ABOUT US

Krea Terra And Co.

I am an Architect, Urban Designer, and Interior Designer with a strong belief that design can transform how we live, work, and interact with our surroundings. After completing my Master of Architecture (M.Arch) and Master in Urban Design in Europe, I returned to India with a vision of creating spaces that are aesthetically refined, functional, sustainable, and contextually meaningful.

Today, I run my design practice in Bhopal, where my team and I focus on sustainable architecture, interior spaces, and urban design solutions. Our work blends eco-conscious materials, innovative technologies, and timeless design principles to craft projects that respect both people and the planet.

From modern residences to urban-scale developments, and from custom interiors to material innovation, my approach is rooted in creating holistic experiences rather than just buildings. At the heart of my practice lies a commitment to sustainability, craftsmanship, and design excellence — ensuring every project contributes positively to its environment and community.

Our Services

● Architectural Drawings

From spatial planning to fine joinery, our drawings translate vision into buildable beauty — clear, precise, and ready for execution by architects, contractors, and artisans.

● Interior Design

Bringing your ideas to life with 2D and 3D design visuals that ensure alignment between client, contractor, and craftsman.

● Customized Furniture

Bespoke furniture design — from concept to craftsmanship — using eco-friendly materials to create multifunctional, durable, and timeless pieces tailored to your space.
