Xorivan International is a forward-thinking enterprise committed to empowering healthier lives by integrating medical innovation with mindful nutrition.

Built on a strong foundation of experience in the life sciences and healthcare industry, **Xorivan focuses on two core verticals — Basic health care needs and millet-based ready-to-cook foods.** Through these, we address the growing need for both accessible healthcare solutions and sustainable preventive nutrition.

Our mission is to make preventive health simple, safe, affordable and sustainable by bridging the gap between medical technology and everyday nutrition. We aim to create meaningful impact — enabling hospitals, clinics and families to embrace a healthier, safer and more conscious future.

At Xorivan, innovation is not just about products — it's about rethinking how health, safety and wellness connect in real life.

About Us

Four Channel Ultrasonic Tens Machine

Business Type
Exporter, Supplier, Trader

Channel Output Capacity
4 Independent Channels

Therapy Combination Mode
TENS + Ultrasonic Combo

Frequency Range Control
2–250 Hz Adjustable

Pulse Width Adjustment
50–300 μ s Variable

Intensity Control Type
Digital Adjustable Knob

Display Interface
LCD Digital Display

Portability Design
Compact & Lightweight Unit

5 In 1 Combination Therapy

Business Type
Exporter, Supplier, Trader

Therapy Modes Included
TENS, MS, IFT, US, IR

Channel Output Capacity
4 Independent Channels

Frequency Range Control
2–250 Hz Adjustable

Display Interface Type
LCD Digital Display

Operating Mode Options
Continuous / Burst Mode

Intensity Control Type
Digital Adjustable Knob

Timer Setting Range
0–60 Minutes

400W Digital Surgical Cautery

Business Type
Exporter, Supplier, Trader

Equipment Design Feature
Compact & Portable Unit

Foot Switch Operation
Dual Pedal Control

Patient Safety Feature
Auto Cut-Off Protection

Power Output Control
Microprocessor Controlled

Cooling System Type
Inbuilt Cooling Fan

Working Mode Options
Monopolar / Bipolar

Display Interface Type
Digital LED Display

Manual Needle Syringe Destroyer

Business Type
Exporter, Supplier, Trader

Device Operation Type
Manual Hand Operated

Material of Construction
Stainless Steel Body

Needle Cutting Capacity
Up to 18G Size

Cutting Mechanism Type
Sharp Blade Cutter

Waste Collection Method
Removable Waste Container

Safety Protection Feature
Anti-Splash Design

Portability Design Feature
Compact and Lightweight

Portable Suction Machine

Business Type
Exporter, Supplier, Trader

Suction Power Capacity
20–22 LPM

Operation Type
Electric Operated

Maximum Vacuum Pressure
600–700 mmHg

Jar Material Type
Polycarbonate / Glass

Power Supply Requirement
AC 220V / 50Hz

Safety Overflow Protection
Inbuilt Overflow Valve

Collection Jar Capacity
1–2 Litres

Electric Syringe Needle Destroyer

Business Type
Exporter, Supplier, Trader

Material
ABS Plastic

Certification
ISO Certified

Power Source
Electricity

Approx Weight
Min 1.90 Kg

Electrode Type
Copper Electrode – Nickel Plated

Burning Temperature
≥ 1200°C

Tray Capacity
200 Syringes & Needles

Barnyard Millet Kichadi Mix

Business Type
Exporter, Supplier, Trader

Usage/Application
Ideal For Quick, Healthy Meals - Just Add Water And Cook

Shelf Life
9 Months

Net Weight
120g

Type
Ready to cook

Speciality
Rich in fiber, protein, vitamins, and minerals

Curry Leaves Podi

Business Type
Exporter, Supplier, Trader

Net Weight
120g

Shelf Life
6 - 12 Months

Country of Origin
India

Packaging Type
