Druk Gypsum Pvt. Ltd. (DGPL) was founded by three visionary promoters — Dasho Ugyen Tsechub Dorji, Dasho Sonam Tobgye Dorji, and Mr. Thinlay Gyamtsho. United by a shared belief in harnessing Bhutan's natural resources responsibly and sustainably, the founders envisioned creating a company that would serve as a reliable producer of gypsum-based products while contributing to Bhutan's industrial growth.

DGPL operates a captive gypsum mine at Pema Gatshel and a state-of-the-art processing factory at Motanga Industrial Park, Samdrup Jongkhar. From its humble beginnings, DGPL has steadily evolved into a trusted name in the gypsum industry, recognized for its quality products, commitment to safety, and focus on environmental stewardship.

Guided by the values of integrity, hard work, and innovation, DGPL continues to expand its operations to serve both domestic and regional markets
