About Us

Needs International is major Exporter, Importer and Supplier of Endo Kogyo-Spring Balancer, Air Hoist, Air Balancer, Tool Hose Balancer, UHT Corporation-Micro Straight Grinder, Micro Angle Grinder, KTC Corporation-Automotive Special Tools, Power Tools, Tool Storage, Measuring Tools, Riken Optech- Safety Device, Sandsun Precesion-Air Driven Hydraulic Pump Unit, Hishiko Corporation, and Welding Materials For Cast Iron. We cover the entire world in our business dealings. Moreover, in order to make it convenient for our customers we provide appropriate packaging material for the aforesaid equipments as per their requirements.

The respectable owner of the company **Mr. Sanjeev Suri** started this business endeavor with aim of meeting the global demand for various tools and equipments. Set up in the year of 2001, we have gained huge trust and experience, to satisfy all our customer needs timely.

WAREHOUSING

We have a strong and well set up warehousing area where we store all our equipment meant for overseas transportation and further sale. We have proper space designed for every product and we also pay special focus on its packaging so that the product remains new until it reaches the desired customers.

QUALITY ASSURANCE

We assure our customers about the quality of every product. Nearly all equipment brought by us from the manufacturing company is made to pass through several quality checks and is checked for efficiency by our skilled workers.

CUSTOMIZATION

We also provide specific customization for every product as demanded by our customers. We consider all the requirements of our customers and try to make it as per their wish. Our all tools and equipment are available in the market at reasonable prices.

Our Services

ENDO SPRING BALANCER

Riding on our experience in the industry, we, as a Supplier, Exporter and Importer of Endo Spring Balancer have positioned us in the upper echelons of the industry. The various grades and standards of quality are met by our quality team. Having an ergonomic design, the spring balancer is convenient for suspending an electric driver. The balancer is offered for our respected customers at cheap rates.

The endo spring balancers contribute to :

- Less fatigue and improved working efficiency
- Keeping a tool away from damage
- Making the working space available widely
- Safe works due to no electric power
- Accurate works and stable tool position.

Spring Balancer : EWS.EW.EWF model

ENDO AIR HOISTS

We, as a Supplier, Exporter and Importer, present Endo Air Hoists. Endo Air Hoist is globally no.1 pneumatic operated hoist on small and compact body provides easy handling. Their intricate design and durability set them apart from the rest. On customers' request, we make the customized specifications available. It is known for its high Speed operations to improve work efficiency, Smooth and step less operations avail for precise works like jig setting, air hoist, air motor realize safe working conditions against the work in the risk of explosion like the chemical factory.

Details :

- Contribute to the improvement of working efficiency and worker's fatigue
- Suit the work of which high speed is required, such as material lifting etc
- Employ an air motor and no electric power is required
- Work with step less speed control
- Include a reverse winding prevention device which actuates at 2m wire rope pay out
- This is available for reverse winding prevention
- Limitation mechanism is applied to EHL series.

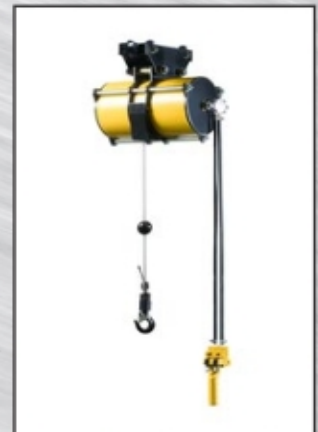

ENDO AIR BALANCER

As a well-known Supplier, Exporter and Importer in the market, we are fanatical for our work and quality. We are providing Endo Air Balancer which has pendant control ergonomic up/down pendant control for variable speed cable retract brake, if the load is accidentally lost, a spring loaded centrifugal brake automatically stops the rapid upward cable travel Overload protection, the load being lifted can never exceed the unit's maximum rated capacity at a given air pressure. It is available with the facility of dropping product at your doorsteps.

Details :

- Pendant Control Ergonomic Up/Down pendant control for variable speed.
- Cable retract brake, If the load is accidentally lost, a spring loaded centrifugal brake automatically stops the rapid upward cable travel.
- Overload protection, the load being lifted can never exceed the unit's maximum rated capacity at a given air pressure.
- Safety, if the air supply is ever interrupted, the unit will maintain the load in the suspended position.
- Down stop, eliminates the down-drift of suspended loads if air supply is shut down /Hose Cut.
- Inertia Breaking, hoisting with Inertia Prevention unit optional.

Our Services

ENDO TOOL HOSE BALANCER

Having created an image as a reliable Supplier, Exporter and Importer, we offer you our new product, which is Endo Tool Hose Balancer. It is safe for use, if the air supply is ever interrupted, the unit will maintain the load in the suspended position. Down stop, eliminates the down-drift of suspended loads if air supply is shut down /hose cut. In order to ensure quality of offered products, these products are stringently examined on numerous parameters of quality by quality experts.

KITO JIB CRANE

Jib Cranes Armsel Jib Cranes are big money savers for every industry and business ARMSEL has a solution for any localised material handling with a specific jib crane and lifting tackle from a wide range of types and Capacities.

All Jib Cranes are designed maintaining working stress well within the limits as per available and relevant I S specifications. Deflections of Jib Arm can be restricted as per customer's actual need, based on cost and design. ARMSEL Jib Cranes are designed to occupy minimum floor space and maximum approaches. Easy erection features are in-built characteristics. All self-supported models can be wired internally from isolators to Jib Arm through Slip rings, thus making the crane safer.

A full range covering entire lifting needs is now available with ARMSEL - the nation-wide leader in lifting gear.

KITO ELECTRIC CHAIN HOIST

We have carved a niche in the industry by presenting a wide range of Electric Chain Hoist. As a Supplier, Exporter and Importer, we proudly present Kito Electric Chain Hoist. We are providing the best range of electric wire rope hoists such as monorail hoist, fixed suspension hoist, cage hoist and single phase electric wire rope hoist with effective & timely delivery. Such a quality is made available at economical rates for our customers.

Features :

- Dual speed inverter delivers smoother movement than ever.
- Double safety mechanism which consists of Friction clutch and upper lower limit switch.
- Safety, durability and ease of maintenance

KITO CHAIN PULLEY BLOCK

We offer the best quality on market to our customers. As a Supplier, Exporter and Importer, we proudly present Kito Chain Pulley Block. We offer absolute quality, high durability and fascinating designs in our Kito Chain Pulley Block. We make sure to match the highest standards of quality. These Chain are made available bu us at reasonable prices for our valued customers.

Specifications : Capacity 500 Kg to 5 Ton

Our Services

KITO LEVER BLOCK CHAIN HOIST

We are a renowned organization that is engaged in Supplier, Exporter and Importer a broad spectrum of Kito Lever Block Chain Hoist. To guarantee protected transit of the offered range, we pack these hoists in best quality packaging material. It is widely demanded due to its best quality features like resistance to heat, efficient functionality temperature or corrosion. Our team of expert professionals matches them to industrial standards of quality.

Features :

- Incorporate latest technical innovations
- Different advanced engineering concepts with special emphasis on safety and versatility
- Excellent load bearing capacity

MICRO STRAIGHT GRINDER

If a person requires slow and noiseless grinding Micro Straight Grinder is the best choice for such grinding purposes. The Micro Angle Grinder is a 17mm and 12 angles stick which can be comfortably held with the hand, and starts rotating when applied for rotation. The super high rotation grinder inbuilt in it adopted with vane motor by proprietary enables less vibration and low noise. The abundant tip tools that come with Micro Straight Grinder can be used for various purposes. Micro Straight Grinder is easily available in the market at pocket friendly prices.

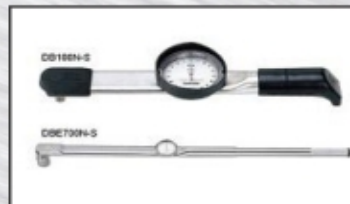

TOHNICHI TORQUE WRENCH

We are the innovative Supplier, Exporter and Importer for Tohnichi Torque Wrench in a wide range of battery-operated wrenches, electric wrenches, hydraulic wrenches, torque multipliers and pneumatic wrenches. We are providing many torque wrenches which are digital torque wrench tester (DOTE3-G), tohnichi torque wrenches (DBDBEDBR Series), tohnichi torque screwdriver (ACLS25N), tohnichi torque wrenches (CBD-S Series) and tohnichi torque wrenches (T-S Series). Our all Torque Wrench are very precise quality available at economical prices.

**DIGITAL TORQUE WRENCH
TESTER (DOTE3-G)**

**TOHNICHI TORQUE WRENCHES
(DBDBEDBR SERIES)**

**TOHNICHI TORQUE SCREWDRIVER
(ACLS25N)**

**TOHNICHI TORQUE WRENCHES
(CBD-S SERIES)**

**TOHNICHI TORQUE WRENCHES
(T-S SERIES)**

IMPACT WRENCHES

Our Services

FUJI TOOLS

We are engaged in offering our customers a wide array of Fuji Tools. As a Supplier, Exporter and Importer, we take pride in presenting the customers the best quality of Fuji Tools .our range of tools is widely appreciated by our customers for dense design, optimum quality and high performance. To further add to its allure, it is available in customized specifications at cost-effective prices. The range on offer includes Fuji Baby Angle Drills, Fuji Air Motor, Fuji Angle Grinder and many others.

Our Clientele

NILE AIR TOOLS

To keep up with the dynamic demands of customers, we are engaged with providing a vast selection of Nile Air Tools. We are the proud Supplier, Exporter and Importer of Nile Air Tools. These are tools driven by gas, usually compressed air supplied by a compressor. Pneumatic tools are commonly cheaper and safer to run and maintain than their electric power tool counterparts, as well as having a higher power to weight ratio, allowing a smaller, lighter tool to accomplish the same task. We stock major Nile Air Cutter, Nile Air Fill Saws and Nile Air Plate Shears.

NILE AIR CUTTER

NILE AIR FIL SAWS

NILE AIR PLATE SHEARS

SANDSUN OVERLOAD PROTECTOR

Our organization instrumental in providing excellent quality Overload Protector For Press Machine, which is manufactured by using high grade material.

NANABOSHI CONNECTOR

Nanaboshi Connector is known for its high quality connector for telecommunications devices, industrial equipment, electrical power equipment, measuring devices, electronic devices etc. with wide range of connectors type such as NET, NEW, NJC, NR, NJW, NRW, NCS, NWPC, NT, NHVC, NMI Series. We are the Supplier, Exporter and Importer of this product. The standard of metal connectors, and carry the largest stock in the country, Stocks include the highly versatile NCS series of metal connectors (plugs) for indoor use.
