

**WASIT GROUP**

[www.wasitgroup.com](http://www.wasitgroup.com)

**WASIT GENERAL TRADING LLC** was established in year 2007 at Ras al Khaimah, United Arab Emirates. Our company is known locally and internationally as a reliable miner, supplier and exporter of mining products such as gypsum, industrial salt, limestone, aggregate, marble chips, iron ore and feldspar. Our mine is strategically located near to the port which enables us to easily shift cargo from mine to port. We also have wide range of equipment and facilities for land transportation and export of our mining products.

Since then, we are providing our mining products to different industries such as cement and gypsum factories, dye and textile companies, pharmaceutical, ceramics, rubber and leather companies, soap and detergent manufacturers, among others. Our mining products are made available throughout the nation and other Gulf countries, India and East Africa.

Our company is rapidly growing and its operations have been expanded into the production and development of other related products such as gypsum powder, gypsum boards and gypsum ceiling tiles. We are using updated and innovative machineries and equipment in producing different product sizes as per our customers' requirements.

As our company grows, our desire to meet all the requirements of our valuable customers has become stronger. Hence, we are providing port and marine services including all shipping, barging, and chartering services; logistics; marine and land transportation of materials to various parts of the world with timely delivery at customer's doorstep; mine services; port handling; and port facilities. Our company has its own vessels with heavy carriage capacities to ensure that bulk orders and consignments are easily catered to and delivered successfully.

We have proven our ability and capacity in mining and shipping industries. Our company has earned its mark by providing high quality mining products and shipping services all over the world. Also, we have gained the trust of our respective customers.

### MISSION

To be one of the largest mineral suppliers around the world that is known for its high quality products and services and capable of meeting every customer's requirements.

### VISION

To provide high quality products and services by adopting latest innovation and modern technology in all of our company's products and services.

### VALUES

- Respecting customers
- Outstanding accountability
- Maintaining high quality products and services
- Rendering on-time services
- Prompt action for all customers' concerns

### GYPSUM ROCKS

**WASIT GROUP** is one of the credible miners, suppliers and exporters of the best quality **GYPSUM ROCKS**. We source our **GYPSUM ROCKS** directly from our mine which is strategically located near the port. Our highly consistent **GYPSUM ROCKS** are chemically tested to assure quality and efficiency; they are available in various sizes in bulk. We are using wide range of updated machinery and equipment to meet our customers' different requirements.

**GRINDED GYPSUM** is also offered by our company and available in 300 mesh size.

#### APPLICATIONS :

- Used to manufacture gypsum panel or building plasters
- Used to manufacture cement
- Used as fertilizer
- Used by chemical factories

#### PRODUCTION SIZES :

- 0-50 mm
- 50-150 mm
- 50-250 mm

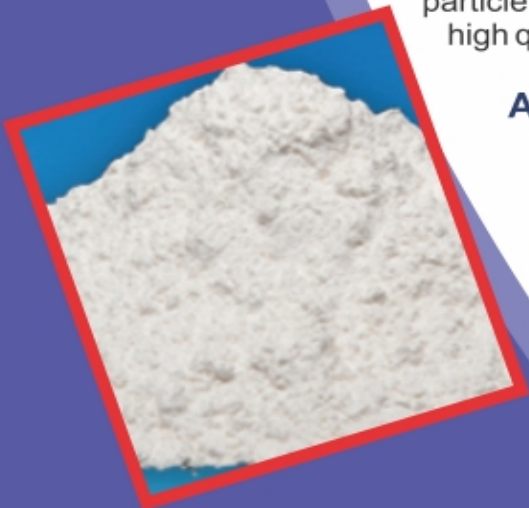

### GYPSUM POWDER

We produce high quality **GYPSUM POWDER** with finest grains and high whiteness in our own **GYPSUM FACTORY** using the best **GYPSUM ROCKS** from our own mine. We utilize our own **GYPSUM ROCKS** through implementation of different procedures using latest technology and equipment in conformity with international standards. Accordingly, we are manufacturing it in two particle sizes: 100 and 200 mesh. All of our **GYPSUM POWDER** particle sizes are uniform and 100% pure. It is also properly packed using high quality material and available in plain or branded bags.

#### ADVANTAGES :

- High strength
- High whiteness
- Low moisture absorption
- No screening needed
- Suitable setting time

### GYPSUM BOARD

Our **GYPSUM BOARD FACTORY** is manufacturing **GYPSUM BOARD** composed primarily of gypsum, and paper surfacing on the face and back ends. We offer **GYPSUM BOARD** in different types and sizes.

**GYPSUM BOARD** is often called drywall, wallboard, or plasterboard. It is also used to provide smooth finishes and as substitute to plaster.

**1. REGULAR (RG) – used for normal applications**

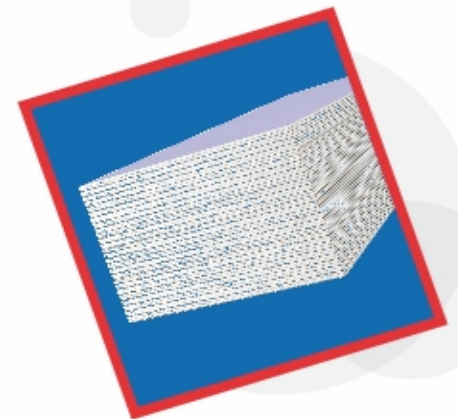

- 2500 \* 1200 \* 9.5 mm
- 2500 \* 1200 \* 12.5 mm

**2. FIRE WALL (FR) – particularly used in kitchens where fire resistance feature is essential**

- 2500 \* 1200 \* 9.5 mm
- 2500 \* 1200 \* 12.5 mm

**3. MOISTURE RESISTANT (MR) – used in areas that are expected to experience high level of humidity such as washrooms**

- 2500 \* 1200 \* 9.5 mm
- 2500 \* 1200 \* 12.5 mm

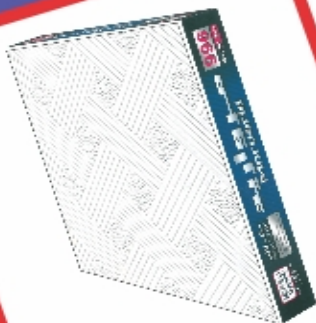

### GYPSUM CEILING TILE

We produce **GYPSUM CEILING TILE** laminated with **PVC** on its surface and aluminum foil on its back. It is utilized in numerous construction applications owing to its flawless finish. Considerably, we offer our high quality **GYPSUM CEILING TILE** with different patterns. It is carefully crafted in alluring designs and shapes to suit all preferences of our valued customers. We also offer it at affordable prices.

#### ADVANTAGES :

- Quick and easy mounting and assembling
- Different patterns and designs available
- Does not require painting
- Moisture resistant
- Strip protected edge

## WASIT GROUP

[www.wasitgroup.com](http://www.wasitgroup.com)

### INDUSTRIAL SALT

Our company is one of the biggest **ROCK SALT** mine owners in the region and has been engaged in local and international markets. Our mine has a rich reservoir and we are also maintaining special yard for depositing and loading our own products including but not limited to **INDUSTRIAL SALT**. Consequently, in our salt production, we are using wide range of updated machineries and production lines, sizing and packing equipment in meeting all of our customers' demands. We are also capable of delivering large orders of salt and consignments in bulk.

#### APPLICATIONS :

- Chlorine manufacturing
- Rubber manufacturing
- In animal feed
- As water softeners
- In highway or road deicing
- In paper and pulp industries
- Soap and detergent manufacturing
- In petrochemical manufacturing
- Caustic Soda manufacturing
- In curing of hides
- In drilling
- In textile industries

#### PACKAGING :

- 35 kg per bag
- 1 ton jumbo bag
- 2 tons jumbo bag
- 50 kg per bag
- 1.5 tons jumbo bag

### LIMESTONE

Our company holds expertise in mining, supplying and exporting high quality **LIMESTONE ROCKS** in huge quantity. Our **LIMESTONE** mine is using several production lines and advanced machineries to meet our customers' requirements in cement and steel factories.

Our **LIMESTONE** mine is strategically located near to the port which enables us to easily shift cargo from mine to port. We also have wide range of equipment and facilities for land transportation and export of our **LIMESTONE** product.

#### ADVANTAGES :

- Low silica
- High purity

# AGGREGATE

We utilize our own **AGGREGATE** mine by producing rich and high quality **AGGREGATES**. We incorporate the utilization of most advanced production lines, sizing and washing equipment in manufacturing and supplying of **AGGREGATES** to our valued customers as per requirements. As of today, we have three production lines for crushing and sizing of **AGGREGATES**.

### APPLICATIONS :

- As roadway base course
- In Portland Cement Concrete
- In asphalt concrete
- In railroad ballast
- In erosion control
- In sewage treatment process
- In foundations, walls, floors, roofs and partitions of buildings

# MARBLE CHIPS

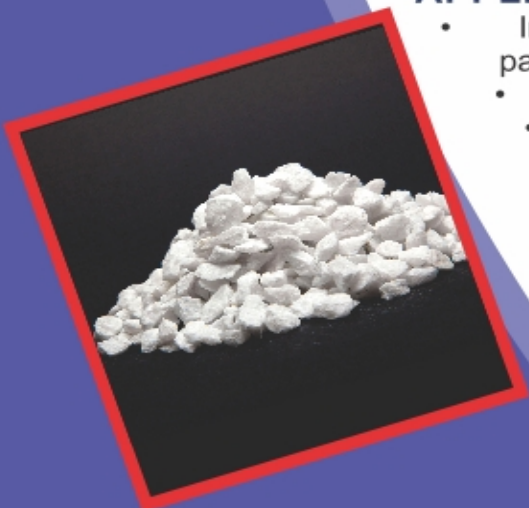

Our company has been producing high quality **MARBLE CHIPS** for many years; these chips undergo high processing using optimum grade stones that are carefully selected and tested. Not only that, we are providing it at affordable prices; and sizes are available as per customers' requirements.

### ADVANTAGES :

- High whiteness
- High purity

### APPLICATIONS :

- In making Calcium Carbonate that can be used in color, paper, paint and chemical factories
- As decorative stones and landscaping stones
  - As counter tops
  - As building material
  - In sculpture

### IRON ORE

**WASIT GROUP** can facilitate large order quantities of **IRON ORE** lumps directly sourced from our mines. Our **IRON ORE** products are also available in different sizes and weights and types namely **IRON ORE (HEMATITE)** and **IRON ORE (MAGNETITE)**.

Considering our vast experience in this field and dedicated employees, we are able to provide high standard of service in delivering our own high quality **IRON ORE** to our customers at competitive prices. With that, we developed strong relationships with our customers and they have been regularly procuring our goods and services.

#### ADVANTAGES :

- Different purity grades
- Different sizes

#### APPLICATIONS :

- In steel industries
- In cement production
- In paint factories

### FELDSPAR

We are engaged in mining **FELDSPAR** from our own mines which is a clean white mineral that contains sodium, alumina and silica along with some potassium and calcium. It is widely used in industrial applications for its alumina and alkali content. It can also be used in vitrified tile, ceramic glazes, polymers and plastic compounding, and as fillers in the paint, plastic, rubber and adhesive industries. We are manufacturing it in different sizes using our updated machinery and production lines and offering it at affordable prices.

#### APPLICATIONS :

- In glass making
- In ceramics production

**AFFILIATED  
COMPANY**

**WASIT SHIPPING AGENCIES LLC** is the affiliated company of **WASIT GENERAL TRADING LLC**. It was established in 2003 at Ras al Khaimah, United Arab Emirates with the objective of making marine transport more convenient and widening our existing customer base. We have our own modern fleets of 2,000, 5,00 and 12,000 barges with high cargo carrying capacity; this enables us to store and load more than two million tons of bulk cargoes per annum.

Our company has been servicing valuable customers from many countries and gulf coast regions for more than a decade. Our experience in shipping industry is remarkable particularly in loading bulk and packed cargoes in barges, vessels and containers using wide range of updated loading and unloading equipment and machineries. Our company is also employing dedicated and expert team that handles the operations of our entire marine and port services such as logistics, land transportation, storing, and loading, chartering.

**WASIT GROUP**

[www.wasitgroup.com](http://www.wasitgroup.com)

# LOGISTICS AND LAND TRANSPORTATION

**WASIT GROUP** is known for providing best logistics and land transportation services in the port. With our updated exclusive land transport fleet, we ensure on-time deliveries of different materials. We maintain our smooth and timely operations to meet our customers' satisfactions aside from the fact that we are putting our commitment to them on highest regard. Our efficient team comprises of flexible and well experienced employees.

## PORT FACILITIES

Our company is providing suitable **PORT FACILITIES** to our customers. With a dedicated stock yard for the storage of different materials; our company is an exclusive **SHIPPING AND FORWARDING AGENCY** known for easily carrying out of relevant works particularly port handling, container handling and stuffing, loading, discharging, and customs' clearing operations with all customs formalities. Efficient equipment is also used by the company in handling its cargoes for customers' satisfaction.

# WASIT GROUP

[www.wasitgroup.com](http://www.wasitgroup.com)

# MARINE TRANSPORT OPERATIONS

Our company is one of the reliable **SHIPPING AGENCIES** with more than ten years of experience in **DELIVERING BULK AND PACKED CARGOES IN BARGES, VESSELS AND CONTAINERS.**

We have highly **ACTIVE FLEETS** including several ships with 2,000, 5,000 and 12,000 Deadweight Tonnes (DWT) carriage capacities that always provide our customers timely delivery. This also serves as assurance that all of our consignments will be sent to any point of the countries located in **GULF AREAS.**

We also have trained officers and crews who are reliable in completing their assignment in delivering cargoes.

# SHIPBUILDING

We are engaged in construction and repair of different types of vessels as well as on-shore and off-shore structures such as landing craft, barge, tug, self-propelled barge, and ships in various tonnage capacities with highest quality standards. We have expert, creative and reliable manpower that handles the corresponding projects in consideration of our customers' budget and deadline. Proper coordination and keen observation of every details are two of the key points that our people employ in attending to our valuable customers' needs.
