JK Refractory (JK Refractories & Consultancy) is an Indian manufacturer of refractory bricks and custom refractory shapes used in furnaces, kilns, and heat-treatment applications. The company is led by Mr. Jyoti Mohanty, who brings over 35 years of experience in the refractory industry and has held senior leadership roles, including more than 15 years of association with TRL Krosaki in manufacturing and operations.

We manufacture fire clay and high alumina refractory bricks with a focus on consistent quality, reliable performance, and practical application needs. Custom refractory shapes are produced as per drawings and specifications. JK Refractory (JK Refractories & Consultancy) supports traders, contractors, and industrial users with flexible trial quantities, competitive FOB pricing, and export-ready pallet packing. We are open to domestic and export enquiries, particularly from GCC, Middle East, and overseas markets.

HIGH ALUMINA BRICKS

Business Type
Manufacturer

Shape
Customized Shapes Available

Type Refractory
Bricks

Application
Cement Kilns, Preheater Zones, Steel Furnaces, Non-ferrous Furnaces, Foundries, Heat-treatment Furnaces, Industrial Kilns, Reactors

FIRECLAY BRICKS

Business Type
Manufacturer, Exporter, Supplier, Trader

Shape
Rectangular

Application
Commonly Used In High-temperature Applications Such As Furnaces And Fireplaces
