

B.R. Industries

PULVERIZER, CENTRIFUGAL DRESSING MACHINE, INDUSTRIAL MIXERS

- **Micro Pulverizer**
- **Dust Collector**
- **Mixer With Screw Conveyor**
- **Turmeric Grinding Plant**
- **Blended Spices Grinding Plant**

About *Our Company*

B.R. Industries was incepted in the year 1993 in the city of Hyderabad (Andhra Pradesh), the southern region of the country. Since then, we are continuously manufacturing high graded machines. We are counted amongst the most prestigious manufacturers and exporters, based in India. We have mastered in the art of manufacturing various grinding machines which includes spices grinding plant, grinding pulverizers, powder sievers, screw conveyors, Industrial Mixers, etc.

We have a strong infrastructural base in Hyderabad, which is equipped with the most modern machines used in the art of production. We use up-to-the-minute technology in the production of our highly advanced machines. We use only the best quality raw material that is sourced from renowned suppliers. In addition, we also develop and manufacture machines as per client's requirements.

Our machinery of new technology is increasing, due to various benefits like save in time and power and even yielding large gains to both the manufacturer of the machinery and the user.

B.R. Industries manufacturers, suppliers and exporters of pulverizers and semi automatic plants for grinding spices, poultry cattle, aqua feeds, saw dust, minrals, chilly cleaning and deseeding plants and Industrial Mixers. Commonly used grinding equipment in the food processing industry include spice grinding machine, chilli grinding machine, chilli de seeding Machine, garlic paste making machine, turmeric, pulses, rice grinding plants, chilli cleaning machine, etc.

Our machines (Products) retain the superior qualities of the product even after cutting and grinding of the product. Our machines are available in three ranges i.e. In mild steel, in pure stainless steel and in stainless steel lining. Our machines requires less man power, thus cutting up the cost of the operation.

Our Motto

- To provide "Unmatched" quality to our clients.
- To service our clients with clear focus and dedication.

Our *Products*

B.R. Industries

Micro Pulverizer

Dust collector

Our Micro Pulverizer has a compact and a stiff construction, which makes it free of vibrations. We use the best quality raw material in manufacturing micro pulverizer, thus ensuring a highly reliable and durable machine to our clients. Our micro pulverizers are accessible at the most reasonable rates.

Salient Future:

- Designed and Manufacture with precision Eng Techniques.
- Compact and Rigid Construction hence free of vibrations.
- Works on the Principle of cutting & crushing thereby retains original valuable product qualities.
- Product fineness is controlled by change of perforated sieves.
- Available in wide range of capacities in Mild Steel, Stainless Steel & Stainless Steel lining.

Applications :

Suitable for Chilies, Coriander, Black Pepper, Tea, Sugar, Husk, Roots, Neem seed , Turmeric etc.

Specifications :

250-300 Kgs Per 8 Hour(10HP-1440 RPM)
500-600 Kgs Per 8 Hour(25HP-1440 RPM)
900-1000 Kgs Per 8 Hour(40HP-1440 RPM)
1200-1300 Kgs Per 8 Hour(50HP-1440 RPM)
1500-1600 Kgs Per 8 Hour(60HP-1440 RPM)

Mixer with Screw Conveyor

B.R. Industries is one of the distinguished industrial Industrial Mixer(Blending Machine) Manufacturers and exporters, situated in India. We also provide Good quality Industrial Mixers at various profitable deals to honored clients. Our grinder Industrial Mixer consumes lesser energy and gives you the maximum output. We proffer Industrial Mixers at the most competitive prices.

Salient Future:

- The Mixing action is done through the rotary motion of blending arms inside the mixture
- Excellent Mixing and cooling operation will be carried out in the Industrial Mixers
- It gives high output with low power consumption by means of gear reduction unit
- Gates are made up of standard steel alloys with perfect machining and teeth melting
- Available in wide range of capacities in MILD STEEL AND STAINLESS STEEL from 250KGS to 3 Tones Capacities.

Turmeric Grinding Plant

Turmeric, Pulses and Rice Grinding Plant

Consists of 1 No. of Cone Type Pulveriser (Grinder) Grinding all Non abrasive materials upto 300 Mesh. 1Nos Of Screw Conveyor (material lifting from machine to Dresser) and Dresser designed to suit Nylon and steel sieves of different Mesh. Thorough sieving and excellent grading. Plant is Suitable for Turmeric, Urad Dhall, Besan, Dry Ginger, Saw Dust, Coconut Shell, Pharmaceuticals, Chemicals, minerals.

Plant Available in Capacities:

- 100-125 Kgs Per Hour
- 300-350 Kgs Per Hour
- 500 - 600 Kgs Per Hour
