Established in 2008, Pranavam is a reputed Exporter, Supplier, and Trader specializing in high-quality Fly Ash Powder for construction, infrastructure, and industrial applications. Founded by Mr. M. V. Alagappa, the company was built with a strong commitment to quality, reliability, and long-term customer satisfaction.

Pranavam offers a comprehensive range of fly ash products covering Class C and Class F Fly Ash, along with commercial, industrial, standard, and premium quality grades. Our materials are carefully selected and processed to meet the diverse needs of the cement, concrete, civil construction, and building material industries. With options ranging from fine and high-fineness fly ash to ultra-fine and uniform particle grades, our products help improve workability, strength, and durability in concrete mixes.

Our fly ash is widely used in cement blending, RCC and PCC works, mass concrete, precast components, bricks, paver blocks, road construction, soil stabilization, and infrastructure projects. Sourced from reliable power plant and industrial origins, our products are known for controlled particle size, low carbon content, and consistent performance.

At Pranavam, strict quality checks ensure that every batch meets industry expectations and project requirements. Alongside performance, we emphasize eco-friendly and sustainable construction solutions, supporting greener building practices while maintaining cost efficiency.

With over a decade of industry experience, a diversified product portfolio, and a customer-centric approach, Pranavam has earned the trust of clients across domestic and international markets, delivering dependable fly ash solutions for modern construction needs.
