

RAJA BIDI

Raja Biri has carved a niche for itself as the prominent Manufacturer and Supplier of Tobacco Products like Chewing Tobacco and Tobacco Bidi. Our tobacco products are known for their freshness, smoothness, natural flavors and rich taste. Moreover, our responsible team and modern infrastructure have given us a respectable position in the market. We provide customized packaging solution to our clients as per their specification. Our distribution personnel put their maximum effort to deliver the products safely within the designated time period.

ABOUT US

Based in Nadia (West Bengal), **Raja Biri** was set up in the year 1995. We have crossed milestones under the guidance of the CEOs, **Mr. Kundan Das** and **Mr. Hare Krishna**. Our ethical trade policies and fair business policies have garnered us a big client base in the country.

Infrastructure :

We have to our credit an advanced infrastructure that is spread over a considerable area. We manufacture our products using premium raw tobacco, which we procure from renowned and trustworthy vendors. The robust warehousing and packaging department assist us in delivering urgent and bulk orders within the stipulated time period in the most effective manner.

Team :

We are backed by a team of highly qualified and experienced professionals that strives to deliver unmatched quality of products. Our workforce has an excellent know-how about the manufacturing process and the capability to deal with extra work pressures. The company runs skill development programs for workers regularly.

Quality Promise :

Ever since inception, we have been providing superior quality products to our customers. We have earned a reputed name and fame for our quality products. For assuring optimum quality, we have an in house quality testing laboratory that is under the stringent supervision of quality auditors. They keep an eye on all processes, starting from procurement to final delivery.

OUR PRODUCTS

CHEWING TOBACCO

Suiting the taste of different classes, we offer exquisite range of smokeless Chewing Tobacco. The Chewing Tobacco can be easily consumed by putting it between the gum and cheek or in the upper teeth. Flavored with several aromatics, it releases an exotic flavor along with nicotine when crushed in the mouth. We manufacture Chewing Tobacco in the most hygienic and clean environments offering the customers with only the best quality product.
