HARDCHROM2988@GMAIL.COM

Established in 2017, J.K Hard Chrome Works is a professionally managed Manufacturer, Supplier, Trader, and Service Provider delivering dependable solutions in Hard Chrome Plating, Precision Plastic Moulds, and Engineered Industrial Components. Founded by Mr. Dugesh, the company has earned a strong reputation for Quality Workmanship, Technical Expertise, and a Customer-Centric Approach across multiple industries.

We specialize in manufacturing High-Precision Injection Moulds, Surface Finish Moulds, Blow Moulds, PET & Preform Moulds, and Thin Wall Packaging Moulds. Our mould solutions serve the FMCG, Food & Beverage, Pharmaceutical, Cosmetic, Household, Electrical, Appliance, and Automotive sectors. Every mould is engineered for Superior Surface Finish, Dimensional Accuracy, and Extended Service Life, ensuring reliable performance in High-Volume Production environments.

Along with mould manufacturing, we produce Industrial Rollers, Shafts, and Rods, including Hard Chrome Coated Rollers, Anilox Rollers, Conveyor Rollers, Hydraulic Cylinder Piston Rods, and Heavy-Duty Machine Shafts. These components are designed for High Wear Resistance, Corrosion Protection, and Smooth, Consistent Operation in demanding industrial applications.

Our core strength lies in Advanced Chrome Plating & Electroplating Services. We offer Hard Chrome Plating, Mirror Finish Plating, Mould Surface Protection, Industrial Replating Services, and Injection Mould Life Enhancement Treatments. With Modern Machinery, Skilled Professionals, and Strict Quality Control, we ensure Uniform Coating Thickness, Excellent Adhesion, and Long-Lasting Performance.
