

## POLYANA PVC CONDUIT PIPES

### “POLYANA” PVC Electrical conduit pipe TECHNOLOGY

**POLYANA** PVC Conduit pipes manufactured according to India standards specifications i.e. 16mm, 19mm, 20mm, 25mm, 32mm Light, Medium and Heavy ranges. These pipes are available in FRLS category also.

#### PVC Conduit pipes as per IS Slandered sizes

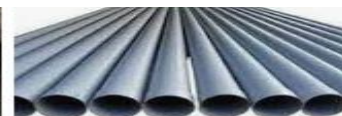

**POLYANA** PVC conduit pipes are available in the commercial market accepted sizes of 16mm, 19mm, 20 mm, 25mm, 32mm, 40mm and 50mm with 1.0mm, 1.2mm, 1.5mm, 1.8mm and 2.0mm gauges. These pipes are equivalent to IS 9537 standard pipes in all other technical parameters except pipe Outer diameter and Pipe gauge.

#### Applications:

- Concealed wiring in house, residential, commercial buildings and industrial plants.
- Open wiring in industries and shed.
- Gardening to wire and cable.
- Telecommunications and Cable casing application safe guard.
- Traffic signal connections, street light & wiring at public places
- Making PVC pipe bend for fitting.

#### Features:

- Wrinkle free pipe fir bending assurance.
- Perfect insulator of Electricity and prevent Electrical shocks/current.
- Free from corrosion and protection from rust, salinity and humidity.
- Very High strength for buried and open application.
- Perfect wall thickness uniformity.
- Support less combustion and are self-extinguishing.
- Perfect Light weight to carry, handle, install and Transport etc.
- Inner surface is very smooth for easy wiring. Flexibility for long radius bending.
- Long lasting operational life as well as pipe as compared to metal and other conduit.
