www.loadingmm.com

Loading for Mineral Materials was incorporated in the year 2007 in (Giza (Egypt). The company is known as a prominent: Industrial Minerals Exporter and Supplier in India. Our variety of Industrial Minerals includes Calcium Carbonate powder, Dolomite Powder, High Grade Silica Sand, potassium Feldspar, and Red Iron Oxide Powder.

Warehousing Unit

The company is backed by a well-maintained storage unit, which is spread over a wide area. This unit is spacious enough to store large stock of Industrial Minerals and help us in catering to the bulk and urgent requirements of the global clients"

Quality Testing

We are a quality-conscious organization and thus lay special emphasis upon delivering only the best Industrial Minerals across the globe. Our Industrial Minerals are thoroughly tested under the expert supervision by using SGS testing facilities and in compliance with the industrial standards.

Clientele

The company has spread its clientele all across the globe, such as in Turkey, Greece, Belgium, India, china, Germany, Malaysia. Indonesia, Italy and the whole Central European. Some of our reputed clients include Qena Cement Factory (Egypt), Agri Export (Malaysia)

We are Known as a reputed Rock Phosphate Exporter & Supplier . We offer good quality Rock phosphate. Which is a valuable industrial product.

Rock phosphate that we offer is used in the production of fertilizer, animal feed supplements and industrial chemicals. Procured from reliable vendors, the Rock phosphate is offered by us at competitive rates.

RED IRON OXIDE POWDER

Hematite is an important ore of iron (in the powdered form), used as a pigment, in cement and steel plants. Hematite has a red or black color but the streak is always red. The iron in the hematite turns red when it comes in contact with water and oxygen. In other words this rock is rusted. We are engaged in the supplying of Red Iron Oxide Powder all across the country. We have grades of Fe_2O_3 55% up to 75%.

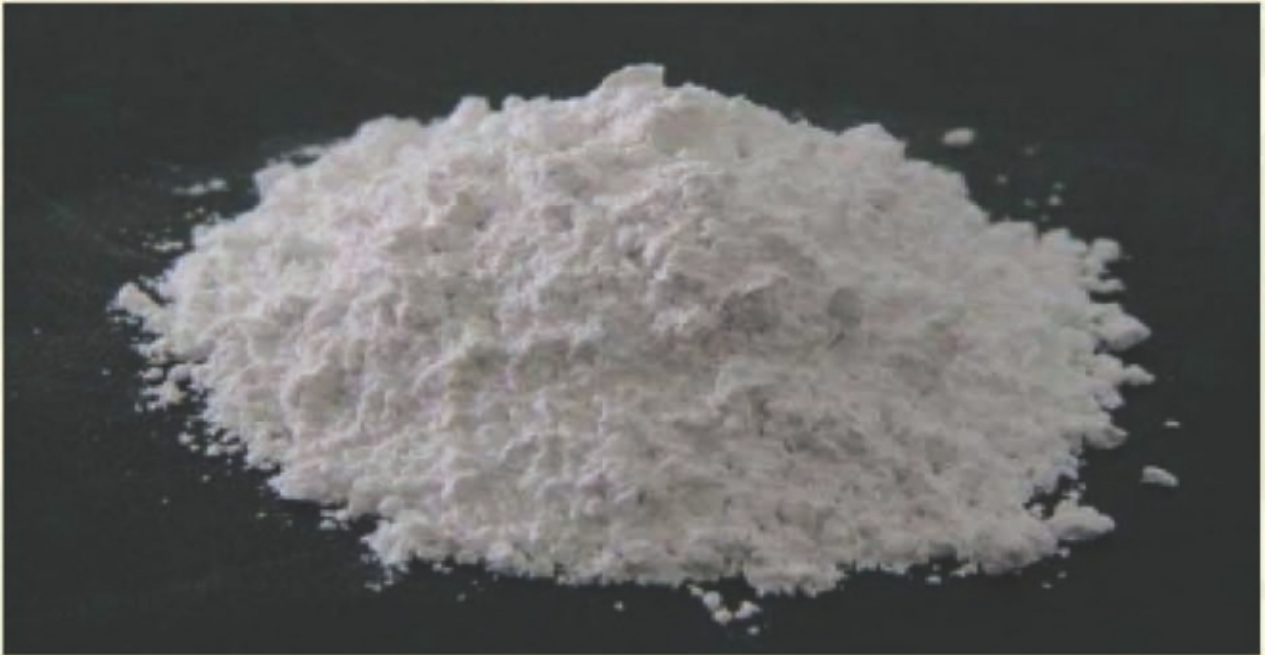

Applications

Cement

Paintings

Steel plants

CALCIUM CARBONATE

We are renowned as a prominent Calcium Carbonate Exporter in Egypt. The Calcium Carbonate, which we offer, is used in diverse industrial applications across the globe. Our Calcium Carbonate is free from impurities and thus high in demand in the worldwide markets.

Applications

Wire & Cable
PVC Pipe
PVC Granule
Synthetic Leather Paper
Paint
Master patch
Ruber Veterinary Industry
Chemistry Construction
Tiles Ceramic
Sealants
Mucilage

DOLOMITE POWDER

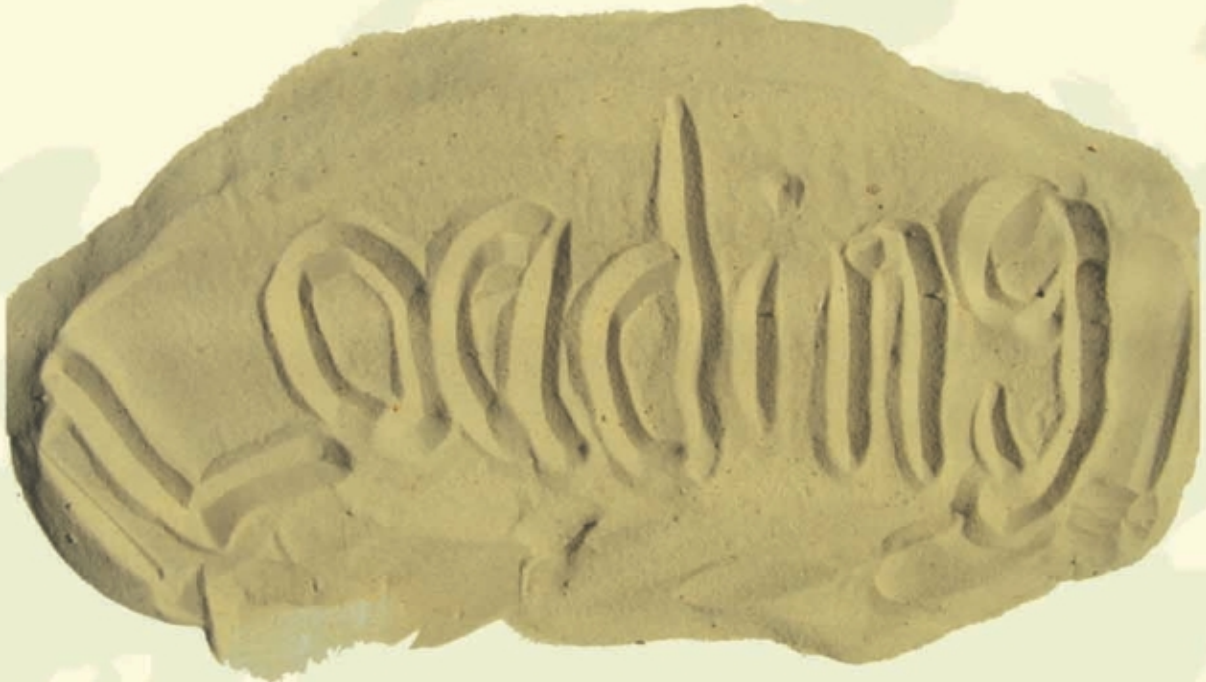

The Dolomite Powder caters to the needs of various industries like Glass, Chemical, Ceramics, etc. The Dolomite Powder is acquired by us from the well-known sources to ensure its higher grade. Our Dolomite Powder is offered at the most competitive prices.

Uses

Used as a fluxing agent for glass manufacturing, desulfurization, filler, extender, asphalt roofing, plastering, adhesives, and coatings.

HIGH GRADE SILICA SAND

The company is chiefly engaged in the supplying of High Grade Silica Sand all across the country. The High Grade Silica Sand is procured by us from the well-known vendors in the industry to ensure its excellent quality. Our High Grade Silica Sand is available at affordable prices.

Applications

Filler in GRP pipes

Foundry sand

Fracturing and cementing in oil wells.

Additive in construction chemicals & sealants

Filter media for water filtration & purification

Filler in paints and powder coats

Raw material for glass manufacturing

Sand blasting
