ABOUT US

Manish Medi-Innovation was incepted in the year 2004, with an objective to provide utmost satisfaction to our honored clients. We are a renowned organization that has received an ISO certification and are reckoned as one of the leading radiology equipment manufacturers, in the market. We proffer a wide array of medical surgical disposables used in the field of gynecology, radiology, urology etc. In addition to this, we are also positioned as a distinguished supplier of gastro equipment, based in India.

We have a monthly production capacity of around 20,000 units. We also export our products to various foreign countries in South-East Asia. Our fast growth is due to our utmost devotion towards genuine quality and reasonable prices of our products. We value our clients & channel partners, thus believing in maintaining long-term relationships with them.

Main Objective

To fulfill and satisfy our customer's requirement and take them to higher levels.

Gastrology Products

- Gastrology Amsterdam
- Gastrology Biliary Flap
- Gastrology Biliary Stents

Gynaecology Products

- Gynaecology Centrifuge Tubes
- Gynaecology IUI Catheters
- Gynaecology Pipets

Radiology Products

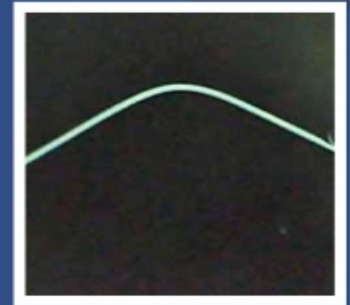

- Radiology Malecot Nephrostomy Set
- Radiology Pigtail Nephrostomy Set
- Radiology Nottingham Catheter
- Radiology PCN Catheter
- Radiology Meatal Dilator

Urology Products

- Urology Malecot Catheter
- Urology Ureteric Catheter
- Urology Meatal Dilators
- Urology Screw Dilators
- Urology Ureteral Dilators
- Urology Forcep
- Urology Loop
- Urology Malecot Nephrostomy Set
- Urology Pigtail Nephrostomy Set
- Urology Penile Clamps
- Urology Double J Stents
- Urology Endopyelotomy Stents
- Urology Ureteral Stents
- Urology Stone Basket

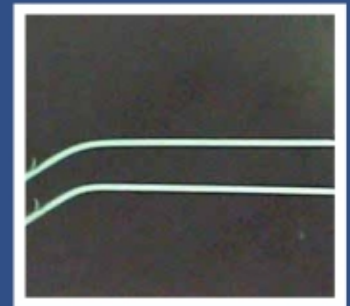

Gastrology Amsterdam

Our company is engaged in manufacturing and exporting of Gastrology Amsterdam. Gastrology Amsterdam is used for strictures treatment in the ductile system as well as biliary duct via nasal passage. Our team of skilled professionals fabricates the Gastrology Amsterdam using cutting-edge technology and graded material as per the set medical standards. The Gastrology Amsterdam offered by us is a preferred choice of many doctors owing to its rigid make, lightweight and dimensional accuracy.

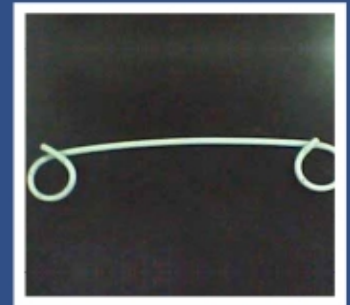

Gastrology Biliary Flap

Manish Medi-innovation is a trusted Manufacturer and Exporter of Gastrology Biliary Flap. Used during medical treatments and surgeries, the Gastrology Biliary Flap is designed by a team of qualified medical experts and engineers. Clients can rest assured of the quality, durability and rigid designing of the Gastrology Biliary Flap. We offer thoroughly quality tested and properly sanitized Gastrology Biliary Flap to the clients at the most fair prices.

Gastrology Biliary Stents

Contact us to avail premium quality Gastrology Biliary Stents at the best prices. The Gastrology Biliary Stents offered by us are the tubes that are made of either metal or plastic. These Gastrology Biliary Stents are used to drain bile ducts endoscopically. We offer durable, dimensionally accurate, sanitized and quality tested Gastrology Biliary Stents to the clients as per their requirements.

Gynaecology Centrifuge Tubes

We are a reputed name when it comes to manufacturing and exporting of Gynaecology Centrifuge Tubes. These Gynaecology Centrifuge Tubes are fabricated under the guidance of medical experts using cutting-edge technology and graded material. These Gynaecology Centrifuge Tubes are precisely designed by a team of experts. These Gynaecology Centrifuge Tubes are the first choice of the doctors owing to their excellent make, lightweight and germ free nature.

Gynaecology IUI Catheters

We offer premium Gynaecology IUI Catheters that are a combination of solid thick cervix catheter and flexible intra-uterine catheter. The Gynaecology IUI Catheters offered by us are gamma irradiated, mouse embryo tested as well as endotoxin tested. These Gynaecology IUI Catheters are equipped with a positioner that prevents damage to the fundus. Clients can avail these finely made and accurately dimensioned Gynaecology IUI Catheters from in the specific requirements.

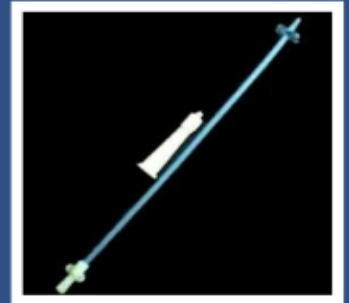

Gynaecology Pipets

We are a reliable Manufacturer and Exporter of Gynaecology Pipets. Used during several gynecology treatments and surgeries, these Gynaecology Pipets are manufactured using top-class material and advanced technology. Our offered Gynaecology Pipets are not only rigid and durable but are also finely finished and properly sanitized. Clients can avail the Gynaecology Pipets from us in different sizes and dimensions as per the requirements at best prices.

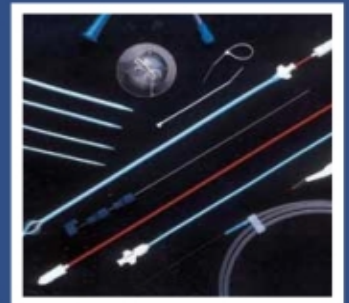

Radiology Malecot Nephrostomy Set

The Radiology Malecot Nephrostomy Set offered by us is designed and fabricated under the guidance of experienced professionals. Extensively used in the medical sector for various applications, the Radiology Malecot Nephrostomy Set we supply is durable, reliable and sturdy. We also customize the Radiology Malecot Nephrostomy Set as per the exact requirements of the clients and make it available to them at the most reasonable prices.

Radiology Pigtail Nephrostomy Set

Clients can avail optimum quality Radiology Pigtail Nephrostomy Set from us. This Radiology Pigtail Nephrostomy Set is made of medically approved material. The durability, precise making and fine finishing of the Radiology Pigtail Nephrostomy Set add to its demand in the market. We offer Radiology Pigtail Nephrostomy Set as per the requirements of the clients at the industry leading prices.

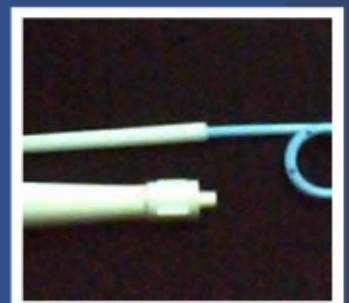

Radiology Nottingham Catheter

We are a highly acclaimed Manufacturer and Exporter of Radiology Nottingham Catheter. The Radiology Nottingham Catheter is especially designed for one-step dilatation of the intramural portion and ureter. This Radiology Nottingham Catheter is known for its rigid make, dimensional accuracy, fine finishing and lightweight. This Radiology Nottingham Catheter can be availed from us in varied specifications at competitive prices.

Radiology PCN Catheter

Owing to the rich industrial experience, we bring forth a huge gamut of Radiology PCN Catheter. The Radiology PCN Catheter is designed by a team of qualified medical experts. The designing of this Radiology PCN Catheter is done in a way that it becomes easy to use and convenient to handle. Also, this Radiology PCN Catheter is durable, light in weight and safe for use.

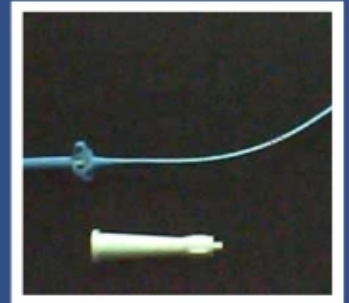

Radiology Meatal Dilator

The company is a prominent Manufacturer and Exporter of Radiology Meatal Dilator. Radiology Meatal Dilator is used for self-dilatation of penile urethral meatus. We fabricate the Radiology Meatal Dilator using cutting-edge technology and quality tested material. This Radiology Meatal Dilator is appreciated by the clients owing to its fine make, seamless finishing, durability and lightweight. Clients can avail the Radiology Meatal Dilator from us in varied specifications at the market leading prices.

Urology Malecot Catheter

We are counted amidst the distinguished Manufacturers and Exporters of Urology Malecot Catheter. Urology Malecot Catheter is carefully designed for easy drainage of thick viscous fluids. This Urology Malecot Catheter is also very radiopaque and that leads to a better visualization. We manufacture this Urology Malecot Catheter exactly in compliance with the set medical parameters. Clients can avail durable, lightweight and precisely dimensioned Urology Malecot Catheter from us at affordable prices.

Urology Ureteric Catheter

We are counted amidst the distinguished Manufacturers and Exporters of Urology Malecot Catheter. Urology Malecot Catheter is carefully designed for easy drainage of thick viscous fluids. This Urology Malecot Catheter is also very radiopaque and that leads to a better visualization. We manufacture this Urology Malecot Catheter exactly in compliance with the set medical parameters. Clients can avail durable, lightweight and precisely dimensioned Urology Malecot Catheter from us at affordable prices.

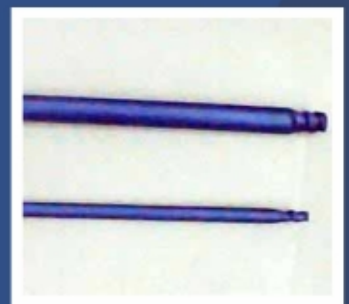

Urology Meatal Dilators

Urology Meatal Dilators are specifically designed for medical purpose for dilating the external urethral meatus or a Mitrofanoff stoma. It dilates the chronic strictures in female or male urethra, which occurs due to some disease or trauma. The Urology Meatal Dilators that we provide are flexible enough so as to configure in the direction of the Mitrofanoff or urethra tube without causing any trauma.

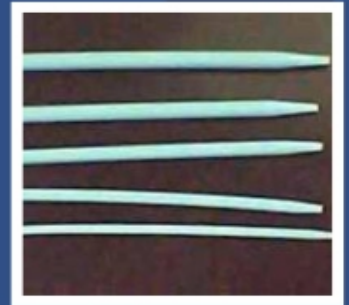

Urology Screw Dilators

Used for the medical purpose, Urology Screw Dilators are specifically designed to be used for one step dilation and can be preferred to be used instead of sequential dilation. The Urology Screw Dilators feature smooth surface for ease of introduction and these are a time saving one-step dilation solution. The Urology Screw Dilators are fabricated by using superior materials and complies with the set standards.

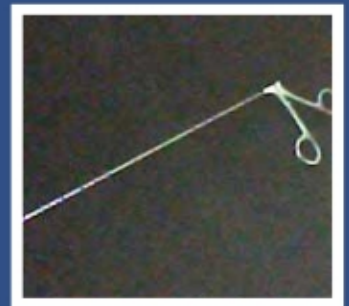

Urology Ureteral Dilators

The Urology Ureteral Dilators, offered by us, are used for the purpose of gradual Dilation of the ureter prior to ureteroscopy and for stone manipulation. Urology Ureteral Dilators that we offer are made by using high-grade materials like soft-polyethylene which helps in sequential dilation of the ureter. These are durable, sanitized and features smooth surface for ease of introduction.

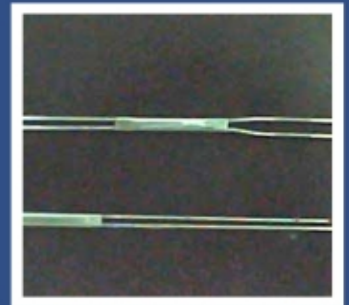

Urology Forcep

The Urology Forcep is used as a part of surgical instruments in medical industry. The Urology Forceps that we offer is manufactured by using high-grade stainless steel and is well-sanitized before the dispatch. The Urology Forcep is very simple to use and is highly durable. The Urology Forcep can be availed at competitive prices from us.

Urology Loop

Urology Loop that we offer is widely used as a urological surgical instrument in the medical industry. The Urology Loop is precisely designed and made by using high-grade material like stainless steel. The Urology Loop, we offer, is durable and well-sanitized. Our clients can avail Urology Loop at competitive prices.

Urology Malecot Nephrostomy Set

The Urology Malecot Nephrostomy Set is used by medical practitioners for the purpose of providing a secure placement for nephrostomy drainage. Urology Malecot Nephrostomy Set is specifically designed to secure the position of the catheter. The Urology Malecot Nephrostomy Set is included with a drainage bag, which is connected with a tube. The Urology Malecot Nephrostomy Set is medically tested and sanitized.

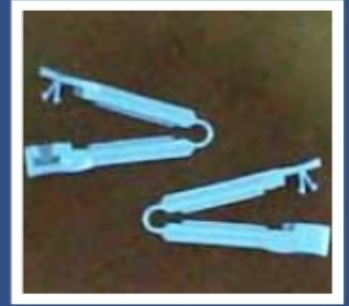

Urology Pigtail Nephrostomy Set

Urology Pigtail Nephrostomy Set is widely used in the medical industry. It is applied by directly puncturing and it provides a temporary or even permanent drainage of urine from the kidney. This process is performed in the presence of distal obstruction. The Urology Pigtail Nephrostomy Set offers smooth insertion and is made for one time use only.

Urology Penile Clamps

Urology Penile Clamps are a medical instrument used in the urological surgeries. These Urology Penile Clamps that we offer are made by using high-grade materials and are tested for authenticity. The Urology Penile Clamps are available in sanitized form and can be availed at very affordable prices from us.

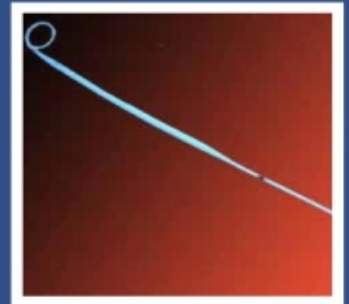

Urology Double J Stents

The Urology Double J Stents are widely used for the purpose carrying urine from the kidney by collecting it to an external system or pushing it down into the bladder internally. Urology Double J Stents are tested and sanitized as these are used for the medical purpose. We make available the following range of Urology Double J Stents such as 3.0 French to 8.0 French size and 8.0 cm to 30.0 cm length respectively.

Urology Endopyelotomy Stents

Our variety of Urology Endopyelotomy Stents includes Ureteral Stent, Double Stents Sets, Ureteropelvic Stents, Endopyelotomy Stent, and Urology Stents. Urology Endopyelotomy Stents are widely used in medical industry for the purpose of temporary drainage from the ureteropelvic junction to the bladder following incision of a stricture. Urology Endopyelotomy Stents are made by using soft tecoflex polyurethane for the purpose of smooth passage in radio-opaque implant.

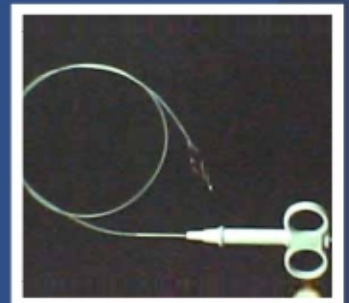

Urology Ureteral Stents

The Urology Ureteral Stents are used as medical equipment for the purpose of carrying urine from the kidney to an external collection system or down into the bladder internally. The main purpose of it, in medical terms, is removing internal drainage from the ureteropelvic junction to the bladder. The Urology Ureteral Stents is made by using soft polyurethane material, which ensures patient's comfort.

Urology Stone Basket

The Urology Stone Basket is medical equipment used for the purpose of removing stone fragments from ureter. The Urology Stone Basket is specifically designed so as to provide maximum safety to the patients. The Urology Stone Basket is invented for single use only. Moreover, the Urology Stone Basket is very easy-to-operate and is widely demanded for its superior quality and long service life.
