About Us

AKP Exports is a dynamic and fast-growing India-based export company committed to delivering high-quality products to global markets. With a strong focus on customer satisfaction, ethical business practices, and long-term partnerships, AKP Exports has positioned itself as a reliable sourcing partner for international buyers across multiple product categories, including artificial jewellery, leather bags, and agro products.

In the artificial jewellery segment, AKP Exports offers a wide range of trendy, elegant, and contemporary designs that cater to diverse fashion preferences worldwide. Our collection includes necklaces, earrings, bangles, rings, bridal sets, and fashion accessories crafted with precision and attention to detail. We continuously update our designs to match global fashion trends, ensuring that our buyers receive products that are stylish, market-relevant, and competitively priced. Customization in design, plating, and packaging is also available as per buyer requirements.

Our leather bags division reflects a perfect blend of craftsmanship, durability, and modern aesthetics. We export a variety of leather products such as handbags, shoulder bags, office bags, backpacks, travel bags, and wallets. All products are manufactured using quality raw materials and are inspected to meet international quality standards. We emphasize functionality, finish, and long-lasting performance, making our leather goods suitable for both retail and corporate markets.

In addition to fashion products, AKP Exports is actively engaged in the export of agro products, sourced directly from trusted farmers and suppliers across India. Our agro range includes carefully selected products known for their freshness, purity, and compliance with export norms. Proper grading, hygienic packaging, and timely delivery ensure that our agricultural products maintain their quality throughout the supply chain.
