Spinel Scientific World Pvt. Ltd. is a trusted Manufacturer and Supplier of high-quality laboratory instruments, analytical testing equipment, and scientific consumables. Established in 2016 by Mr. Kalyan Ashish Dutta, our company is committed to delivering reliable and performance-driven solutions for laboratories, research facilities, pharmaceutical industries, and quality control departments.

We specialize in a wide range of GC Vials & Accessories, including amber/clear screw neck vials, headspace vials, caps, septa, crimpers, decrimpers, and GC sampling syringes such as autosampler syringes and precision glass Hamilton syringes. Along with this, we also supply HPLC tubing fittings, PEEK & SS tubing, mobile phase filters, solvent bottle safety caps, and other essential laboratory fittings and tools.

Our product portfolio also includes advanced laboratory equipment such as Lab Refrigeration Systems (deep freezers, glass door refrigerators, pharma grade lab refrigerators), Lab Safety Cabinets (horizontal laminar air flow cabinets, laboratory fume hoods), and Heating & Drying Equipment like hot plates, hot air ovens, muffle furnaces, oil baths, and vacuum drying ovens. We further offer Stability Incubator Chambers including BOD incubators, stability test chambers, and tri gas incubators to support controlled testing environments.

To meet the needs of modern analytical labs, we provide Analytical Lab Instruments such as Karl Fischer titrators, digital moisture analyzers, melting point apparatus (MP series models), and column washing pumps. Our range also includes Microscope Research Equipment, Rotary Evaporator Systems, and industrial solutions like Steam Pot Machines.

At Spinel Scientific World Pvt. Ltd., we focus on quality, accuracy, durability, and customer satisfaction. With strong industry knowledge and a commitment to continuous improvement, we ensure every product meets laboratory standards and delivers consistent performance.
