

Supplier,  
Trader

**TRISALA**  
INSTRUMENTS LLP

Established over three decades ago, Trisala Instruments has built its foundation in trading, electrical and testing equipment, and professional consultancy services. With a strong presence and network across Indian markets, we have nurtured deep-rooted relationships and earned industry trust over the years.

Now, we are expanding our horizon with the Export Division of our business — bringing to the world India's finest goods with the same commitment to quality, service, and reliability that has defined us for 30+ years.

At Trisala Instruments, we are more than just an export house — we are a collective of lawyers, engineers, and chartered accountants who bring deep industry knowledge, professional integrity, and extensive sourcing networks across India.

With a strong foundation in legal compliance, documentation, and international trade, we ensure that every product we export — whether a bulk shipment of grains or customized uniforms — is handled with precision, care, and attention to detail. We are also an ISO-certified company (ISO 9001:2015), committed to upholding globally recognized standards in every aspect of our operations.

What sets us apart is our commitment to personalized service — we speak to every client directly to understand their exact needs, preferences, and specifications, ensuring a truly customized sourcing and export experience.
