ISABGOL

(PSYLLIUM HUSK — *Plantago ovata*)

Product & Export Catalogue

Whole Husk · Husk Powder · Granules · Custom Mesh & Private Label

Edition 2026

01 About Ramnath Export

Ramnath Export sources, processes, and exports isabgol (psyllium husk) from Gujarat, India — the heart of the world's psyllium-growing belt. We work directly with growers and processors around the morbi trading hub to supply whole husk, husk powder, and granules to food, pharmaceutical, and nutraceutical buyers worldwide.

Every consignment is cleaned, graded, and tested before dispatch, with certificates of analysis and phytosanitary documentation provided for each shipment. We supply on standard commercial terms as well as private-label and custom-mesh orders to match a buyer's formulation requirements.

Company: Ramnath Export

Origin: Morbi, Gujarat, India

HS Code: 1211.90.32 (Psyllium / Isabgol Husk)

02 The Product

Isabgol is the seed husk of *Plantago ovata*, a drought-tolerant plant cultivated across Gujarat and Rajasthan. The husk is prized for its very high mucilage content, which forms a gel on contact with water. This gives psyllium husk its use as a natural soluble-fibre ingredient in dietary supplements, functional foods, bakery, beverages, and pharmaceutical bulk-laxative formulations.

India supplies the large majority of the world's psyllium husk, and Gujarat is the principal processing centre for the crop.

03 Product Range

Product	Form	Purity	Typical Use
Isabgol Whole Husk 99%	Whole husk, long fibre	99% pure	Premium supplements, capsules
Isabgol Whole Husk 95%	Whole husk	95% pure	Food & pharma bulk fibre
Isabgol Husk Powder 95%	Fine powder, 80–100 mesh	95% pure	Beverage mixes, sachets
Isabgol Husk Powder 85%	Powder, coarser mesh	85% pure	Industrial / feed-grade fibre
Kha-Kha Powder	Coarse by-product powder	Standard	Industrial & animal feed use
Custom Mesh / Private Label	As specified by buyer	As specified	OEM & branded packaging

04 Technical Specifications

Parameter	Specification
Botanical source	Plantago ovata Forssk.
Swelling index	Minimum 10:1 by volume (varies by grade)
Mucilage content	Up to ~25–30% in premium grades
Moisture content	Maximum 12%
Ash content	Maximum 4%
Acid-insoluble ash	Maximum 1%
Mesh size	Standardised to buyer specification (e.g. 30, 40, 80, 100 mesh)
Colour	Off-white to light cream (grade dependent)
Foreign matter	Nil to trace, per agreed grade tolerance
Microbial limits	Tested per pharmacopeial / food-grade requirement on request
Heavy metals	Tested and certified on request (Pb, As, Hg within limits)
Shelf life	24 months from packing date, stored in cool, dry conditions

Exact figures are confirmed on the certificate of analysis (COA) issued with each shipment and can be tailored to buyer or pharmacopeial (USP / BP / IP / EP) standards.

05 Packaging & Shipping

- Retail-ready pouches: 100 g, 200 g, 500 g (heat-sealed, moisture-barrier)
- Bulk bags: 25 kg multi-wall paper or HDPE-lined bags
- Jumbo bags: 500 kg / 1,000 kg FIBC (super sacks) with liner
- Custom private-label packaging available on request, including buyer branding and barcoding
- Loaded in 20 ft / 40 ft containers with moisture-protective dunnage and desiccant
- Shipping documents: Commercial Invoice, Packing List, Certificate of Origin, Phytosanitary Certificate, COA, Fumigation Certificate

06 Applications

- Dietary fibre supplements and bulk-forming laxative formulations
- Functional foods, bakery, and breakfast cereals
- Ready-to-mix beverage sachets and powders
- Nutraceutical capsules and tablets
- Gluten-free and low-carb food formulation
- Industrial and pet/animal feed applications (lower grades)

07 Quality Assurance

Each lot is sourced, cleaned, and quality-checked prior to packing. Certificates of analysis, phytosanitary certificates, and other compliance documents are issued per shipment. Certification status (e.g. ISO, HACCP, FSSAI, Halal, Kosher, organic) is confirmed on request and will be listed here once finalised for your export documentation.

o8 Contact & Ordering

For pricing, minimum order quantities, samples, and shipping terms (FOB / CIF / CFR), please reach out with your target grade, mesh size, and destination port.
