

SAMAY-ASIA PRESSFEEDS & COIL AUTOMATION COMPANY IS A LEADING NAME AS MANUFACTURER, EXPORTER & SUPPLIER OF NC SERVO ROLL FEEDER, MOTORISED DECOILER, STRIP STRAIGHTENER MACHINE, PNEUMATIC FEEDER, MECHANICAL GRIPPER FEEDER, DECOILER CUM STRAIGHTENER, PNEUMATIC CUT TO LENGTH MACHINE, PNEUMATIC THIN STRIP FEEDER, POWER PRESS AUTOMATION UNIT, POWER PRESS FEEDER, SINGLE HEAD DECOILER AND DOUBLE HEAD DECOILER. THE OFFERINGS OF THE COMPANY ARE BASED ON THE LATEST TECHNOLOGY; THUS, ARE HIGH IN PERFORMANCE. AS WELL, THE PRODUCTS PROVIDE COMPLETE VALUE OF MONEY TO THE BUYERS AND THAT'S ONE OF THE REASONS WHY COMPANY HAS BECOME A WIDELY SOUGHT-AFTER NAME IN THE INDUSTRY.

Samay-Asia Pressfeeds & Coil Automation Company
(AN ISO 9001:2015 & CE CERTIFIED COMPANY)

ABOUT US

Located in New Delhi (India), Samay-Asia Pressfeeds & Coil Automation Company is a prominent Manufacturer, Exporter & Supplier of high efficiency metal stamping industries. He has vast industry experience along with in-depth understanding of the recent market trends.

- Nothing Less than a world brand.
- Nothing Less than 100% Innovation.
- Nothing Less than 100% Precision.
- Nothing Less than 100% Service.
- Nothing Less than 100% Team Work.

Made by Samay-Asia is a Guarantee that Has There, Dedication and Superior Technology Because a Worldwide Synonyms for out Standing Precision, Performance, Reliability and Highly Efficient press feeds & Coil Automation Technology.

Samay-Asia Customer also Profit from The Unequaled Durability of the Press Feeds & Coil Automation. The Proof of This is a large No. of Satisfied

customers. We have been using our products. No Matter how Complex Your Application is the Worldwide. Samay-Asia Team Will Find a Solution that Serves your efficiently and effectively.

Application

Samay-Asia Products are Used in Different Areas of Production of Sheet Metal Components Like Door-hings, Electrical Stamping & Lamination, Relay, Gaskets, Thermostates, Autoparts, Circular Saw, Clutch Plates, Wire Components of Plastics or Paper are to make the Production More Faster & More Accurate.

Production & Other Facilities

We have judiciously invested in the manufacturing facilities. Our production unit is spread over a large area and has all the requisite machinery. Similarly, we have sophisticated packaging, storage and transportation facilities.

Team

There is an ingenious team of professionals making it possible for us to come up with the best of products and services. They have substantial experience and expertise of their respective domains. Unquestionably, we have always been able to keep the clients contented.

WHY PREFER US?

- WE PROVIDE BEST-IN-CLASS PRODUCTS AT REASONABLE PRICE.
 - WE HOLD VAST INDUSTRY EXPERIENCE.
 - WE ENSURE COMPLETE CLIENT SATISFACTION.
 - WE ADHERE TO ETHICAL BUSINESS PRACTICES.

OUR PRODUCTS

Pneumatic Feeders

Samay-Asia High Precision Air Feeder is a Perfect match of superior quality material and technically advanced design. It is developed under strict quality control parameter for automatic feeding of metallic and none metallic coil material and provides high feeding speed with accuracy for a longer time which makes it reliable and it is pocket friendly too.

NC Servo Roll Feeder

Samay-Asia High Speed Servo Roll Feeder is thoughtfully designed and developed including guaranteed high rigidity and endurance. It ensures the most precise pitch feed by adopting high performance AC Servo Motor, simple to adjust the feed length as well as equipped with electric pass line adjustment.

Strip Straightener Machine

Samay-Asia High Precision Straightener machines are specially designed for perfect precision leveling performance and suitable for straightening of various thicknesses metallic materials with variable speed control including forward and reverse feeding program. Rollers material is D2 and chromed and grinded at 60° to 62°.

OUR PRODUCTS

Motorised Decoiler

Samay-Asia De-coilers/Un-coilers are suitable for continuous feeding for all kind of coil material feeding and can work together with straightener. Guaranteed operation after setting and available in motive and none motive style depends on suitability.

Mechanical Gripper Feeders

Samay-Asia mechanical gripper feeders are perfect solution for feeding strips on medium/high speed presses.

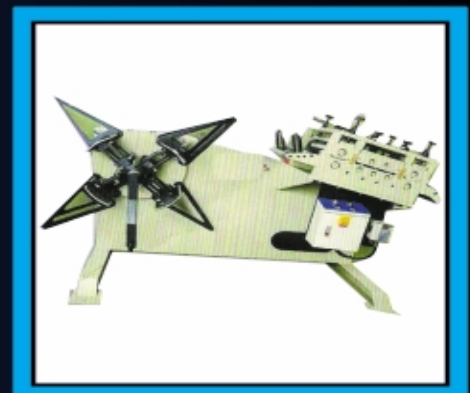

Standard Features :

- Accurate and easy pitch adjustment.
- Transmission through bevel gear box and carbon shaft from the press lubrication oiling by grease nipple.

Decoiler Cum Straightener

We are known as one of the leading Manufacturer, Exporter & Supplier of Decoiler Cum Straightener (2 in 1 decoiler with Straightener) in Delhi. We specialize in manufacturing Decoiler Cum Straightener as per the defined industrial standards. Our Decoiler Cum Straightener is rates as best in class, as we use only the finest technology and material in its manufacturing.

OUR PRODUCTS

Pneumatic Cut To Length Machine

Samay-Asia Pneumatic Cut to Length machine is specially made for thin type metallic and none metallic material in coil form. Eg: Copper, Brass, CR, Plastic, Paper, Fabric, Poly film, Tin, Nylon, Rubber etc. It's special compact design saves you working area and increase you productivity with cutting accuracy (± 20 microns).

Pneumatic Thin Strip Feeder

Samay-Asia PressFeeds & Coil Automation Company is one of the acclaimed Manufacturer, Exporter & Supplier of Pneumatic Thin Strip Feeder. Our Pneumatic Thin Strip Feeder is mainly used in Press Feeding Line for sheet metals parts making industries. It is fitted with superior quality parts and component as per laid quality standards.

Power Press Automation Unit

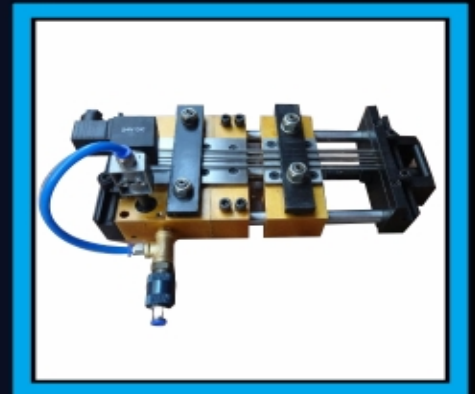

We are a recognized name engaged in complete ranges of Power Press Automation Unit, Which are available in cost effective price, Delivering outstanding long listing performance, Samay-Asia made all products are simple in operating and in return demand low maintenance.

OUR PRODUCTS

Power Press Feeder

Samay-Asia Pressfeeds & Coil Automation Company Superior Offer the most extensive selection of Power Press Feeder such pneumatic feeder, servo feeder, decoiler, uncoiler, straightener, leveler, twin decoiler in the sheet metals components making industry.

Double Head Decoiler

High speed twin decoiler/uncoiler, easy operate to work with high speed press. Save the material changing time and it improve production efficiency. Suit to all kind of straighteners.

Manual Expansion is standard. Hydraulic expansion is optional for narrow material, cradle can ODM to move righter and left. Suitable for fast punching speed like stator rotar and EI sheets etc available in motorized and none motorized style.

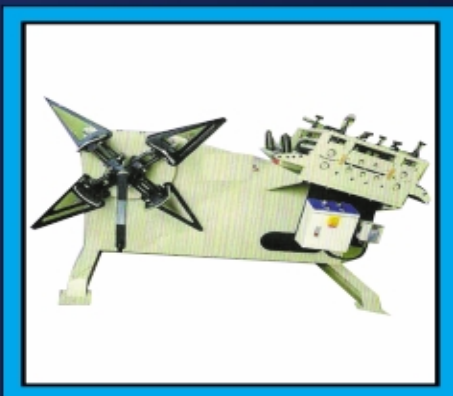

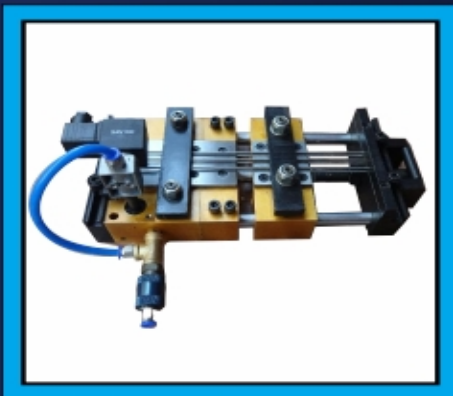

Single Head Decoiler

Samay-Asia De-coilers/Un-coilers are suitable for continuous feeding for all kind of coil material feeding and can work together with straightener. Guaranteed operation after setting and available in motive and none motive style depends on suitability.
