The company was founded in the year 2007 with the sole aim of delivering an excellent range of products. Based in Delhi (India), the company has proved its caliber in the domestic and international markets. Under the proprietorship of Mr. Gaurav Jain, the company has achieved several milestones within a short frame of time.

Infrastructure

The company has a robust infrastructure with the latest machinery such as DPC head machines (Japanese), etc. We keep on innovating new methodologies while manufacturing our wide range of products. Besides, we have a spacious warehouse in order to facilitate the safe storage of the products.

Quality Policy

We undertake every measure to take care of the quality aspect. Right from procuring the raw material till the final checking before delivery, we adhere to our well-defined quality policy and standards. Besides, we perform various tests on our products in order to ensure quality and reliability.

Our Strengths

The company has managed to carve a niche in the market on the basis of having a state-of-the-art infrastructure. All our products are being tested on various parameters. Further, the option of customization has given us the confidence of handling the bulk orders of the products with a sense of responsibility.
