

J&J ENTERPRISES

YEAR OF ESTABLISHMENT 2026

Narasin 20% Granules

IONOPHORE COCCIDIOSTAT

Ionophore antibiotic used as a coccidiostat to protect intestinal health.

A clean white plastic container for veterinary supplements, soft lighting, professional and trustworthy look.

VIRGINIAMYCIN 10% & 50% GRANULES

STREPTOGRAMIN ANTIBIOTIC

Used as a growth promoter and to prevent necrotic enteritis.

- PROMOTES HEALTHY GROWTH
- PREVENTS NECROTIC ENTERITIS
- SUPPORTS INTESTINAL HEALTH

- IMPROVES WEIGHT GAIN
- BETTER FEED EFFICIENCY
- ENHANCES GUT HEALTH
- HELPS PREVENT NECROTIC ENTERITIS

ERYTHROMYCIN 10%/20%

MACROLIDE ANTIBIOTIC

Macrolide antibiotic used to treat CRD and Coryza in poultry.

- TREATS CRD**
Effective against Chronic Respiratory Disease (CRD) in poultry.
- TREATS CORYZA**
Helps control infectious Coryza and related respiratory infections.
- BROAD-SPECTRUM ACTION**
Active against a wide range of Gram-positive and some Gram-negative bacteria.
- BETTER HEALTH & PERFORMANCE**
Supports faster recovery, improves feed efficiency and overall productivity.

- TREATS CRD
Effective against Chronic Respiratory Disease in poultry
- TREATS CORYZA
Helps control infectious Coryza and related respiratory infections
- BROAD-SPECTRUM ACTION
Active against a wide range of Gram-positive and some Gram-negative bacteria
- BETTER HEALTH
Supports faster recovery and stronger immunity
- IMPROVED PERFORMANCE
Enhances feed efficiency and overall productivity

J & J ENTERPRISES

is a growing name in the animal nutrition and veterinary feed additive industry, engaged as a trusted exporter, supplier, and trader of premium-quality poultry and livestock feed solutions.

Call us Now!

+91-08048771776

Established in 2026, J & J Enterprises is a growing name in the animal nutrition and veterinary feed additive industry, engaged as a trusted exporter, supplier, and trader of premium-quality poultry and livestock feed solutions. Under the leadership of Mr. Vishal Sopan Landge, the company is committed to delivering effective and quality-assured feed additives that support animal health, nutritional balance, disease management, and improved production performance.

Our product portfolio includes poultry feed antibiotics, growth promoters, coccidiostat feed supplements, amino acid supplements, ruminant nutrition additives, and specialized veterinary feed ingredients formulated to meet the evolving requirements of the livestock and poultry sectors. We source our products with a strong focus on quality, consistency, and industry compliance to ensure dependable performance across commercial farming applications.

At J & J Enterprises, we understand the critical role of animal nutrition in achieving sustainable farming productivity. Therefore, we emphasize reliable sourcing, prompt delivery, competitive pricing, and customer-focused service to build long-term business relationships. Our offerings are widely appreciated for their effectiveness, purity, and suitability for modern feed management practices.

Backed by ethical business values and a commitment to operational excellence, we continuously strive to expand our reach in domestic and international markets. Our focus remains on supplying innovative and dependable feed additive solutions that help customers improve animal wellness and production efficiency.

With a vision to become a recognized name in the global animal nutrition sector, J & J Enterprises continues to serve clients with professionalism, integrity, and product reliability.

BMD 10% GRANULES

— ANTIBACTERIAL FEED ADDITIVE —

Used to increase weight gain and improve feed conversion.

- INCREASES WEIGHT GAIN**
Supports healthy growth and better performance
- IMPROVES FEED CONVERSION**
Enhances nutrient utilization and feed efficiency
- ANTIBACTERIAL PROTECTION**
Helps maintain gut health and supports overall flock health

HIGH QUALITY Consistent & uniform granules

LAB TESTED Ensures safety, purity & efficacy

PREMIUM GRADE Manufactured under strict quality control

FOR POULTRY USE Ideal for all stages of poultry

Bmd 10% Poultry Feed Antibacterial Supplement

ERYTHROMYCIN 10%/20%

MACROLIDE ANTIBIOTIC

Macrolide antibiotic used to treat CRD and Coryza in poultry.

- TREATS CRD**
Effective against Chronic Respiratory Disease (CRD) in poultry.
- TREATS CORYZA**
Helps control infectious Coryza and related respiratory infections.
- BROAD-SPECTRUM ACTION**
Active against a wide range of Gram-positive and some Gram-negative bacteria.
- BETTER HEALTH & PERFORMANCE**
Supports faster recovery, improves feed efficiency and overall productivity.

TREATS CRD Effective against Chronic Respiratory Disease in poultry

TREATS CORYZA Helps control infectious Coryza and related respiratory infections

BROAD-SPECTRUM ACTION Active against a wide range of Gram-positive and some Gram-negative bacteria

BETTER HEALTH Supports faster recovery and stronger immunity

IMPROVED PERFORMANCE Enhances feed efficiency and overall productivity

Erythromycin Poultry Antibiotic Feed Supplement

CHLOROTETRACYCLINE HCL 15%

BROAD-SPECTRUM ANTIBIOTIC

Effective against respiratory and gastrointestinal infections.

- EFFECTIVE AGAINST RESPIRATORY INFECTIONS**
Helps control CRD, coccidiosis, and other respiratory illnesses.
- EFFECTIVE AGAINST GASTROINTESTINAL INFECTIONS**
Controls E. coli, Salmonella, and other enteric infections.
- BROAD-SPECTRUM ACTION**
Effective against a wide range of Gram-positive and Gram-negative bacteria.
- BETTER HEALTH, BETTER GROWTH**
Reduces disease impact and supports healthy growth and productivity.

BROAD-SPECTRUM ANTIBIOTIC Effective against a wide range of bacteria

RESPIRATORY PROTECTION Helps control respiratory tract infections

GUT HEALTH SUPPORT Helps manage and prevent gastrointestinal infections

REDUCES MORTALITY & MORBIDITY Supports recovery and reduces disease impact

IMPROVES GROWTH & PRODUCTIVITY Healthier animals for better performance and yield

Chlorotetracycline HCL 15% Veterinary Antibiotic Feed Supplement

LINCOMYCIN 11% GRANULES

ANTIBIOTIC

Antibiotic used for controlling necrotic enteritis and promoting growth.

- CONTROLS NECROTIC ENTERITIS**
Effective against Clostridium perfringens, the primary cause of necrotic enteritis.
- SUPPORTS GUT HEALTH**
Helps maintain a healthy intestinal environment and reduces mortality.
- PROMOTES GROWTH**
Improves feed efficiency and supports healthy weight gain.
- RELIABLE & EFFECTIVE**
Trusted antibiotic for better flock performance and productivity.

EFFECTIVE AGAINST C. PERFRINGENS

HEALTHY GUT SUPPORT

BETTER FEED EFFICIENCY

HEALTHY GROWTH & PERFORMANCE

IMPROVES FLOCK PRODUCTIVITY

Lincomycin 11% Poultry Feed Antibiotic Supplement

OXYTETRACYCLINE HCL 20% GRANULES

BROAD-SPECTRUM ANTIBIOTIC

A versatile broad-spectrum antibiotic used to treat systemic bacterial infections, respiratory diseases, and gastrointestinal issues in livestock. Highly valued for its stability in granulated form.

- BROAD-SPECTRUM ACTIVITY**
Effective against a wide range of Gram-positive and Gram-negative bacteria.
- RESPIRATORY SUPPORT**
Helps treat respiratory infections and improves animal health.
- GASTROINTESTINAL CARE**
Helps control and treat gastrointestinal infections and digestive disorders.
- STABLE & RELIABLE**
Granulated form ensures excellent stability, uniformity, and easy handling in feed.

BROAD-SPECTRUM PROTECTION Effective against a wide range of bacteria

SUPPORTS RESPIRATORY HEALTH Helps treat respiratory infections

AIDS GASTROINTESTINAL HEALTH Helps control and treat gastrointestinal issues

STABLE & EASY TO USE Granulated form ensures excellent stability and uniformity in feed

IDEAL FOR MULTIPLE LIVESTOCK Suitable for poultry, swine, cattle, and more

Oxytetracycline HCL 20% Veterinary Antibiotic Feed Supplement

+91-08048771776

info@jandjentrade.com

TIAMULIN HYDROGEN FUMARATE

PLEUROMUTILIN ANTIBIOTIC

Pleuromutilin antibiotic used for respiratory and swine dysentery diseases.

- RESPIRATORY HEALTH**
Helps control respiratory infections and improves lung function.
- SWINE DYSENTERY CONTROL**
Effective against swine dysentery and associated bacterial infections.
- BROAD-SPECTRUM ACTION**
Pleuromutilin antibiotic with excellent efficacy and safety in swine.

NET WEIGHT: 25 kg

- SUPPORTS RESPIRATORY HEALTH**
Helps reduce respiratory disease and improve breathing.
- CONTROLS SWINE DYSENTERY**
Helps control swine dysentery and improves intestinal health.
- RELIABLE & EFFECTIVE**
Proven efficacy for better health and productivity in swine.
- IMPROVES PRODUCTIVITY**
Supports feed efficiency, growth performance and overall productivity.

Tiamulin Hydrogen Fumarate Veterinary Antibiotic Feed Supplement

ZINC BACITRACIN 15%

ANTIBIOTIC GROWTH PROMOTER

Helps maintain healthy gut microflora

- SUPPORTS GUT HEALTH**
Helps maintain healthy gut microflora balance
- PROMOTES GROWTH**
Improves nutrient absorption for better weight gain
- ENHANCES PERFORMANCE**
Supports digestive health and overall performance

NET WEIGHT: 25 kg

- ANTIBIOTIC GROWTH PROMOTER**
- MAINTAINS HEALTHY GUT MICROFLORA**
- BETTER GROWTH & PERFORMANCE**
- IMPROVES NUTRIENT ABSORPTION**
- SUPPORTS OVERALL HEALTH**

Zinc Bacitracin 15% Antibiotic Growth Promoter

TYLOSIN PHOSPHATE 10% GRANULES

MACROLIDE ANTIBIOTIC

Specifically effective against Mycoplasma. A standard choice for preventing Chronic Respiratory Disease (CRD) and promoting growth.

- EFFECTIVE AGAINST MYCOPLASMA**
Targets Mycoplasma infections, a key cause of CRD in poultry.
- PREVENTS CRD**
Helps reduce incidence and severity of Chronic Respiratory Disease.
- PROMOTES GROWTH**
Improves feed efficiency and supports healthy weight gain.
- PREMIUM GRANULE FORM**
Ensures uniform mixing, better stability and easy handling.

NET WEIGHT: 25 kg

- EFFECTIVE AGAINST MYCOPLASMA**
Targets Mycoplasma infections effectively.
- PREVENTS CRD**
Helps lower CRD incidence and respiratory stress.
- PROMOTES GROWTH**
Enhances weight gain and feed utilization.
- IMPROVES HEALTH**
Supports overall health and strong immune response.
- PREMIUM GRANULES**
Ensures uniform mixing, stability and easy handling.

Tylosin Phosphate 10% Poultry Antibiotic Feed Supplement

AVILAMYCIN 10% GRANULES

GROWTH PROMOTER

Improves feed efficiency and prevents necrotic enteritis in poultry.

- PROMOTES HEALTHY GROWTH**
- PREVENTS NECROTIC ENTERITIS**
- SUPPORTS INTESTINAL HEALTH**

- BETTER GROWTH**
Supports optimal weight gain
- BETTER FEED EFFICIENCY**
Improves feed conversion ratio
- GUT HEALTH SUPPORT**
Maintains healthy intestinal function
- PREVENTS NECROTIC ENTERITIS**
Helps control harmful intestinal bacteria

Avilamycin 10% Poultry Feed Growth Promoter

ENRAMYCIN 8% GRANULES
GROWTH PROMOTER

**BETTER GROWTH
BETTER HEALTH
FOR HIGHER PERFORMANCE**

- ENHANCES GROWTH**
Improves weight gain and overall performance
- REDUCES WET DROPPINGS**
Promotes drier litter and better farm hygiene
- CONTROLS INTESTINAL PATHOGENS**
Supports gut health and helps prevent digestive upsets

FOR POULTRY USE ONLY
NET WEIGHT: 25 kg

IMPROVES GROWTH PERFORMANCE | BETTER FEED EFFICIENCY | HEALTHY GUT FUNCTION | SUPPORTS IMMUNITY & WELL-BEING | REDUCES LITTER MOISTURE

Enramycin 8% Poultry Feed Growth Promoter

Enramycin 8% granules

Powerful growth promoter that reduces wet droppings and controls intestinal pathogens.

- Enhances Growth
- Improves Gut Health
- Controls Intestinal Pathogens

Enramycin 8% Poultry Growth Promoter Granules

FLAVOMYCIN 4%/8%
PERFORMANCE ENHANCER

Supports beneficial gut microflora for better growth.

- BETTER GROWTH**
Improves nutrient absorption and supports healthy growth
- HEALTHY GUT MICROFLORA**
Promotes beneficial bacteria and maintains gut balance
- IMPROVED PERFORMANCE**
Enhances feed efficiency and overall performance

Net Weight: 25 kg

SUPPORTS BENEFICIAL GUT MICROFLORA

ENHANCES GROWTH PERFORMANCE | IMPROVES FEED EFFICIENCY | SUPPORTS GUT HEALTH | STRENGTHENS IMMUNITY | MAINTAINS HEALTHY MICROBIOME

Flavomycin Poultry Feed Performance Enhancer

FLAVOMYCIN 4%/8%
PERFORMANCE ENHANCER

Supports beneficial gut microflora for better growth.

- BETTER GROWTH**
Improves nutrient absorption and supports healthy growth
- HEALTHY GUT MICROFLORA**
Promotes beneficial bacteria and maintains gut balance
- IMPROVED PERFORMANCE**
Enhances feed efficiency and overall performance

Net Weight: 25 kg

SUPPORTS BENEFICIAL GUT MICROFLORA

ENHANCES GROWTH PERFORMANCE | IMPROVES FEED EFFICIENCY | SUPPORTS GUT HEALTH | STRENGTHENS IMMUNITY | MAINTAINS HEALTHY MICROBIOME

Nosiheptide 1% Poultry Feed Growth Promoter

VIRGINIAMYCIN
10% & 50% GRANULES

— STREPTOGRAMIN ANTIBIOTIC —

Used as a growth promoter and to prevent necrotic enteritis.

-  PROMOTES HEALTHY GROWTH
-  PREVENTS NECROTIC ENTERITIS
-  SUPPORTS INTESTINAL HEALTH

-  IMPROVES WEIGHT GAIN
-  BETTER FEED EFFICIENCY
-  ENHANCES GUT HEALTH
-  HELPS PREVENT NECROTIC ENTERITIS

Virginiamycin Poultry Feed Growth Promoter

Maduramycin
1% Granules

POTENT COCCIDIOSTAT

Potent coccidiostat used to prevent protozoal infections in broilers.

-  DISEASE PREVENTION
-  IMPROVED GROWTH
-  GUT HEALTH SUPPORT

Effective protection. Healthier flock. Better performance.

Maduramycin 1% Poultry Coccidiostat Feed Supplement

Lasalocid Sodium 15%

Ionophore Coccidiostat

-  Prevents Coccidiosis
-  Maintains Growth Performance
-  Supports Gut Health & Overall Flock Well-being

Lasalocid Sodium 15% Poultry Coccidiostat Feed Supplement

Monensin sodium 20%

COCCIDIOSTAT

Widely used for coccidiosis prevention and improving feed efficiency.

-  Coccidiosis Prevention
-  Improves Feed Efficiency
-  Better Growth Performance

Macro shot of industrial-grade feed premix granules, bright industrial lighting, professional export quality.

Monensin Sodium 20% Poultry Coccidiostat Feed Supplement

+91-08048771776

info@jandjenttrade.com

Narasin 20% Granules

IONOPHORE COCCIDIOSTAT

Ionophore antibiotic used as a coccidiostat to protect intestinal health.

- Coccidiosis Protection
- Supports Intestinal Health
- Improves Flock Performance

A clean white plastic container for veterinary supplements, soft lighting, professional and trustworthy look.

Narasin 20% Poultry Coccidiostat Feed Supplement

BY-PASS CHOLINE CHLORIDE

RUMINANT FEED SUPPLEMENT

Essential for fat metabolism; 'bypass' technology ensures better absorption in ruminants.

- ESSENTIAL FOR FAT METABOLISM**
Supports healthy liver function and fat utilization.
- BETTER ABSORPTION**
'Bypass' technology protects choline from rumen degradation for maximum availability.
- IMPROVES PERFORMANCE**
Enhances feed efficiency, growth, milk production and overall productivity.
- SUPPORTS HEALTH & IMMUNITY**
Promotes overall health and strengthens immunity.

SUPPORTS LIVER HEALTH | ENHANCES FAT METABOLISM | IMPROVES MILK PRODUCTION | BETTER FEED EFFICIENCY | STRENGTHENS IMMUNITY | IDEAL FOR ALL RUMINANTS

By-Pass Choline Chloride Ruminant Feed Supplement

Nicarbazine & Maduramycin

Synergistic Coccidiostat Combination for Broad-Spectrum Protection

- Broad-Spectrum Coccidiosis Protection
- Supports Intestinal Health
- Improves Growth Performance
- Synergistic Action

Effective Against All Major Eimeria Species | Safe for Poultry & Feed Use | Scientifically Formulated | Consistent Quality for Better Results

Nicarbazine & Maduramycin Poultry Coccidiostat Feed Supplement

BY-PASS LYSINE 50%

ESSENTIAL AMINO ACID

Critical amino acid for muscle development and skeletal growth in livestock.

- MUSCLE DEVELOPMENT**
Supports lean muscle growth and improves body weight gain.
- SKELETAL GROWTH**
Promotes strong bones and optimal skeletal development.
- BETTER PERFORMANCE**
Enhances feed efficiency and overall productivity.
- BY-PASS TECHNOLOGY**
Ensures maximum absorption in the intestine for better results.

MUSCLE GROWTH Promotes lean muscle development | STRONG SKELETON Supports healthy bones and skeletal growth | BETTER PRODUCTIVITY Improves weight gain and feed efficiency | ENHANCED HEALTH Supports overall health and vitality | MAXIMUM ABSORPTION Bypass technology for better amino acid utilization

By-Pass Lysine 50% Essential Amino Acid Feed Supplement

BY-PASS METHIONINE 50%

ESSENTIAL AMINO ACID

Essential amino acid for protein synthesis, feather growth, and egg production.

- PROTEIN SYNTHESIS**
Supports protein formation for better growth and development.
- FEATHER GROWTH**
Promotes healthy feather formation and quality.
- EGG PRODUCTION**
Enhances egg production and shell quality.
- RUMEN BYPASS PROTECTION**
By-pass technology ensures maximum absorption and better utilization.

ESSENTIAL AMINO ACID Vital for growth and productivity | IMPROVES PERFORMANCE Better feed efficiency and weight gain | ENHANCES IMMUNITY Supports overall health and immunity | BETTER EGG QUALITY Improves shell strength and egg quality | HIGHLY BIOAVAILABLE Maximum absorption and utilization

By-Pass Methionine 50% Essential Amino Acid Feed Supplement

CALCIUM GRANULES

ESSENTIAL MINERAL

Vital mineral for bone strength and high-quality eggshell formation.

- STRONG BONES**
Supports proper skeletal development and bone strength.
- HIGH-QUALITY EGGSHELL**
Promotes thicker, stronger eggshells and reduces breakage.
- ESSENTIAL MINERAL**
Provides vital calcium for overall health and productivity.
- BETTER PERFORMANCE**
Improves growth, feed efficiency and laying performance.

SUPPORTS BONE STRENGTH | PROMOTES STRONG EGGSHELLS | ESSENTIAL FOR OVERALL HEALTH | IMPROVES GROWTH & PRODUCTIVITY | HIGH PURITY GRANULES

Calcium Granules Poultry Feed Supplement
