Our entire operation adheres strictly to international food safety and quality standards, including those stipulated by regulatory bodies such as the UNECE (United Nations Economic Commission for Europe) and Codex Alimentarius.

We implement a comprehensive quality management system that governs the entire process:

- **Post-Harvest Handling:** Utilizing hygienic, state-of-the-art grading, sorting, and pre-cooling facilities to rapidly preserve quality.
- **Logistics:** Employing temperature-controlled (Reefer) logistics and standardized packaging to maintain product integrity and extend shelf-life during transit to any worldwide destination.

Our business model encompasses the trade of a diverse and extensive portfolio of fresh produce, catering to the varying demands of international markets across Europe, the Middle East, Asia, and beyond. We are committed to providing reliable, consistent, and traceable supply, ensuring that every consignment meets the required quality Class (e.g., 'Extra Class' or 'Class I') and is fully compliant with destination-country phytosanitary requirements and Maximum Residue Limits (MRLs).
