Innovate Export is a fast-growing Indian manufacturing and export company specializing in natural charcoal products and agro-based sustainable commodities. Built on the principles of quality, environmental responsibility, and reliability, the company serves customers across the Middle East, Europe, the United States, and Asia, delivering products that meet global performance and sustainability standards.

At Innovate Export, we emphasize eco-friendly manufacturing practices that minimize environmental impact while maximizing product efficiency. Our natural charcoal products are produced using carefully selected raw materials and controlled carbonization processes to ensure high heat output, low ash content, minimal smoke, and long burn time. These attributes make our products suitable for industrial, commercial, and household applications.

Quality assurance is central to our operations. Each batch undergoes strict inspection and testing to maintain consistency in size, moisture content, calorific value, and packaging integrity. Our production facilities and processes are aligned with international export norms, ensuring reliability and compliance for overseas markets.

### HARDWOOD CHARCOAL LUMPS

**Business Type :** Manufacturer, Exporter, Supplier

**Burn time :** 2-4 Hours

**Usage :** Grilling, Smoking

**Packaging :** Bag

**Color :** Black

**Material :** Hardwood

**Moisture Content :** Low

### INDUSTRIAL CHARCOAL LUMPS

**Business Type :** Manufacturer, Exporter, Supplier

**Form :** Lumps

**Feature :** Easy To Burn, Good Heating Capacity

**Packaging Type :** BOPP Bags
