells to prevent pimples, whiteheads, and blackheads

**Sun-damaged skin:** Tretinoin can help treat sun-damaged skin

**Anti-aging:** Tretinoin can reduce the appearance of fine lines, wrinkles, and hyperpigmentation by increasing skin cell turnover and stimulating collagen production

## ENTECASHIV TABLET

ENTECAVIR 0.5 MG

ENTECASHIV 0.5 Mg is an antiviral medicine used in the treatment of hepatitis B virus (HBV) infection. It works by inhibiting the replication of the virus, thereby reducing its levels in the body. By suppressing viral replication, it helps to slow down the progression of liver damage.

## RIBASHIV CAPSULES

RIBAVIRIN 200 MG

RIBASHIV Capsule is an antiviral medicine that is used in the treatment of chronic hepatitis C virus (HCV) infection. It prevents the multiplication of virus in human cells and clears up the infection.

## COLCHIHEAL 0.5 TABLET

Colchicine 0.5 MG

Colchiheal 0.5 is used in the treatment and prevention of acute attacks or flare-ups of gout. Gout is a chronic condition that occurs due to the deposition of uric acid crystals in the joints. It is characterized by intense pain and swelling in the affected joints. Colchicine decreases pain, swelling, and inflammation. It also prevents sudden attacks of pain caused by acute gout.

## RANOHEAL 500 TABLET

Ranolazine Sustained Release 500MG

Ranolazine is used alone or with other medications to treat chronic angina (ongoing chest pain or pressure that is felt when the heart does not get enough oxygen). Ranolazine is in a class of medications called anti-anginals. The exact way that ranolazine works is not known at this time.

## ROSUFREE F 5 TABLET

Rosuvastatin Calcium & Fenofibrate 5MG/160MG

Rosuvastatin+fenofibrate is used to lower an increased level of total cholesterol (TC) and triglyceride (TG) level. This prevents the risk of having any cardiovascular events like heart attack, stroke, and heart-related chest pain (angina) in the future. The blockage of the heart occurs due to the increased level of bad cholesterol (low-density lipoprotein -LDL and triglycerides - TG), which build-up of fat, cholesterol, and other waxy substances layers forming a plaque in the lining of the artery wall (coronary arteries). This increases the chance of having a blood clot and heart attack in an individual.

## CILNIHEAL 20 TABLET

CILNIDIPINE 20 MG

Cilnidipine belongs to a class of medicines called calcium channel blockers, which are primarily taken for the treatment of hypertension (high blood pressure) and angina (chest pain). Hypertension (high blood pressure) is a lifelong or chronic condition in which the force exerted by the blood against the artery walls becomes high. The higher this blood pressure, the harder the heart has to pump.

## CILNIHEAL 5 TABLET

CILNIDIPINE 5 MG

Cilnidipine belongs to a class of medicines called calcium channel blockers, which are primarily taken for the treatment of hypertension (high blood pressure) and angina (chest pain). Hypertension (high blood pressure) is a lifelong or chronic condition in which the force exerted by the blood against the artery walls becomes high. The higher this blood pressure, the harder the heart has to pump.

## FLAVEHEAL MR 35 TABLET

Trimetazidine Modified Release 35 MG

Trimetazidine is used to prevent an attack of angina pectoris (chest pain caused by coronary disease) in adult patients in combination with other medication. Angina is chest pain, which happens when enough supply of oxygen does not reach the heart. The insufficient supply can be due to obstructing the pathway or narrowing the blood vessels.

## ZENNAVAIL DS TABLET

Methandienone 25 MG

Metandienone is an orally active anabolic androgenic steroid. It was introduced to the market in the 1960s but later discontinued and withdrawn from the market. Although it is prohibited in and outside competition by the World Anti-Doping Agency, metandienone continues to be marketed and misused as a performance-enhancing drug in sports. In the US, metandienone is a controlled substance under the Controlled Substances.

## TORSEHEAL 10 TABLET

Torsemide 10 MG

Torsemide is used to help treat fluid retention (edema) and swelling that is caused by congestive heart failure, liver disease, kidney disease. It belongs to the group of medicines called loop diuretics (water pills). This medicine works by acting on the kidneys to increase the flow of urine.

## TORSEHEAL 5 TABLET

**Torsemide 5 MG**

Torsemide is used to help treat fluid retention (edema) and swelling that is caused by congestive heart failure, liver disease, kidney disease. It belongs to the group of medicines called loop diuretics (water pills). This medicine works by acting on the kidneys to increase the flow of urine.

## COVERHEAL 4 TABLET

**Perindopril Erbumine BP 4 MG**

COVERHEAL 4MG Tablet is an anti-hypertensive medicine used in the treatment of high blood pressure and heart failure (insufficient pumping of the blood by the heart). It also reduces the risk of heart attack (blocked blood flow to heart muscles) and stroke (brain damage due to interrupted blood supply).

## ZETIHEAL 10 TABLET

**Ezetimibe 10 MG**

Ezetimibe is a type of medicine used to lower cholesterol. Cholesterol is a fatty substance in your blood that can block your blood vessels if levels become too high. This can make you more likely to have heart problems or a stroke. Ezetimibe is used to treat high blood cholesterol.

## CILNIHEAL 10 TABLET

**CILNIDIPINE 10 MG**

Cilnidipine belongs to a class of medicines called calcium channel blockers, which are primarily taken for the treatment of hypertension (high blood pressure) and angina (chest pain). Hypertension (high blood pressure) is a lifelong or chronic condition in which the force exerted by the blood against the artery walls becomes high. The higher this blood pressure, the harder the heart has to pump.

## CENFORCE 100 TABLET

Sildenafil Citrate 100 MG

Cenforce 100mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

## CENFORCE 150 TABLET

Sildenafil Citrate 150 MG

Cenforce 150mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

## CENFORCE 200 TABLET

Sildenafil Citrate 200 MG

Cenforce 200mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

## CENFORCE 50 TABLET

Sildenafil Citrate 50 MG

Cenforce 200mg tablets treats erectile dysfunction by increasing blood flow to the penis during sexual stimulation. This increased blood flow can cause an erection. Sildenafil treats PAH by relaxing the blood vessels in the lungs to allow blood to flow easily.

Avanafil is used to treat erectile dysfunction (ED: impotence; inability to get or keep an erection in men). Avanafil is in a class of medications called phosphodiesterase (PDE) inhibitors. It works by increasing blood flow to the penis during sexual stimulation.

## WORMLAN 500 TABLET

**Fenbendazole 500 MG**

Fenbendazole is a benzimidazole that presents a wide spectrum anthelmintic effect. It is used against a number of gastrointestinal parasites including giardia, roundworms, hookworms, whipworms, the Taenia genus of tapeworms, pinworms, aelurostrongylus, paragonimiasis, strongyles, and Strongyloides.

## SHYTOMEL TABLET

**Liothyronine Sodium 5 MCG**

Liothyronine is used to treat an underactive thyroid (hypothyroidism). It replaces or provides more thyroid hormone, which is normally made by the thyroid gland. Liothyronine is a man-made form of thyroid hormone. Low thyroid hormone levels can occur naturally or when the thyroid gland is injured by radiation/medications or removed by surgery.

## FENZE 444 TABLET

Fenbendazole 444 MG

Fenbendazole is a benzimidazole that presents a wide spectrum anthelmintic effect. It is used against a number of gastrointestinal parasites including giardia, roundworms, hookworms, whipworms, the Taenia genus of tapeworms, pinworms, aelurostrongylus, paragonimiasis, strongyles, and Strongyloides.

## IVERHEAL 12 TABLET

Ivermectin 12 MG

Ivermectin 12 Tablet belongs to the class of anti-parasitic medicines, also known as anthelmintics. It is a widely used medication to treat various infections caused by parasites, including strongyloidiasis and control onchocerciasis.

## IVERJOHN 12 TABLET

Ivermectin 12 MG

Ivermectin 12 Tablet belongs to the class of anti-parasitic medicines, also known as anthelmintics. It is a widely used medication to treat various infections caused by parasites, including strongyloidiasis and control onchocerciasis.

## PREGAFOX 300 CAPSULE

Pregabalin 300 MG

Pregabalin is used with other medicines to help control partial-onset seizures (convulsions) in the treatment of epilepsy in patients 1 month of age and older. This medicine will not cure epilepsy and will only work to control seizures for as long as you continue to take it. Pregabalin is also used for postherpetic neuralgia (pain that occurs after shingles) and pain caused by nerve damage from diabetes or a spinal cord injury.

## PRAZIQUIN 600 TABLET

Praziquantel 600 MG

Praziquantel belongs to the class of medicines called anthelmintics used to treat infections due to Schistosoma and liver fluke. Schistosomiasis, also known as snail fever, Katayama fever, and bilharzia, is a disease caused by infection with freshwater parasitic flatworms called schistosomes. Liver fluke infection is caused by parasitic worms called liver flukes after eating contaminated raw or uncooked watercress or freshwater fish.

## ZUNESTAR TABLET

Es Zopiclone 3 MG

Zunestar 3 mg belongs to a group of medicines called 'sedative-hypnotics,' primarily used to treat sleep problems or insomnia. Insomnia is defined as a sleep disorder which makes it difficult to fall asleep or stay asleep.

## TAP 100 TABLET

Tapentadol HCL 100 MG

Tapentadol is used to alleviate moderate to severe pain. Pain is an unpleasant sensory and expressive experience caused by real or potential tissue injury. Tapentadol is composed of Tapentadol; it acts directly on opioid receptors in the central nervous system, reducing feelings of pain by interfering with the way neurons convey pain between the brain and the body.

## AQUATREN INJECTION

Trenbolone Suspension 100 MG

Trenbolone, also known as trienolone or trienbolone, is a steroid used on livestock to increase muscle growth and appetite. To increase its effective half-life, trenbolone is administered as a prodrug as an ester conjugate such as trenbolone acetate, trenbolone enanthate, or trenbolone cyclohexylmethylcarbonate.

[www.ernestpharmaceutical.in](http://www.ernestpharmaceutical.in)

+91 9359902383, +91 9405476170

[export@ernestpharmaceutical.in](mailto:export@ernestpharmaceutical.in), [ernestpharmaceutical@gmail.com](mailto:ernestpharmaceutical@gmail.com)

## FINAPLIX INJECTION

**Trenbolone Acetate 100 MG**

Trenbolone acetate, sold under brand name as Finaplix among others, is an androgen and anabolic steroid (AAS) medication used in veterinary medicine, specifically to increase the profitability of livestock by promoting muscle growth in cattle. It is given by injection into muscle.

## TRENABOL INJECTION

**Trenbolone Enanthate 100 MG**

Trenbolone enanthate, known by the nickname Trenabol, is a synthetic and injected anabolic-androgenic steroid (AAS) and a derivative of nandrolone which was never marketed. It is the C17 $\beta$  enanthate ester and a long-acting prodrug of trenbolone.

## HEXABOL INJECTION

**Trenbolone Hexahydrobenzylcarbonate 76.5 MG**

Trenbolone hexahydrobenzylcarbonate is a synthetic, injected anabolic-androgenic steroid (AAS) of the nandrolone group and an androgen ester – specifically, the C17 $\beta$  hexahydrobenzylcarbonate (cyclohexylmethylcarbonate) ester of trenbolone.

## NPP INJECTION

**Nandrolone Phenylpropionate 100 MG**

Nandrolone is an anabolic steroid used to treat anemia, osteoporosis and other conditions. It's a synthetic version of testosterone. Some athletes use nandrolone to build muscle, but these uses are illegal in the U.S. and most of the world.

[www.ernestpharmaceutical.in](http://www.ernestpharmaceutical.in)

[export@ernestpharmaceutical.in](mailto:export@ernestpharmaceutical.in), [ernestpharmaceutical@gmail.com](mailto:ernestpharmaceutical@gmail.com)

## DECADURA INJECTION

**Nandrolone Decanoate 250 MG**

Nandrolone decanoate is an anabolic steroid indicated for the management of the anemia of renal insufficiency by increasing hemoglobin and red cell mass. Nandrolone decanoate, also known as nandrolone caprylate, is an alkylated anabolic steroid indicated in the management of anemia of renal insufficiency and as an adjunct therapy in the treatment of senile and postmenopausal osteoporosis

## DECADURA INJECTION

**Nandrolone Decanoate 400 MG**

Nandrolone decanoate is an anabolic steroid indicated for the management of the anemia of renal insufficiency by increasing hemoglobin and red cell mass. Nandrolone decanoate, also known as nandrolone caprylate, is an alkylated anabolic steroid indicated in the management of anemia of renal insufficiency and as an adjunct therapy in the treatment of senile and postmenopausal osteoporosis

## TESTOBASE INJECTION

**Testosterone Suspension 100 MG**

Testosterone suspension is a specific form of testosterone used in the realm of bodybuilding and athletic performance enhancement. It is a powerful injectable anabolic steroid that differs from other testosterone cypionate before and after testosterone cypionate formulations due to its unique composition and administration method

## CYPIOMAX INJECTION

**Testosterone Cypionate 250 MG**

Testosterone Cypionate is one of the best mass building anabolics known to man and is a highly recommended as the base of any mass building cycle. Testosterone is responsible for promoting health and well-being through enhanced libido, energy, immunity, increased fat loss, gaining and maintaining lean muscle mass, preventing Osteoporosis (loss of bone density), and possible protection against heart disease. It combines excellently with many other compounds both oral and injectable as part of a potent stack.

[www.ernestpharmaceutical.in](http://www.ernestpharmaceutical.in)

[export@ernestpharmaceutical.in](mailto:export@ernestpharmaceutical.in), [ernestpharmaceutical@gmail.com](mailto:ernestpharmaceutical@gmail.com)

## TESTAVERON INJECTION

**Testosterone Enanthate 250 MG**

Testosterone enanthate is an androgen and anabolic steroid (AAS) medication which is used mainly in the treatment of low testosterone levels in men. It is also used in hormone therapy for women and transgender men[medical citation needed]. It is given by injection into muscle or subcutaneously usually once every one to four weeks.

## PROPIOMAX INJECTION

**Testosterone Propionate 100 MG**

Testosterone propionate is an androgen and anabolic steroid (AAS) medication which is used mainly in the treatment of low testosterone levels in men. It has also been used to treat breast cancer in women. It is given by injection into muscle usually once every two to three days.

## MASTPROP INJECTION

**Drostanolone Propionate 100 MG**

Drostanolone is a synthetic androgen, or male hormone, similar to testosterone. Drostanolone works by attaching itself to androgen receptors; this causes it to interact with the parts of the cell involved in the making of proteins. It may cause an increase in the synthesis of some proteins or a decrease in the synthesis of others.

## STANAJECT INJECTION

**Stanozolol 100 MG**

Stanozolol is a man-made steroid, similar to a naturally occurring steroid testosterone. stanozolol is used in the treatment of hereditary angioedema, which causes episodes of swelling of the face, extremities, genitals, bowel wall, and throat. stanozolol may decrease the frequency and severity of these attacks.

## PRIMO-DEPOT INJECTION

**Methenolone Enanthate 100 MG**

Methenolone Enanthate is a moderate anabolic but very low androgenic steroid that is incredibly versatile. It is often stacked with other (typically stronger) steroids in order to obtain a faster and more enhanced effect. Primobolan Depot will be suitable during both cutting cycles and bulk cycles; in both cases it will be responsible for the faster recovery and growth of lean and dense muscle mass.

## BOLDENAN INJECTION

**Boldenone undecylenate 250 MG**

Boldenone undecylenate is an injectable steroid that exhibits strong anabolic and moderately androgenic properties. The well-balanced anabolic and androgenic properties of this drug are greatly appreciated by athletes, who want to enhance their result without strong side effects.

## BOLDENAN INJECTION

**Boldenone undecylenate 400 MG**

Boldenone undecylenate is an injectable steroid that exhibits strong anabolic and moderately androgenic properties. The well-balanced anabolic and androgenic properties of this drug are greatly appreciated by athletes, who want to enhance their result without strong side effects.

## TESTOMIX 250 INJECTION

**Testosterone Propionate 30 mg**  
**Testosterone Phenylpropionate 60 mg**  
**Testosterone Isocaproate 60 mg**  
**Testosterone Decanoate 100 mg**

All forms of testosterone are responsible for promoting health and well-being through enhanced libido, energy, immunity, increased fat loss, gaining and maintaining muscle mass, preventing Osteoporosis (loss of bone density), and possible protection against heart disease. It combines excellently with many other compounds both oral and injectable as part of a potent stack.

## BULKMASS 500 INJECTION

Testosterone Enanthate 200mg  
Nandrolone Decanoate 150mg  
Trenbolone Enanthate 150mg

A blend of (testosterone enanthate+nandrolone deconate + trenbolone enanthate) bulkmass is very effective composition to gain bulky muscle, it also gives strength and endurance to professional game player. Athletes can use it to get desired results.

## CUTMIX 300 INJECTION

Testosterone Propionate 150mg  
Trenbolone Acetate 75mg  
Drostanolone Propionate 75mg

Cutmix is a blend of trenbolone acetate 75 mg, testosterone propionate 150 mg and drostanolone propionate 75 mg injection. It is a unique mixture of trenbolone, testosterone and drostanolone to loss of body weight and getting impeccably ripped.

## BULKONAN 500 INJECTION

Testosterone Cypionate 200mg  
Boldenone Undecylenate 150mg  
Nandrolone Decanoate 150mg

Bulkonan is a blend of three drugs, which makes this product a great complex to gain the bulk. It is Suitable to both beginners and professionals.

## MIXTREN 200 INJECTION

Trenbolone Acetate 50mg  
Trenbolone Enanthate 100mg  
Trenbolone Hexahydrobenzylcarbonate 50mg

Trenbolone is an excellent mass and hardening drug with the majority of gains being muscle fiber, with minimal water retention. Trenbolone enanthate is a steroid that is typically used by bodybuilders for bulking phases. Although, it can be used in cutting phases too.

## ERNOMECTIN 12 TABLET

Ivermectin 12 MG

Ivermectin is an anti-parasite medication used to treat parasitic diseases. It is FDA approved for use in humans to treat a variety of parasitic infections including parasitic worms, hookworm and whipworm. Ivermectin may also be used as an effective treatment for a wide range of other conditions and as a treatment of onchocerciasis, intestinal strongyloidiasis and onchocerciasis or river blindness.

## ANAOXAN TABLET

Oxandrolone 10 MG

Oxandrolone is a man-made steroid, similar to the naturally occurring steroid testosterone. Oxandrolone is an "anabolic" steroid that promotes the growth of muscle tissue. Oxandrolone is used to help you regain weight lost after surgery, severe trauma, or chronic infections. Oxandrolone is also used in people who cannot gain or maintain a healthy weight for unknown medical reasons. Oxandrolone is also used to decrease muscle loss caused by using steroid medicines, and to reduce bone pain in people with osteoporosis.

## XYANDROL TABLET

Oxymetholone 50 MG

Oxymetholone is a synthetic anabolic steroid used in the treatment of osteoporosis, anaemia, and as an agent to stimulate muscle growth in malnourished or underdeveloped patients. Anabolic-androgenic steroids (AAS), such as oxymetholone, have been abused by bodybuilders and athletes.

## CYTOMOL-TM TABLET

Liothyronine Sodium 12 MG

Liothyronine is used to treat an underactive thyroid (hypothyroidism). It replaces or provides more thyroid hormone, which is normally made by the thyroid gland. Liothyronine is a thyroid hormone T3 which is normally produced by the thyroid gland in a ratio 4:1 when compared with T4: T3. Liothyronine is the active form of thyroxine which is composed in a basic chemical structure by a tyrosine with bound iodine. The exogenous liothyronine product was developed by King Pharmaceuticals and FDA approved.

## BRICLEAN TABLET

Clenbuterol Hydrochloride 40 MCG

Clenbuterol is a compound that belongs to a class of drugs called beta2-agonists. Drugs in this category can cause dilation of the bronchial muscles. Beta2-agonists are often used to treat asthma. In addition to being used to treat asthma, clenbuterol has become popular as a weight loss supplement. That's because of its effect on muscle growth and fat reduction.

## STANABOL TABLET

Stanozolol 10 MG

Stanozolol is a man-made steroid, similar to the a naturally occurring steroid testosterone. Stanozolol is used in the treatment of hereditary angioedema, which causes episodes of swelling of the face, extremities, genitals, bowel wall, and throat. Stanozolol may decrease the frequency and severity of these attacks. Stanozolol reduces bradykinin production and could potentially reduce the impact of a bradykinin storm.

## DIANABOL TABLET

Methandienone 10 MG

Methoxydienone is a type of chemical known as an anabolic steroid. It is converted in the body to testosterone and other sex hormones. Methoxydienone is used for weight loss, to improve athletic performance, to reduce sexual problems, and for many other uses.

## IVERGUARD 12 TABLET

Ivermectin 12 MG

Ivermectin is an anti-parasite medication used to treat parasitic diseases. It is FDA approved for use in humans to treat a variety of parasitic infections including parasitic worms, hookworm and whipworm. Ivermectin may also be used as an effective treatment for a wide range of other conditions and as a treatment of onchocerciasis, intestinal strongyloidiasis and onchocerciasis or river blindness.

## IVERHUMAN 12 TABLET

Ivermectin 12 MG

Ivermectin is an anti-parasite medication used to treat parasitic diseases. It is FDA approved for use in humans to treat a variety of parasitic infections including parasitic worms, hookworm and whipworm. Ivermectin may also be used as an effective treatment for a wide range of other conditions and as a treatment of onchocerciasis, intestinal strongyloidiasis and onchocerciasis or river blindness.

## COVIMECTIN 12 TABLET

Ivermectin 12 MG

Ivermectin is an anti-parasite medication used to treat parasitic diseases. It is FDA approved for use in humans to treat a variety of parasitic infections including parasitic worms, hookworm and whipworm. Ivermectin may also be used as an effective treatment for a wide range of other conditions and as a treatment of onchocerciasis, intestinal strongyloidiasis and onchocerciasis or river blindness.

## CYCLOBOON ER 15 TABLET

Cyclobenzaprine HCL 15 MG

Cycloboon ER 15 Tablet is a muscle relaxer. It provides relief from the discomfort associated with acute, painful musculoskeletal conditions such as rigidity, tension, stiffness, and muscle spasms.

## SUPER P-FORCE TABLET

Sildenafil + Dapoxetine 160 MG

Super P Force Tablet is a combination of two medicines used in the treatment of premature ejaculation and erectile dysfunction in adult men. It increases blood flow to the penis to help men get an erection.

## AZISIGN 250 TABLET

Azithromycin 250 MG

Azithromycin is used to treat certain bacterial infections, such as bronchitis; pneumonia; sexually transmitted diseases (STD) and infections of the ears, lungs, sinuses, skin, throat, and reproductive organs. Azithromycin also is used to treat or prevent disseminated Mycobacterium avium complex (MAC) infection. Azithromycin is in a class of medications called macrolide antibiotics. It works by stopping the growth of bacteria.

## APIGAT 5 TABLET

Apixaban 5 MG

Apigat 5 Tablet is a medicine known as an anticoagulant or blood thinner. It helps prevent and treat blood clots. It prevents and treats clot formation in the veins of your legs, lungs, brain, and heart. It is used to reduce the risk of stroke and heart attack.

## SUSTANON 250 INJECTION

Testosterone Propionate (30mg)

Testosterone Phenylpropionate (60mg)

Testosterone Isocaproate (60mg)

Testosterone Decanoate (100mg)

Sustanon 250 Injection is a combination medicine used in the treatment of male hypogonadism. It increases the testosterone levels in adult men and helps improve various health problems including impotence, infertility, low sex drive, tiredness, and depression.

## WORMENTEL 222 TABLET

Fenbendazole 250 MG

Fenbendazole is a benzimidazole that presents a wide spectrum anthelmintic effect. It is used against a number of gastrointestinal parasites including giardia, roundworms, hookworms, whipworms, the Taenia genus of tapeworms, pinworms, aelurostrongylus, paragonimiasis, strongyles, and Strongyloides.

## SUSTAVIRON 250 INJECTION

Testosterone 250 MG

Sustaviron 250 Injection is a medicine used in the treatment of male hypogonadism caused due to low testosterone levels. It is only prescribed to men with known medical conditions. It helps in restoring the level of testosterone in the male body.

## BOLDEBOL INJECTION

Boldenone Undecylenate 250 MG

Boldenone, also known as Boldenone Undecylenate or Boldebol, is a synthetic anabolic-androgenic steroid (AAS) used to promote muscle growth, increase strength, and enhance athletic performance. It's known for its moderate anabolic effects and low androgenic effects, making it popular among athletes and bodybuilders.

## DECA-250 INJECTION

Nandrolone Decanoate 250 MG

Deca 250 is a brand name for the anabolic steroid Nandrolone Decanoate. It's a type of injectable steroid that's used to promote muscle growth, increase strength, and enhance athletic performance. Deca 250 is known for its ability to Increase muscle mass and strength, Enhance endurance and recovery, Reduce joint pain and inflammation & Improve bone density

## DROSTAWIN INJECTION

Drostanolone Propionate 250 MG

Drostanolone propionate, also known as Masteron, is a dihydrotestosterone (DHT) derived anabolic-androgenic steroid (AAS). It's a shorter-acting version of drostanolone, with a propionate ester attached. Masteron is known for its ability to Enhance muscle hardness and density, Increase strength and endurance, Improve fat loss and muscle definition, Act as an anti-estrogen, reducing water retention and gynecomastia risk.

## TELMAHEAL 40-H TABLET

Telmisartan + Hydrochlorothiazide 40+12.5 MG

Telmaheal H 40mg/12.5mg Tablet contains two medicines, both of which help to control high blood pressure. It is generally used when one medicine alone is not controlling the blood pressure effectively. Lowering blood pressure helps to reduce your risk of having a heart attack or a stroke in the future.

## ACCUFINE TABLET

Isotretinoin 20 MG

Accufine 20mg Softgel Capsule belongs to a group of medicines called retinoids (vitamin A derivative). It is used to treat severe acne that has not responded to other treatments.

## ERLY PREFILLED PEN

Liraglutide 6 MG

Erly Prefilled Pen is a medicine used to lower blood sugar levels in adults with type 2 diabetes mellitus. This helps to prevent serious complications of diabetes like kidney damage and blindness. Proper control of diabetes also helps to lower your chances of a heart attack or a stroke.

## CABERMORE 0.5 TABLET

Cabergoline 0.5 MG

Cabermore 0.5mg Tablet is a dopamine agonist. It is used for the treatment of a high level of prolactin. It is also helpful in stopping breast milk production in cases of stillbirth, abortion, or miscarriage.

[www.ernestpharmaceutical.in](http://www.ernestpharmaceutical.in)

## MALEGRA 100 TABLET

Sildenafil 100 MG

Malegra Tablet is used in men to treat erectile dysfunction. It contains sildenafil as its main component. Sildenafil improves the blood flow in the male genital organ for sexual arousal, thus maintaining an erection. It is not meant for use in women, children & adolescents.

## MEBECHRIST 500 TABLET

Mebendazole 500 MG

Mebendazole is an antiparasitic medication that treats infections of worms, like pinworm, or other parasites. Pinworms, also called threadworms, live in the intestines and rectums of infected people. It causes anal itching and sleeplessness.

## MODVIGIL-200 TABLET

Modafinil 200 MG

Modvigil 200 Tablet is a medicine used in the treatment of excessive daytime sleepiness (narcolepsy). It promotes wakefulness and helps you to stay awake. Thereby, reducing the tendency to fall asleep during the day and restoring the normal sleep cycle.

## TENEXX-E INJECTION

Testosterone Enanthate 250 MG/ML

Testosterone enanthate is an androgen and anabolic steroid (AAS) medication which is used mainly in the treatment of low testosterone levels in men. It is also used in hormone therapy for women and transgender men[medical citation needed].

## TEMIDOL-100 TABLET

Tapentadol HCL 100 MG

Temidol 100mg Tablet is a medicine used to treat moderate to severe acute pain in adults. It is used to treat many conditions such as headache, fever, period pain, toothache, and colds. It effectively alleviates pain when other treatments fail to relieve your pain.

[www.ernestpharmaceutical.in](http://www.ernestpharmaceutical.in)

## TAP-ASH-100 TABLET

Tapentadol HCL 100 MG

Temidol 100mg Tablet is a medicine used to treat moderate to severe acute pain in adults. It is used to treat many conditions such as headache, fever, period pain, toothache, and colds. It effectively alleviates pain when other treatments fail to relieve your pain.

## FITARO 2.4 INJECTION

Semaglutide 2.4 MG

Semaglutide injection is used to treat type 2 diabetes. It is used together with diet and exercise to help control your blood sugar. This medicine is also used to lower the risk of heart attack, stroke, or death in patients with type 2 diabetes, obesity, and heart or blood vessel disease. Semaglutide is a glucagon-like peptide-1 (GLP-1) receptor agonist.

## FITARO 0.25 INJECTION

Semaglutide 0.25 MG

Semaglutide injection is used to treat type 2 diabetes. It is used together with diet and exercise to help control your blood sugar. This medicine is also used to lower the risk of heart attack, stroke, or death in patients with type 2 diabetes, obesity, and heart or blood vessel disease. Semaglutide is a glucagon-like peptide-1 (GLP-1) receptor agonist.

## FITARO 1 INJECTION

Semaglutide 1 MG

Semaglutide injection is used to treat type 2 diabetes. It is used together with diet and exercise to help control your blood sugar. This medicine is also used to lower the risk of heart attack, stroke, or death in patients with type 2 diabetes, obesity, and heart or blood vessel disease. Semaglutide is a glucagon-like peptide-1 (GLP-1) receptor agonist.

## TIZARO 7.5 INJECTION

Tirzepatide 7.5 MG

Tizaro 7.5 is used for weight loss, to help lose weight and keep weight off. Tizaro 7.5 works for weight loss by decreasing appetite and slowing the movement of food from the stomach into the small intestine, which may make you feel full more quickly and for a longer period. Tizaro brand is also used for moderate to severe obstructive sleep apnea (OSA) in adults with obesity. Tizaro 7.5 is a once-weekly injection given under the skin using a pen.

## TRICLABEND 250 TABLET

Triclabendazole 250 MG

Triclabendazole is used to treat fascioliasis, an infection caused by the liver fluke parasite, Fasciola hepatica. Infections with a liver fluke usually occur after eating contaminated water plants, such as watercress or algae, or animals that eat these plants. They travel from your bowels to the bile ducts in the liver where they live and grow. Most patients infected with liver flukes do not show any symptoms, which may cause the infection to last a long time.

## PROALB INJECTION

Albumin IP 20 G

Pro Alb 20% Injection is used to treat blood volume loss. It works by replacing the body fluids lost due to excessive trauma, bleeding, surgery, or kidney dialysis. Thus, it is helpful in treating low blood albumin levels.

## AVANA 50 TABLET

Avanafil 50 MG

Avanafil is used to treat erectile dysfunction (ED: impotence; inability to get or keep an erection in men). Avanafil is in a class of medications called phosphodiesterase (PDE) inhibitors. It works by increasing blood flow to the penis during sexual stimulation.

[www.ernestpharmaceutical.in](http://www.ernestpharmaceutical.in)

[export@ernestpharmaceutical.in](mailto:export@ernestpharmaceutical.in), [ernestpharmaceutical@gmail.com](mailto:ernestpharmaceutical@gmail.com)

## ZITHROKEM 250 TABLET

**Azithromycin 250 MG**

Azithromycin is used to treat certain bacterial infections, such as bronchitis; pneumonia; sexually transmitted diseases (STD) and infections of the ears, lungs, sinuses, skin, throat, and reproductive organs.

## GLUTACAN INJECTION

**Glutathione & Vitamic C 600 MG**

Glutathione is a small protein, a natural anti-oxidant or say a tripeptide, produced by cells throughout the body. It is composed of 3 amino acids—Cysteine, Glutamic Acid, and Glycine. Glutathione plays a crucial role in supporting our overall immune system, maintaining the balance of chemicals in cells, iron metabolism, and several key functions.

## GRECAINE EYE DROP

**Proparacaine HCL Solution**

Proparacaine eye drops are used to numb the eye before surgery, certain tests, or procedures. The eye drops are used to prevent pain during the procedure. Proparacaine belongs to the group of medicines called local anesthetics. It works by blocking the pain signals at the nerve endings in the eye.

## SUPER TADAPOX TABLET

**Tadalafil & Dapoxetine 40+60 MG**

Super Tadapox is used in the treatment of premature ejaculation. Super Tadapox is a combination of two medicines Tadalafil and Dapoxetine, which treat premature ejaculation. Tadalafil is a phosphodiesterase type 5 (PDE 5) inhibitor which works by increasing blood flow to the penis during sexual stimulation and enables its erection following sexual stimulation. Dapoxetine is a selective serotonin reuptake inhibitor (SSRI) which increases the level of serotonin in nerves to improve control over ejaculation and increase the time taken to ejaculate.
