# About Us

Established in the year 1962, Saggu Toka Industries is a Moga (Punjab) based company actively engaged in manufacturing and supplying of wide variety of Industrial Blades. Under visionary guidance and consistent support of Mr. Jagtar Singh (Proprietor), we are leading the road to success. His years of valuable industry experience have helped us to flourish our name among top-ranked organizations in this domain.

## ● State-Of-The-Art Production Facilities

We have access to latest fabricating technologies on account of which we present the most appropriate product options as per requirements specified by customers. Additionally, we practice quick response manufacturing which not only saves customer-lead time but also assists us to eliminate non-value added waste and elevate delivery time. Alongside, the fabricating unit is equipped with upgraded versions of designing, cutting, assembling and packaging machinery.

## ● Compliance With Regulatory Considerations

With a pursuance to maintain the highest grades of integrity, we have stringent quality check system maintained as per recognized standards of international industry. Our product line is manufactured using quality grade raw components sourced from some of the trusted vendors and distributors in market. Moreover, we have appointed panel of quality supervisors who thoroughly ensure strength, sturdy built, corrosion resistance, dimensional accuracy, functional efficacy and other quality aspects before final dispatch of consignments.

## ● Organization & Management

Since more than 52 years, our company is evolving with respect to emerging trends and upgrading work standards in industry. We are supported by team of assiduous workers well-trained and experienced in their respective forte. We would not have been able to gain competitive edge over our existing competitors without integrated efforts of the management and our team.
