TIVANSHI VENTURES

ABOUT US

Established in 2025, Tivanshi Ventures is a trusted supplier, trader and exporter of premium makhana, eco-friendly stationery, bamboo products and sustainable lifestyle essentials from India. We serve domestic as well as international buyers with carefully selected products that combine quality, functionality, responsible materials and professional presentation. Our growing product portfolio includes premium raw and phool makhana, recycled paper pencils, plantable seed pencils, recycled paper pens, plantable seed pens, customised bamboo pens, bamboo toothbrushes, bamboo towels and bamboo drinkware. Every product is sourced with attention to quality, durability, finish, packaging and buyer-specific requirements.

At Tivanshi Ventures, we believe that healthy food choices and sustainable products should be accessible for everyday, business and institutional use. Our premium makhana range is suitable for wholesalers, retailers, distributors, private-label buyers and export markets, while our eco-friendly stationery and bamboo products are ideal for schools, offices, hotels, resorts, NGOs, promotional campaigns, corporate gifting and international sourcing requirements. We also provide custom branding and personalisation on selected products, including logo printing, laser engraving, sticker customisation, personalised text, private labelling and custom packaging. These services help corporate buyers, hospitality businesses, gifting agencies and overseas importers source products aligned with their brand identity. Operating as an Individual Sole Proprietorship under the leadership of Ms. Priya Maheshwari, Tivanshi Ventures follows ethical business practices, transparent communication and a customer-focused approach. We work closely with buyers to understand their product specifications, packaging preferences, branding requirements and order quantities.
