**Manufacturers,
Exporters, Supplier**

Founded in 2022, Rihan Handicrafts is a trusted manufacturer of premium wood and stainless steel master pillars that blend strength, style, and durability. With a passion for craftsmanship and innovation, we specialize in creating architectural pillars that elevate the elegance of modern homes and commercial spaces.

Our products are crafted using the finest quality woods such as teak, oak, walnut, and sheesham, combined with high-grade stainless steel (304 and 316) to ensure long-lasting performance. From staircase newel posts and balcony railing pillars to entrance columns, we deliver both structural reliability and decorative excellence.

At Rihan Handicrafts, we offer a variety of design styles — from contemporary sleek finishes and traditional wood-rich designs to bold industrial looks. Every pillar goes through a detailed process, including CAD modeling, precision wood-working, advanced metalwork, seamless joinery, and premium finishing to achieve the perfect balance of form and function.

Today, we proudly serve architects, interior designers, and homeowners, delivering customized solutions that meet diverse project needs. Guided by quality and creativity, Rihan Handicrafts has quickly established itself as a name synonymous with innovation, artistry, and excellence in pillar manufacturing.
