HAND SANITIZER

www.communitydiagnostic.co.in

Community Diagnostics is a noted name associated with the medical sector of India. We are serving as a producer, supplier, and exporter of an assortment of hygiene equipment. The list includes a face mask, face shield, hand sanitizer, infrared thermometer, and personal protective equipment kit. The raw material for every listed item is acquired from a licensed vendor in the market. Our R&D team sterilizes and sanitizes every final product before it is approved for further supplies and exports. Hence, our reputation is widely acknowledged among the clientele. We entertain bulk orders and thus, feel free to drop your query related to the purchase of hygiene equipment.

Community Diagnostic operates from New Delhi (India). We're a team of professionals from the medical industry. Every individual associated with us is qualified and holds expertise in their respected responsibilities. Hence, people rely on our products which have been an apprentice for us in gaining clientele across India and overseas.

MANUFACTURING UNIT

We own a commodious manufacturing unit. Equipped with the latest machinery, we produce a huge number of hygiene equipment like a face mask, face shield, hand sanitizer, infrared thermometer, and personal protective equipment kit. Since the machines are operated automatically, the production is always high.

CLIENTELE

Community Diagnostic is a noted entity in the domain of the medical space of India. Owing to our matchless production & provision of hygiene equipment, we've been successful in carving a sizable clientele nationwide. Besides, we also have a clientele cobweb in different countries worldwide.

CHOOSE US

Clients turn to us because we provide the best of our commitment, have flexible payment policies, and zero additional fees apart from the applicable taxes. Hence, choosing us always proves to be beneficial for several clients.
