

# EVERON IMPEX

*Year of Establishment*  
**2006**

**Manufacturer,  
Exporter  
& Supplier**

Everon Impex creators of machines that create ultimate design with Everlasting strength and extreme performance.

# ABOUT US

Everon Impex creators of machines that create ultimate design with Everlasting strength and extreme performance.

## ◆ Quality Policy

We are committed to fulfill our customers expectation by continually improving our capability in the construction machinery's and by improving the performance of our systems.

In order to meet the highest benchmarks of quality, our team strive to manufacture the entire range in compliance with the international quality standards. Post-production, these machines are checked thoroughly on various parameters by our team of quality controllers to ensure high functionality. Owing to this, we have attain an ISO 9001:2008 certification.

## ◆ Client Satisfaction

Since our commencement, we have paid utmost attention on gaining the complete satisfaction of our customers. For this, we make sure that the products are offered to the customers as per the specifications provided by them. Our team members remain in close contact with the customers to offer the products accordingly. We also offer after sales service to serve our clients in the best possible manner. Additionally, we accept payment from various simple modes to make hassle free monetary transactions. Owing to our ethical business practices and transparent dealings, we have been able to retain the confidence of our customers based across the nation.

## ◆ Research and Development

The research and development unit in our organization offers us with the necessary know how that supports us in offering premium range Construction & Concrete Block Machines to our clients. Our expert researchers carry out in depth laboratory and market research to keep the organization abreast of the latest trend and raise the bar of our product offerings. Keeping themselves updated with the most current technology and incorporating the same into the manufacturing process has kept us ahead in the domain.
