Founded by Dr. Payal Ratneshwar and Mr. Chirag Patel, Cerafa is born from a bold vision to blend time-tested Ayurvedic wisdom with modern veterinary science. The name "Cerafa," combining cera (the best) and fa (fauna), reflects this purpose. Cerafa is a step forward to the holistic wellness of Animals. When we consider about Eco System, Environmental health and Climate change, Animal health and wellness is as important as human being. At Cerafa we want to establish our Sanskrit Saying " वसुधैव कुटुम्बकम् " with including all living creatures in our wellness journey.

While Ayurveda has gained global recognition in human wellness, its rich veterinary roots have largely been forgotten until now. Ancient texts like Ashva Ayurveda, Gaja Ayurveda, and Nakula Samhita outlined care protocols for elephants, horses, cattle, and domestic animals. These traditions emphasized preventative, balanced, and nature-rooted care.

Cerafa revives this legacy by integrating Ayurvedic principles like dosha balancing into modern veterinary science. Its multi-layered approach supports immunity, digestion, skin health, and emotional well-being. Key ingredients like Ashwagandha, Turmeric, and Shatavari are chosen not for trends, but for species-specific synergy, ensuring effectiveness and safety across pets, dairy, and working animals.

So Cerafa brings our Ancient Ayurveda Wisdom for PET and Veterinary care. Let us make this Planet healthier with the integration of Ayurveda for Animal Kingdom.
